

Defense & Aerospace

Jabil Defense & Aerospace Services (JDAS) provides complete end-to-end solutions from design and engineering to manufacturing, test and supply chain management. Building upon 50 years of manufacturing excellence, JDAS partners with some of the world's best-known aerospace and defense companies delivering mission-critical, high-mix/low-volume electro-mechanical systems. Complementing its electronic and mechanical services, advanced capabilities include complex machined components utilizing multi-axis CNC machining, grinding, lapping, special processes, and non-destructive testing. JDAS delivers fully tested integrated assembly of subsystems and devices for high reliability systems.
