

PLASTIC MOLDING TECHNOLOGY

Injecting Quality Into Everything We Do.

PRECISION INJECTION MOLDING

QUALITY FIRST

- ISO 13485 in 2022
- ISO 14001
- ISO 9001:2015-registered
- Advanced metrology
- Automatic vision systems
- DOE capabilities
- IQ/OQ/PQ validation
- Full traceability
- Robust quality systems led by Six Sigma Black Belts

CLEAN, MODERN MANUFACTURING FACILITY

- 2,500 sq. ft. of dedicated medical molding space
- Insert & over-molding
- 73 injection molding machines ranging 20 - 500 tons
- 60,000 sq. ft. facility with room to expand
- Certified RJG Master Molders
- Fully automated cells
- Scientific molding
- In-mold cavity pressure monitoring
- In-house assembly operations
- Real-time production monitoring
- Secondary value-added operations: pad printing, bagging, sealing

SPECIALTY RESIN EXPERTISE

PMT has injection molding down to a science, and is experienced in molding engineering-grade resins:

- PC
- PE
- PP
- ABS
- PBT
- PPS
- PET
- TPU
- TPR
- PA 66

PLASTIC MOLDING TECHNOLOGY
