

MAKINOVO

CNC · PRECISION MACHINING

Makinovo is a company that provide solutions with head technology in high precision CNC machining and design engineering to the world's leading industries.

- Aerospace
- Oil and Gas
- Automotive
- Medical
- Electronic

We are in constant evolution and with high commitment of responsibility to satisfy our customers most requests.

Quality ● On Time Delivery ● Excellence

Makinovo staff includes a design engineering team which, supported by CAD/CAM tools, is able to develop geometrically complex parts and build mechanical components with tight tolerances using diverse materials.

We are certificaded on AS:9100D/ISO 9001:2015 and we achieve precision with the constant review of our processes and the verification of our products through our quality team who have the most accurate and modern equipment.

SERVICES

CNC Machining:

- 5 Axis
- Milling
- Turning
- EDM

PRODUCTS

- CNC machining mechanical parts.
- Aircraft Interiors: overhead bins, Seat Assemblies, galleys.
- Stainless Steel connectors
- Aerostructures, Turbine cores (first op.) and Landing gears spacers
- Spare parts, installation tooling, aftermarket replacements.

Strategic location in northern México

Calle Luis G. Urbina #11546, Int. #3
Complejo Industrial Chihuahua
Chihuahua, Chihuahua, México, 31136
