Today

applications

Metal forming comparison

A cost-effective solution with a shorter time to a production part

Custom • Quick • Cost-effective

- Automated
- Scrap-less
- In-house engineering and tool makers

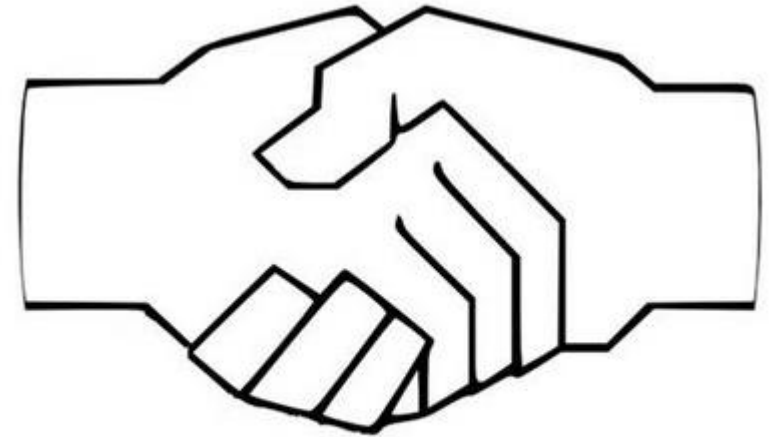

INNOVATION

www.beadelectronics.com

Thank
You!

- We use a unique process
 - Works well in some applications
 - If you can think differently, you may find that you can use a new process to address your needs.
- Our website has:
 - More information about swaging
 - An area to upload your drawing or concept sketch
 - There are also some “build-it-here” tools available.
- Custom parts, Quick & Cost-effective

THANK YOU

Gerardo Vera
