

Hulsi
World-Class Injection Molding

We are an industry-leader rubber, silicone and plastics **injection molding** company; specializing in development and production of parts and components for the **Pharmaceutical, Automotive and Consumer Goods** Industries.

Our **state-of-the-art processes**, components and **cutting edge technology** allow us to exceed our client's expectations delivering **world-class products**.

Our Company

Founded in 1976

- With more than **45 years of experience** in injection molding processes, Hulsí is highly committed to providing tangible and useful solutions that meet the **highest quality standards** – focusing on its **customers' needs**, continuous improvement, cost efficiencies and personalized customer service.
- With the **latest technology equipment** and highly qualified labor force, our injection molding processes offer important advantages such as dimensional repetitiveness, precision in vulcanization, stability and efficiency; all of which result in **high quality products** and **competitive pricing**.
- Industries we work with:
 - ✓ Healthcare
 - ✓ Automotive
 - ✓ Consumer Goods

Manufacturing & Packaging Capabilities

High Quality Solutions

Manufacturing facility located in Mexico

- 18,000+ m² property housing our manufacturing facility
- Clean rooms

Latest technology presses and machinery (20+ Injection Machines; ranges: 80T - 600T)

- Rubber Injection Molding
- Liquid Silicone Injection Molding
- Plastic Injection Molding
- Injection Stretch Blow Molding (ISBM)

Conditioning and Packaging

- Ready to Use
- Ready to Sterilize
- Retail Packaging (shelf ready)

Strategic Sourcing Alliance

6 Key Competitive Advantages
