

PANGEA.	Brochure	July 2023
	Company profile	

Who we are

2287

Established in 1832, reimagined in 2021

A global leather supplier to the world's leading automotive brands, we provide full interior solutions that reinvent the standard in supplier service. With approximately 3,500 team members operating on four continents, we're driven by a disciplined passion for leather.

2100

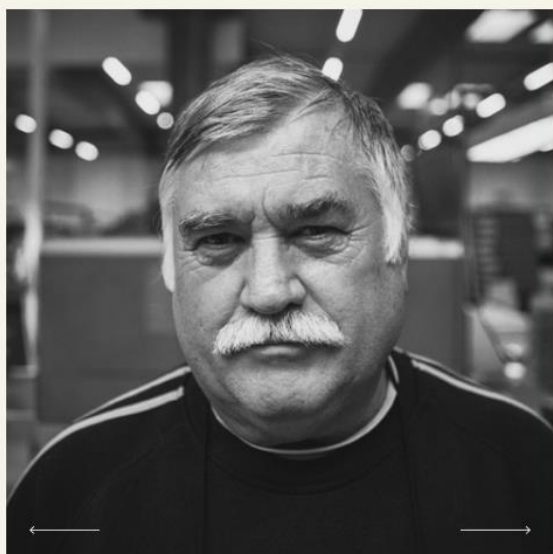

Who we are

It begins with a name

In reimagining our company it was important to select a name that was reflective of our product and our philosophy.

Pangea is a term that refers to a point in Earth's history when the continents were connected as one supercontinent. Our company embodies this spirit. Our leather is tied to the earth, connected to one another and to our global team of artisans who make it.

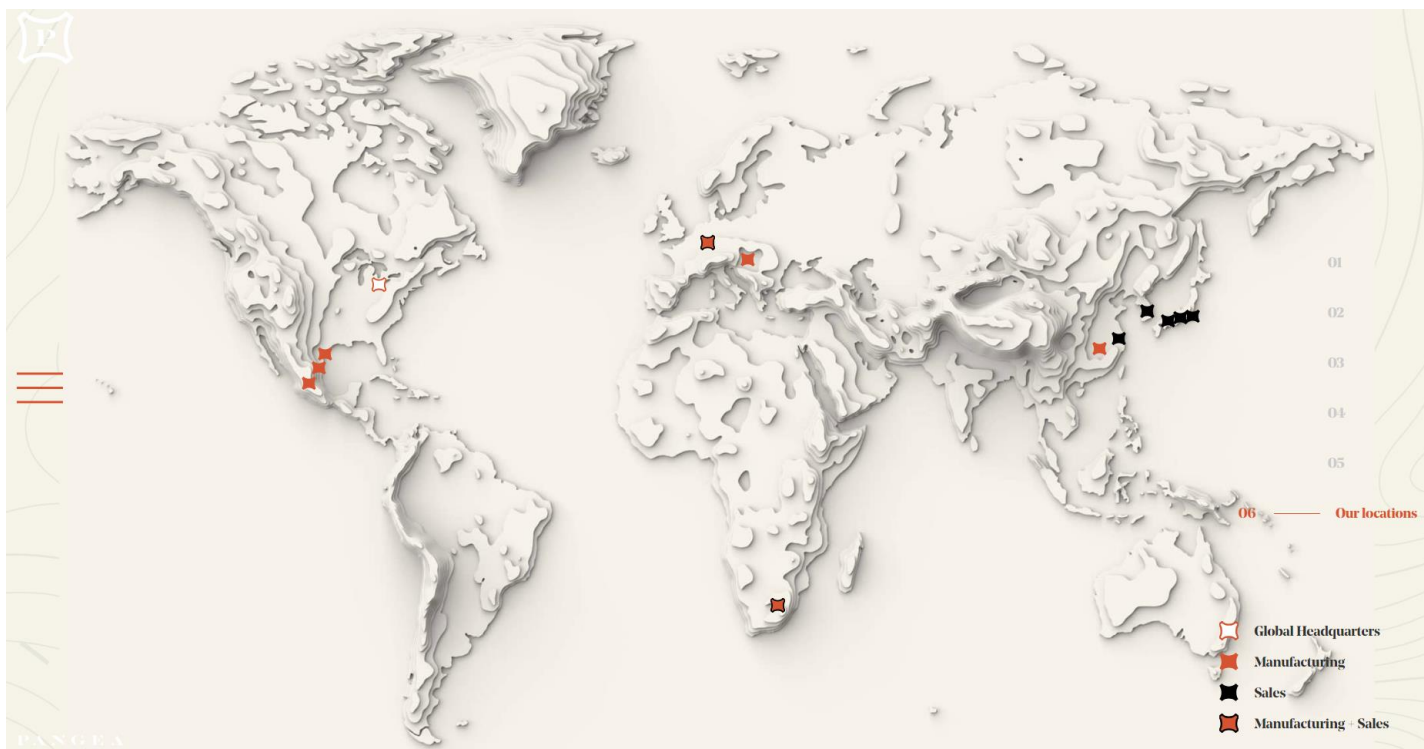

Who we are

Character is what defines us

We're a global team of 3,500 strong, driven by a disciplined passion for leather. Our skilled artisans, located on four continents and in eight countries, deliver interior experiences that emanate luxury and engage the senses.

Our vision

To be the world's most trusted automotive leather company, delivering a customer experience unlike anything else in the market.

Our mission

Our people and processes embody a passion for leather mastery, lean enterprise, continuous sustainability and a global connectedness built on trust and commitment.

Our Products

Our product development and design teams create custom colors, haptics and performance treatments unique to each customer. We quickly and seamlessly provide working prototypes for automotive interiors whether it be the most modern, luxury electric vehicle or a rugged, award-winning SUV. Leather is a universal material for consumers concerned about sustainability, performance and hand-crafted beauty

Advanced Products

Pangea offers solutions for sustainable leather processing and products. Whether it's replacing part of the leather finishing chemistry with biopolymers derived from renewable biomass waste grains or utilizing olive leaf extract for leather tanning.

**What we do**

Driving excellence in all we do

Operational excellence, world-class manufacturing and our commitment to craft is Pangea's roadmap for creating beautiful leather products and executing seamless customer launches. Our global footprint, comprising 13 sites on four continents, is taking the creation of automotive leather to a new level with innovative and sustainable processes and standards that truly are redefining the industry.
