- The PMA Group is committed to our employees, customers and the development and innovation of companies that forms the group:

El Tizne
ASADORES®

 PMA
PRODUCTOS METALICOS Y ACRILICOS

HISTORY

PMA Group is a company that has been evolving over time based on the needs and concerns we have had to grow, innovate and put up a company born in Chihuahua and intends to be one of the most important in Mexico and even have international participation.

PMA Group begins with the parent company's PMA Acrylic Metallic Products at early 2002, which has remained in the preferences of our customers standing out for the manufacture and marketing of modular systems for displays and storage products. As well as developing projects for each of our customers.

This is the main division of the Group PMA, which is dedicated to the processing of metal products to serve different segments of our society. Thanks to the experience, equipment and trained people we can offer our great service in different areas.

MISSION

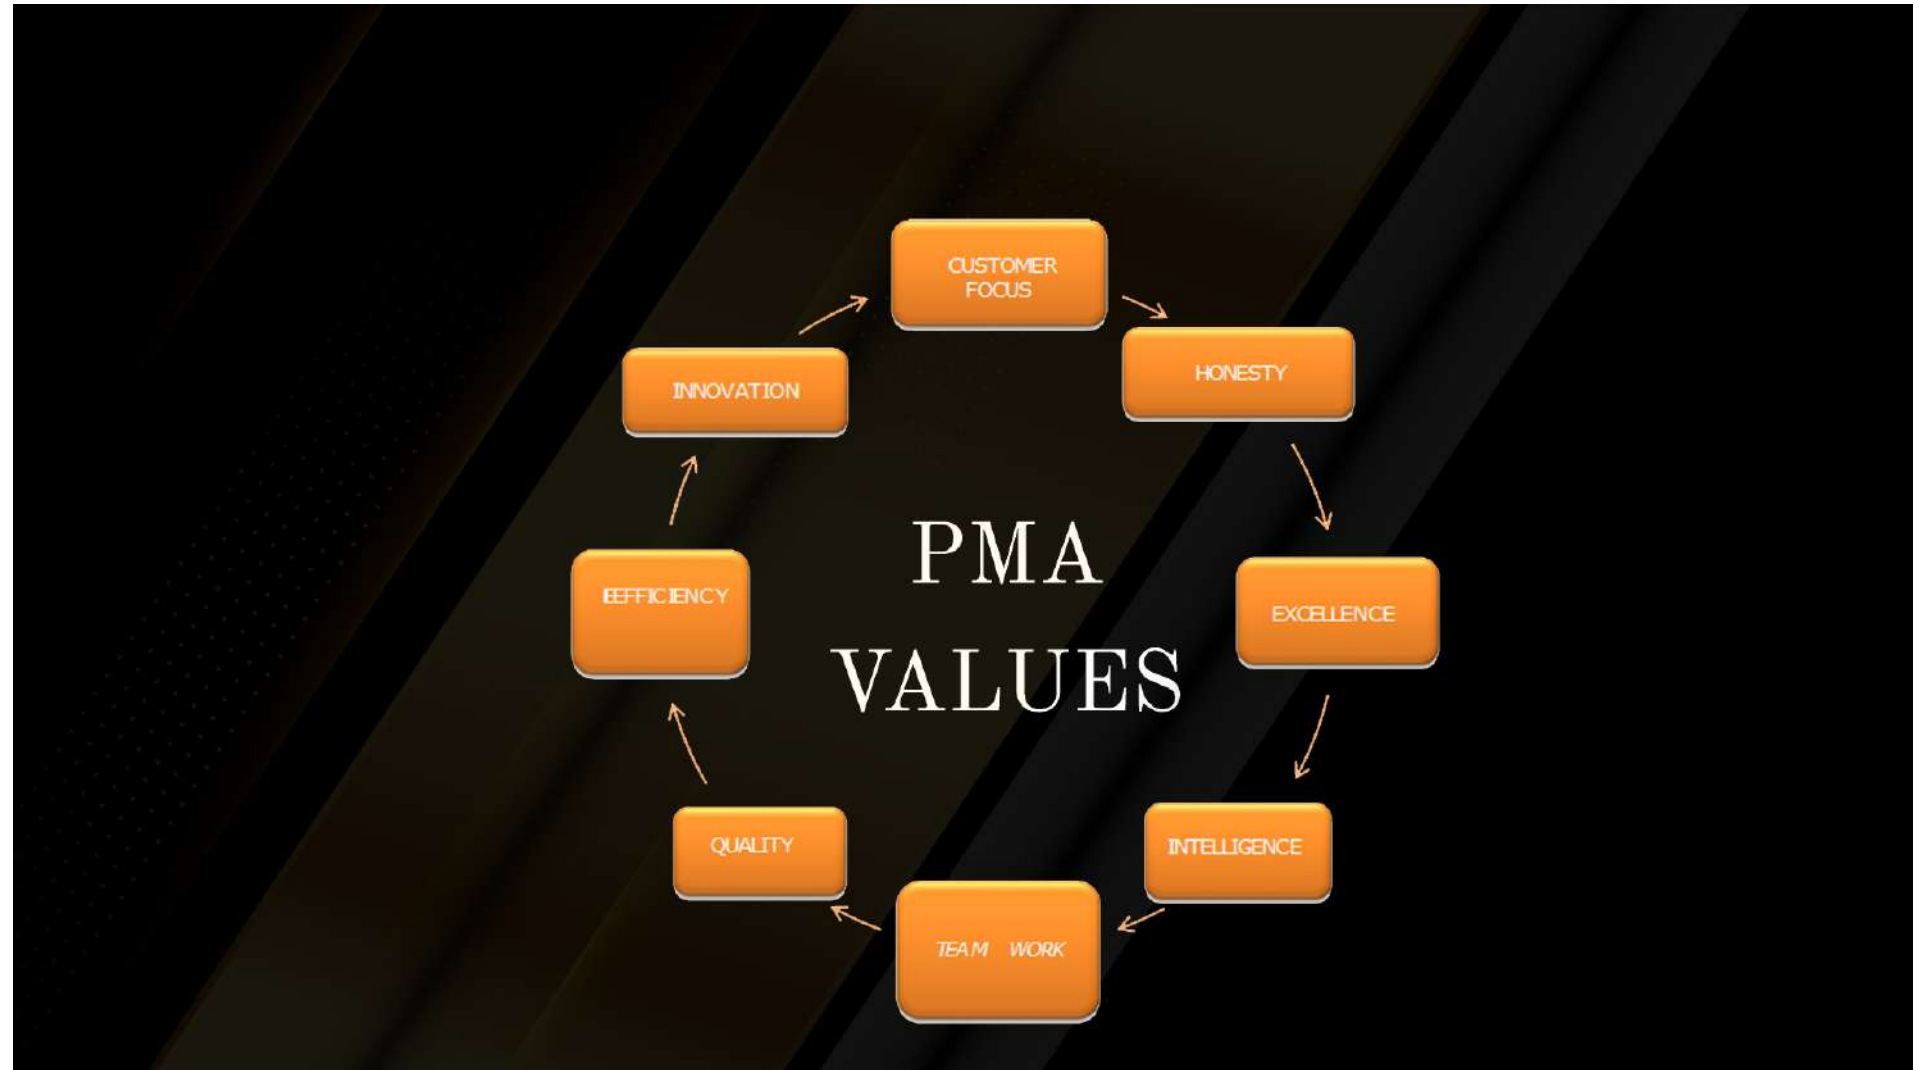

Provide material handling and storage systems that contribute to the optimization of our clients' resources.

VISIÓN

PMA aspires to ...

"To be the best option of equipment for: internal handling of materials, storage and production processes of manufacturers and distributors"
