

Company Overview

2022

Company Snapshot

Ducommun is a global supplier of design, engineering & manufacturing solutions for today's high performance Aerospace, Defense & Space programs. We are a leader in innovative electronic solutions, structural solutions, engineered products and aftermarket services.

Extensive Offerings on Commercial & Military Fixed Wing Aircraft

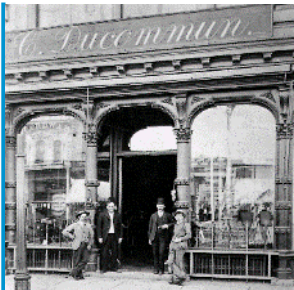

Diverse Content on Key Missile Platforms for Land, Air & Sea

Expansive Footprint on Commercial & Military Rotorcraft

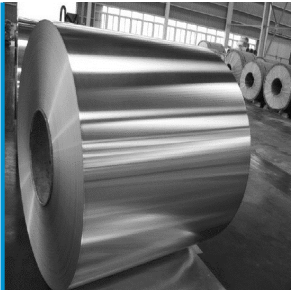

Our Rich History

1849

Founded as a watch business, & then general store, during Gold Rush years.

1950s

Becomes largest metals materials supplier to the Aerospace industry in Southern Calif.

2000s

Expands into Engineered Products through strategic acquisitions.

1848

California becomes part of the United States.

1930s

Provides aircraft aluminum to Aerospace pioneers Lindbergh, Douglas and Lockheed.

1960s

Diversifies into distribution of electronic components for the Aerospace industry.

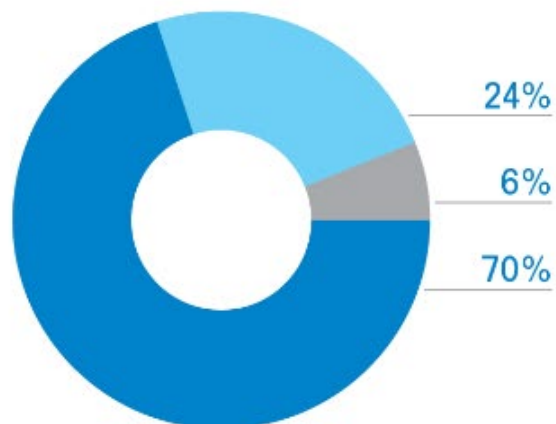

2017+

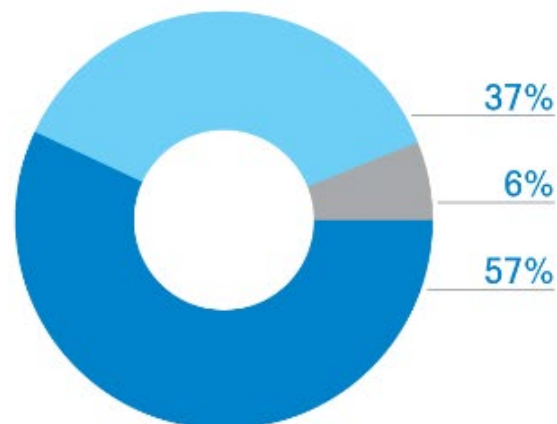

Sharpens strategic focus on Aerospace & Defense, along with streamlining the organization and acquiring three companies.

2021 Net Revenues

**2021 NET REVENUES
OF \$645.4 MILLION**

**TOTAL BACKLOG* AS OF DECEMBER 31, 2021
OF \$905 MILLION**

- COMMERCIAL AEROSPACE
- INDUSTRIAL
- MILITARY & SPACE

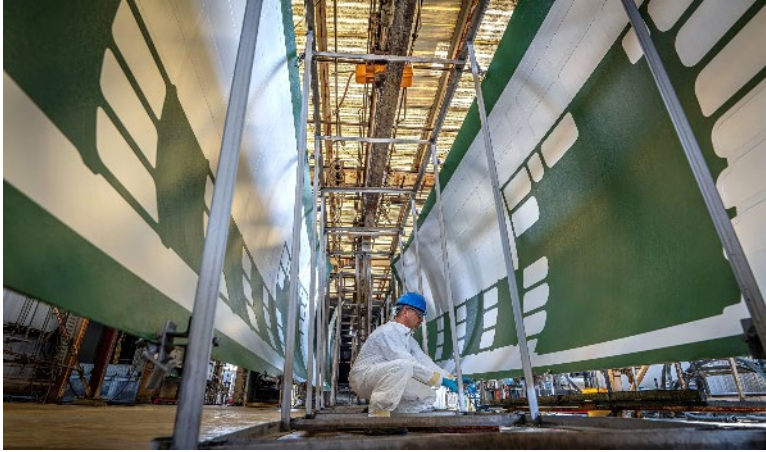

*We define backlog as potential revenue based on customer purchase orders and long-term agreements with firm fixed prices and expected delivery dates of 24 months or less.

Our Locations

Innovative Solutions for Aerospace, Defense & Space

STRUCTURAL SOLUTIONS

- Titanium Forming
- Engine Ducts, Pylons, Firewalls, Exhaust Ducts, Nacelles
- Metal Forming & Chemical Milling
- Skins, Leading Edges, Stabilizers, Cargo Doors
- Spoilers, Winglets, Tail Cones Rotor Blades
- VersaCore Composite™ Technology

ELECTRONIC SOLUTIONS

- Circuit Board Assembly
- Complex Interconnect Assembly, Cables, Wiring Harnesses
- Integrated Assembly, Box Builds, Rack Builds, Systems
- Wide Range of Design Services
- Prototyping Services
- Aftermarket Support (FAA 14, EASA)

ENGINEERED PRODUCTS

- Cockpit Interface Systems (HMI)
- RF Products
- Motors & Resolvers
- Lightning Diverter Strips & Suppressors (Lightning Diversion Systems)
- Extruded Plastics (Certified Thermoplastics)
- Ammunition Delivery & Handling Systems (Nobles Worldwide)
- Magnetic Sealing Solutions (MagSeal)
