

## Company Profile

For over 60 years DC Gaskets has manufactured high-quality automotive gaskets, we have evolved innovating with materials, providing sealing solutions for the international market; with state-of-the-art technology in our production processes, we ensure top quality with continuous improvement highlighting our technological supremacy with our DC Graph TechSeal®.

By 2010, DC Gaskets opened a new manufacturing line, significantly increasing our operations, which was necessary to meet rapidly increasing demand for automotive PISTONS in national and international markets, facilitating company's successful growth strategy.

DC Gaskets constantly innovates and improves, always seeking to satisfy the customer's expectations with an exclusive service, having a considerable level of coverage according to the market needs.

To ensure customer satisfaction, we implement international quality controls from tooling design, product engineering and acceptance, content control, packaging, and product handling among others.

Our goal is to deliver world-class gaskets built with security, technology and trust.
