Somsac

We are a company dedicated to the manufacture and/or repair of metal mechanic parts.

We have been present in the market since 2015, in which we have a direct relationship with several manufacturing industries such that are in the aerospace and electronic sector, as well as with businesses from other different sectors.

We work by the ISO 9001:2015 norm of Quality System, in which we have a certification, and our mission is that our services meet the requirements of our customers in terms of quality, time and service, while maintaining competitive prices.

The services we offer are divided into four areas:
