

THE  
**NEARSHORE**  
COMPANY

# YOUR MANUFACTURING **CHALLENGES** **SOLVED** NOW, AND NEAR.

## **Making things is hard.**

To do it consistently, at scale, and cost-effectively is even harder.

The last few years not only made things harder but also exposed the vulnerabilities of the manufacturing sector:

(a) dependence on long supply chains from overseas and (b) a fragile workforce that is redefining work itself.

This is where nearshoring comes in. Making things in Mexico addresses both supply-chain and labor challenges today's manufacturers are facing.

THE  
**NEARSHORE**  
COMPANY

# We at The Nearshore Company Help You Manufacture in Mexico.

**Our Manufacturing Services are tailored to YOUR needs and requirements.**

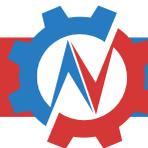

Typical nearshore manufacturing can be done in a wide range of business models. On the one hand, we have the “shelter” model, in which the Mexican company provides real estate, labor, and import-export services, alongside administrative and legal services, while you do all of the rest to manufacture your goods. At the other end is “contract manufacturing,” in which the Mexican company manufactures to the client company’s design and specification.

We at The Nearshore Company pride ourselves in our flexibility and work in the entire spectrum – from “shelter” to “contract manufacturing” **and everything in between.**

SHELTER  
MODEL

**Manufacturing Services**

**Manufacturing Operations**

CONTRACT  
MANUFACTURING

**Our current and past clients have come from a wide range of industries, including, but not limited to,**

**ELECTRO-MECHANICAL**

**AUTOMOTIVE**

**TEXTILE**

**APPLIANCES**

**MEDICAL EQUIPMENT AND SUPPLIES**

**CONSUMER GOODS**

**AEROSPACE**

To further assist our clients, we have our own facilities and equipment related to:

- ✓ Zinc-Plating
- ✓ Plastic Injection Molding, Assembly & Decorating (Paint/Laser Etching/Pad Print)
- ✓ CNC Machining & Fabrication
- ✓ Film / Vinyl and Fabric Cut, Seal & Sew

## HOW WE WORK

If there's one word that reflects our work style with clients,  
**IT IS FLEXIBILITY.**

First, we actively listen to YOU and YOUR team to understand YOUR challenges and aspirations. And then, using our over 30+ years of experience, we make recommendations.

We will work hand-in-hand with YOU to create a plan, find solutions, and get things done. From cost estimation, site selection, legal compliance, employee recruitment, payroll, and union negotiations, to trade & customs management, logistics & warehousing solutions, accounting & taxes, QA management, and any other operational assistance needed for you to start your production in Mexico. Depending on YOUR needs and requirements, we can start your production in as little as eight weeks after contract signing.
