WE WORK CLOSELY WITH OUR CUSTOMERS TO PROVIDE CUSTOMIZED SOLUTIONS.

Shortage Sourcing

Sourcing is our core competency.

Market Intelligence

We have dedicated commodity managers who are global subject matter experts within their specific commodities, and we can pass the latest market trends and insights onto you.

VMI/ Hubbing

We can manage material for you to help reduce inventory costs.

Cost-Reduction Strategies

We can save you money on specific high-dollar, high running products you are currently buying from direct suppliers or franchise distributors.

In-House Quality Testing

We have the capabilities to test a broad range of components and products.

End of Life / Last Time Buy

Components will eventually become obsolete. We are able to extend these situations through programs to keep you current for the term of your need.

Excess Market Management

We have many programs to create a market for your excess material. Whether it be revenue sharing or finding a company that is in need of the same material, we can create options to help manage down your excess.

Global Logistics

We have strategically placed locations for our logistics and quality hubs so we can reach any point on the globe quickly.

Kitting

We can custom label, group and package on your behalf to create a finished, shippable material that meets your needs.

OUR CUSTOMERS EXPECT IT AND WE DELIVER IT.
