

- Headquartered in Hong Kong
- Established in 1975
- Publicly listed on the Hong Kong Stock Exchange.
- Revenue approximately \$600 million USD
- Over 4000 employees worldwide
- Customer focused electronics manufacturing

WKK Corporate Headquarters

17/F Harbourside HQ, No: 8 Lam Chak St,
Kowloon Bay, Hong Kong

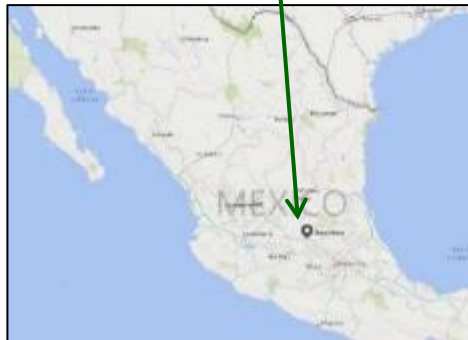

Quality Critical

WKK makes electronic assemblies and complete products for applications that **demand quality and reliability**

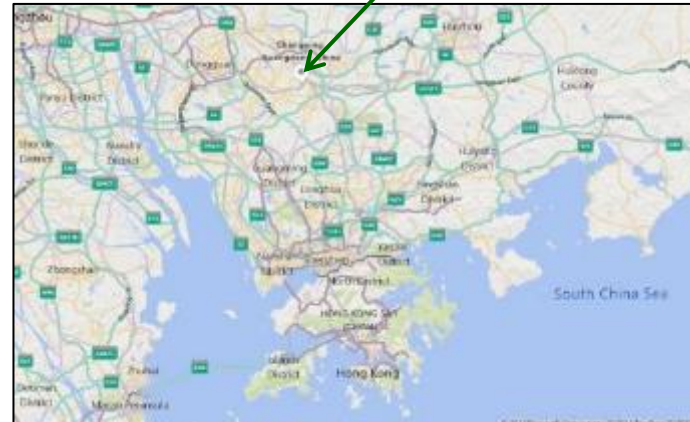

Servers, Desktops, Routers, Appliances, HVAC, Utility Meters, Automotive, Aerospace, and Medical Electronics
Gateways / Bluetooth / True Wireless

Queretaro, Mexico

Changping, China

High Speed Yamaha SMT Lines / Yamaha AOI / Juki Odd Form inserter / Vitronic Soltec Reflow /
JT Wave Solder / Anda Conformal Coating / SAM Water Wash / Test Research ICT /
Binder Climate Chamber / Matrix Technologies High Speed BGA X-Ray / MakerRay Post Wave PTH AOI /
Martin Laser Etch System / Aqueous Technologies Zero-Ion Contamination Tester / Foresite C3 Tester

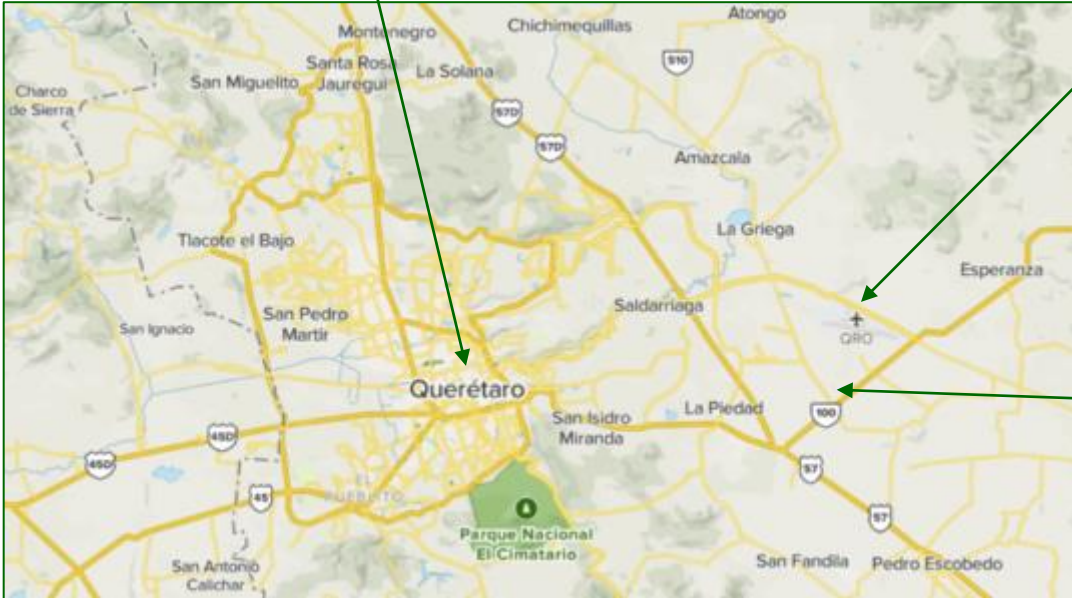

Population 1,250,429
190 Engineering graduates per 100K inhabitants
13 Technical schools / 102 Training centers
53 R/D Centers
One of the safest cities in Mexico
2nd Place “Business Friendly” city in North America

WKK Technology *Querétaro, Mexico*

Querétaro Intercontinental Airport

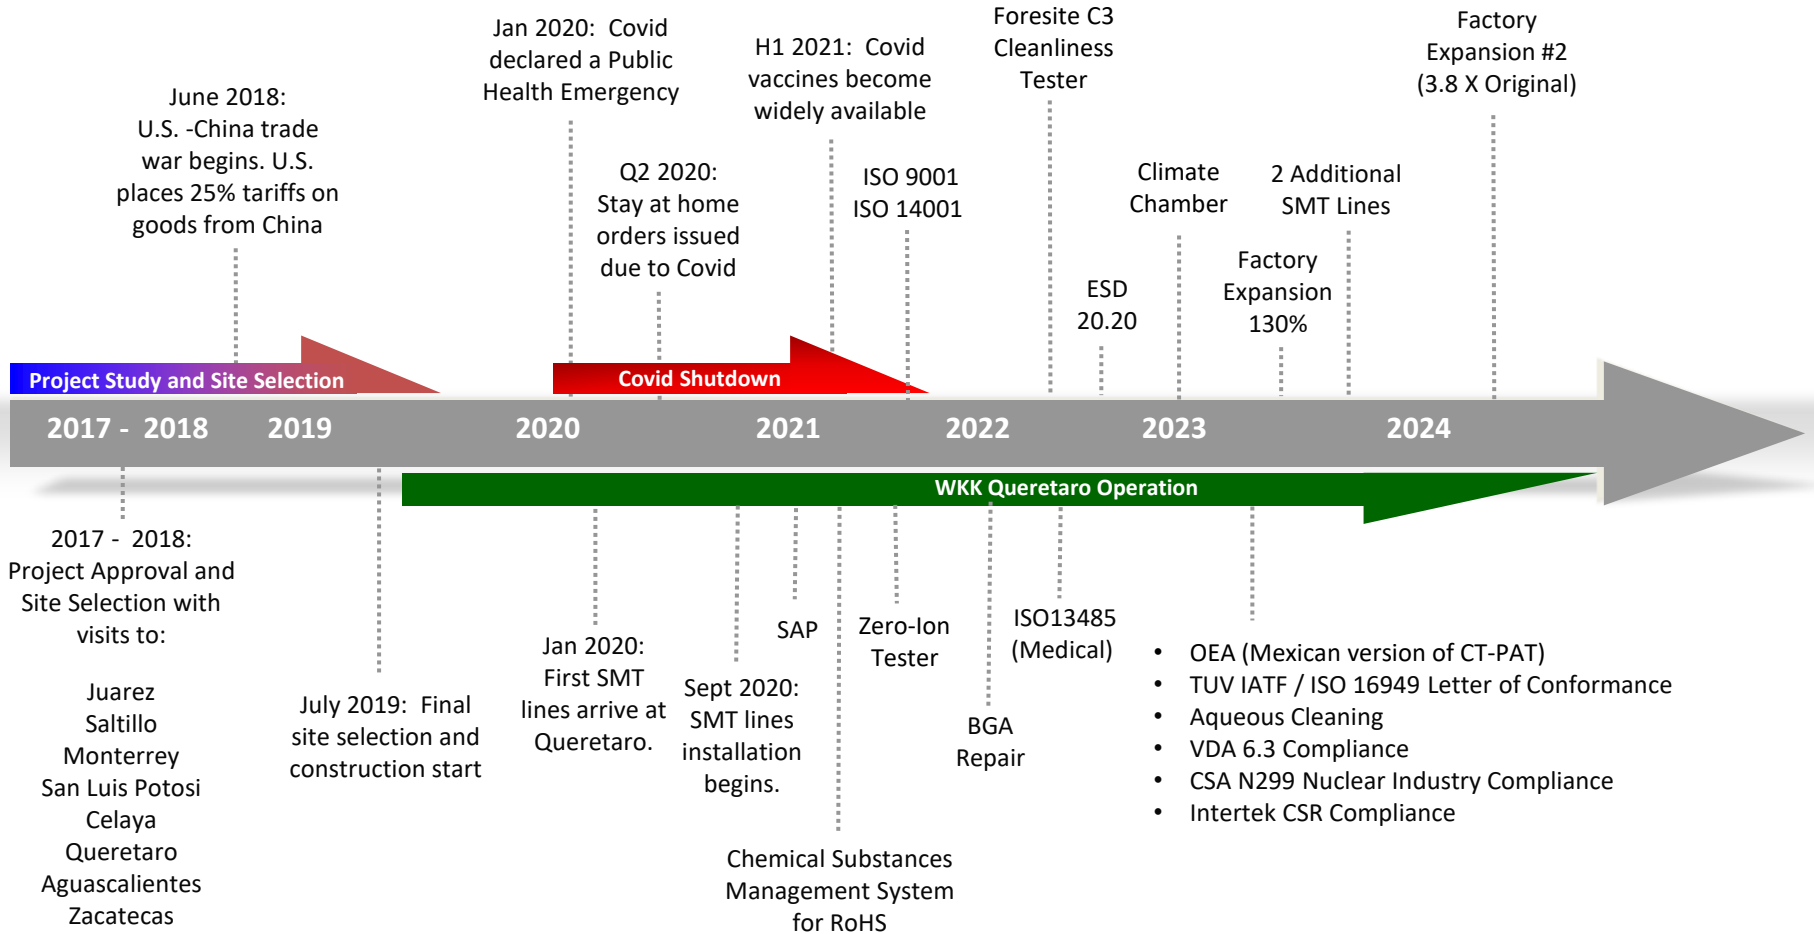

WKK Technology Querétaro S.A. de C.V.

- By Air - 20 mins from International Airport
- By Sea - 9 hrs to Manzanillo Port (West) for Import & Export
- By Sea - 8 hrs to Tampico Port (East) for Import & Export
- By Truck - 10 hours to Bonded Warehouse at Laredo, TX for Import & Export

Queretaro Mexico

Currently:

- 5 SMT lines
- 3 Conformal Coating (1 Silicone, 2 Acrylic)
- 3 TH Lines
- 2 Assembly Lines

Additional lines being installed (Q4 2023):

- 3 SMT Lines
- 1 TH Line
- 2 Assembly lines

Test Research - 5001E ICT

Q1 2023 - 4,463m / 48,000 sq ft
Q3 2023 - 10,162m / 109,000 sq ft
Q1 2024 - 17,182m / 185,000 sq ft

Current WKKQ Facility
4463 Sq M

Phase 2 - Production Expansion
(Operational early 2024)
7020 Sq M

Phase 1 - Warehouse Expansion
(Occupancy October 2023)
5688 Sq M

North American Support

San Jose, California

Louisville, Kentucky

Queretaro, Mexico

Deliverables

- US-China **Tariff mitigation**
- Shorter logistics **lead time** on shipments
- **Reduced environmental impact** due to transportation efficiencies.
- Ability to reduce VMI hub **inventory levels**
- Fewer logistic expenditures for **shipment cost** and 3PL logistics cost
- Dual qualified WKK facilities enables our customers to enjoy **Risk Management** options
- Increased **flexibility** in production and delivery due to close proximity to the North American market
- North American Customers can communicate with factory personnel in real time to insure an **easy alignment of goals and priorities**
- WKK is also establishing the necessary legal and structural framework to allow for **domestic Mexico sales**

Thank You
