

ORIENTED TO
PROVIDE
SOLUTIONS

Machining Capabilities

- Precision CNC turning, drilling and milling
- Induction hardening
- Spline hobbing and rolling
- Grinding and hard turning
- Roller burnishing
- Broaching
- Systems integrated with automation

Monday - Friday 8:00am- 17:30pm CST

Competencies

Forging

Diverse capabilities

Machining

Hot Forging steel from 2 to 60 kilograms

Heat treatment

As forged and machined parts

Welding and assembly

Componentes for a variety of applications

Design & Fabrication

Tooling for forging and machining, fixtures, gauges and special tools

Product and component design

FORGING THE BEST SOLUTION

MORE THAN 50 YEARS OF EXPERIENCE IN THE TRANSPORTATION, ENERGY, AND INDUSTRIAL

Certifications:

- ISO/TS 16949
- ISO 140001
- ASME U#48608
- PED

Quality:

- Quality philosophy based on world class methodologies and customer requirements

Forging Equipment

- Upsetters 4", 6", 7" & 8"
- Hammers 3,000, 6,000, 13,000 & 16,000 KPM
- Mechanical press 1,000 tons
- Furnace for normalizing isothermal annealing and quench and temper
