Group Presentation

Milestones

1965

Business registration of
the brothers Hans &
Werner Turck

1975

First international
location: Turck Inc., USA

1985

Foundation Interprox,
Switzerland

1986

Foundation of Escha
Schalttechnik, today
ESCHA, Germany

1988

Foundation Turck duotec,
Deutschland

1996

Foundation SDT-Holding
S.A.

2000

Foundation Turck duotec,
Switzerland

2002

Foundation Turck Mexico

2017

Foundation Turck duotec,
Mexico

2020

Acquisition of ml&s in
Greifswald, Germany

2021

Participation in Quantum
Technologies and
SmartNanotubes
Technologies

Acquisition of WIS in
Berlin, Germany

2022

Turck duotec becomes
duotec®

Participation in
manufacturing partner
Tabemax in Poland
and SVI Hungary, Hungary

All locations at a glance.

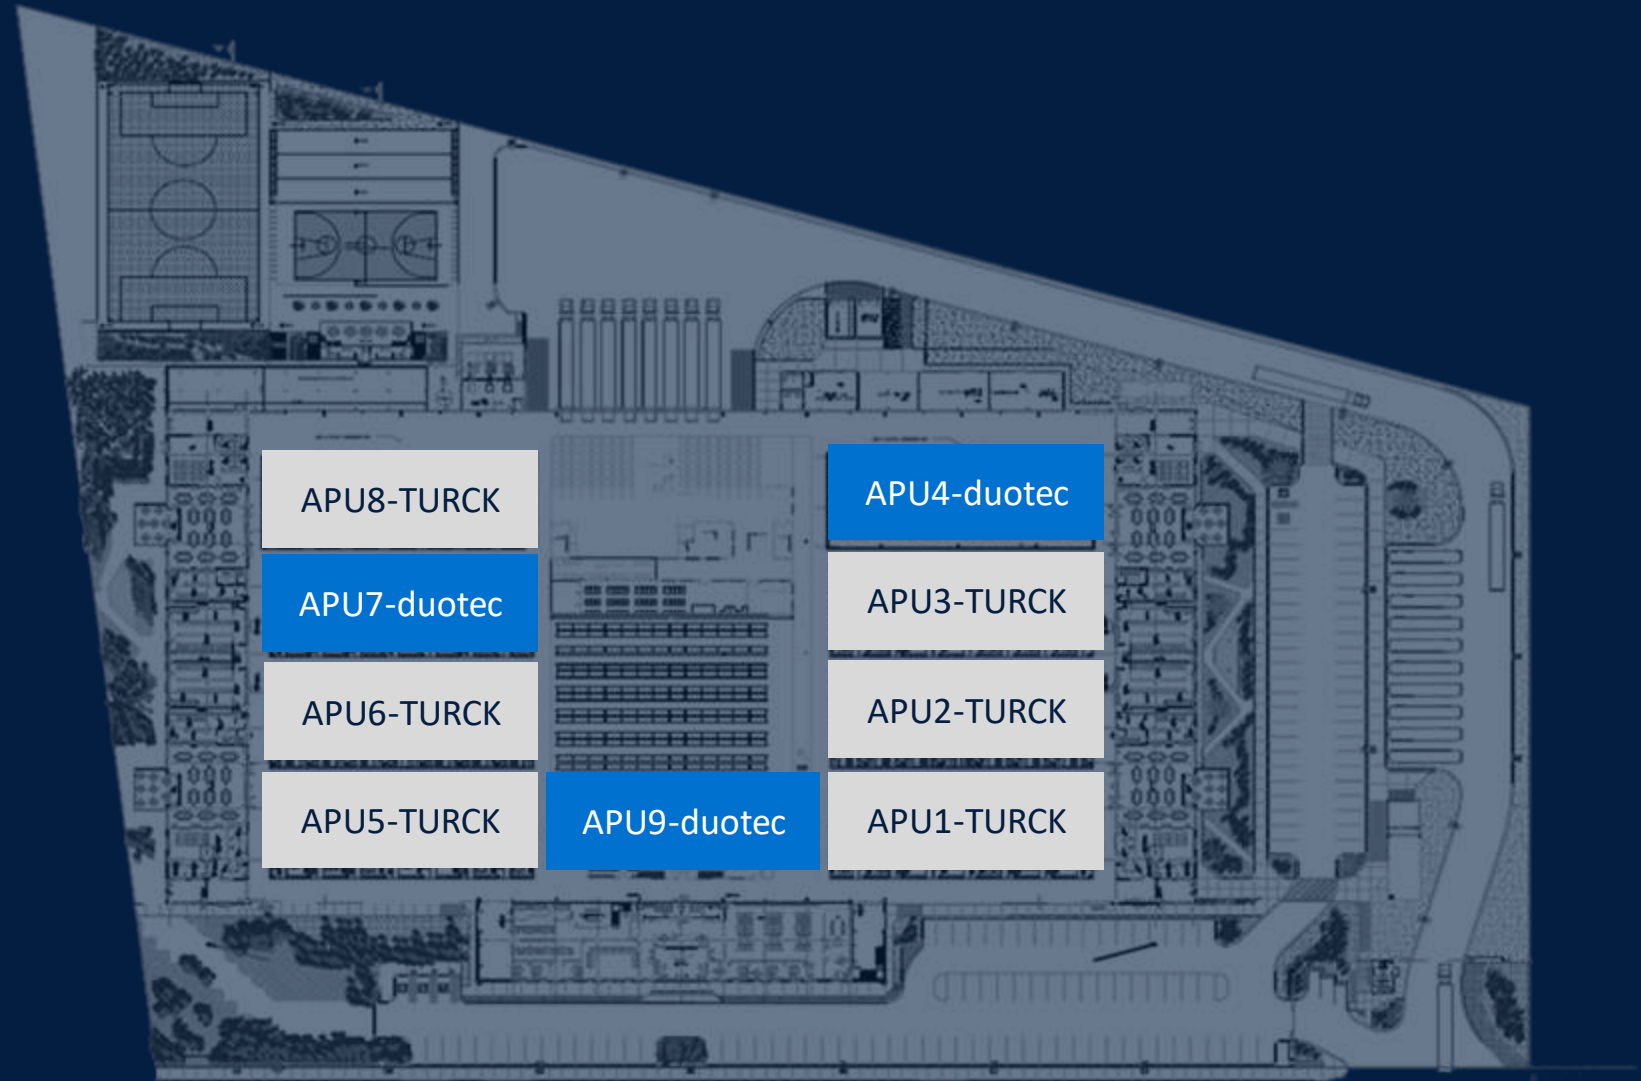

fabsolutions made in Mexico.

- Foundation: 2015
- Employees: 400+
- Technology engineering: 30+
- Production area: 22.000 m² (+ expandable)
- Expected turnover 2022: 14 Mio €; 2023: 45 Mio €

Operations Area

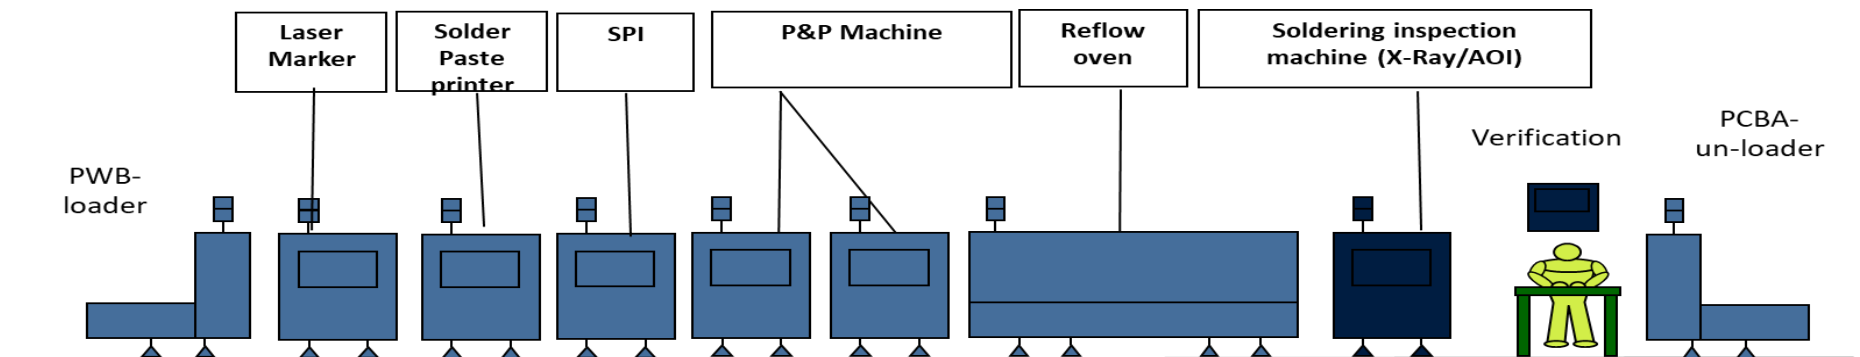

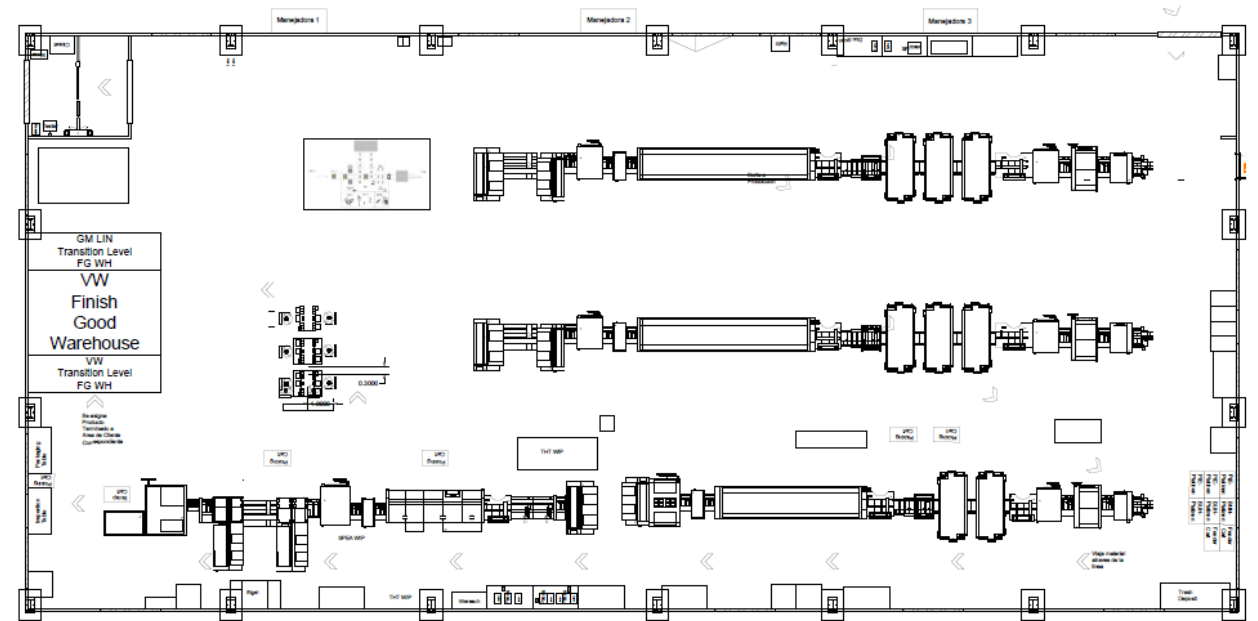

- 9 APU's (6 Industrial Automation + 3 duotec)
- 1 APU (IA) = 7 Manufacturing cells to 8 cells (Turck).
- 4 lunch rooms
- + 20 meeting rooms
- Capacity: 2,000 collaborators
- * (APU) Autonomus Production Units

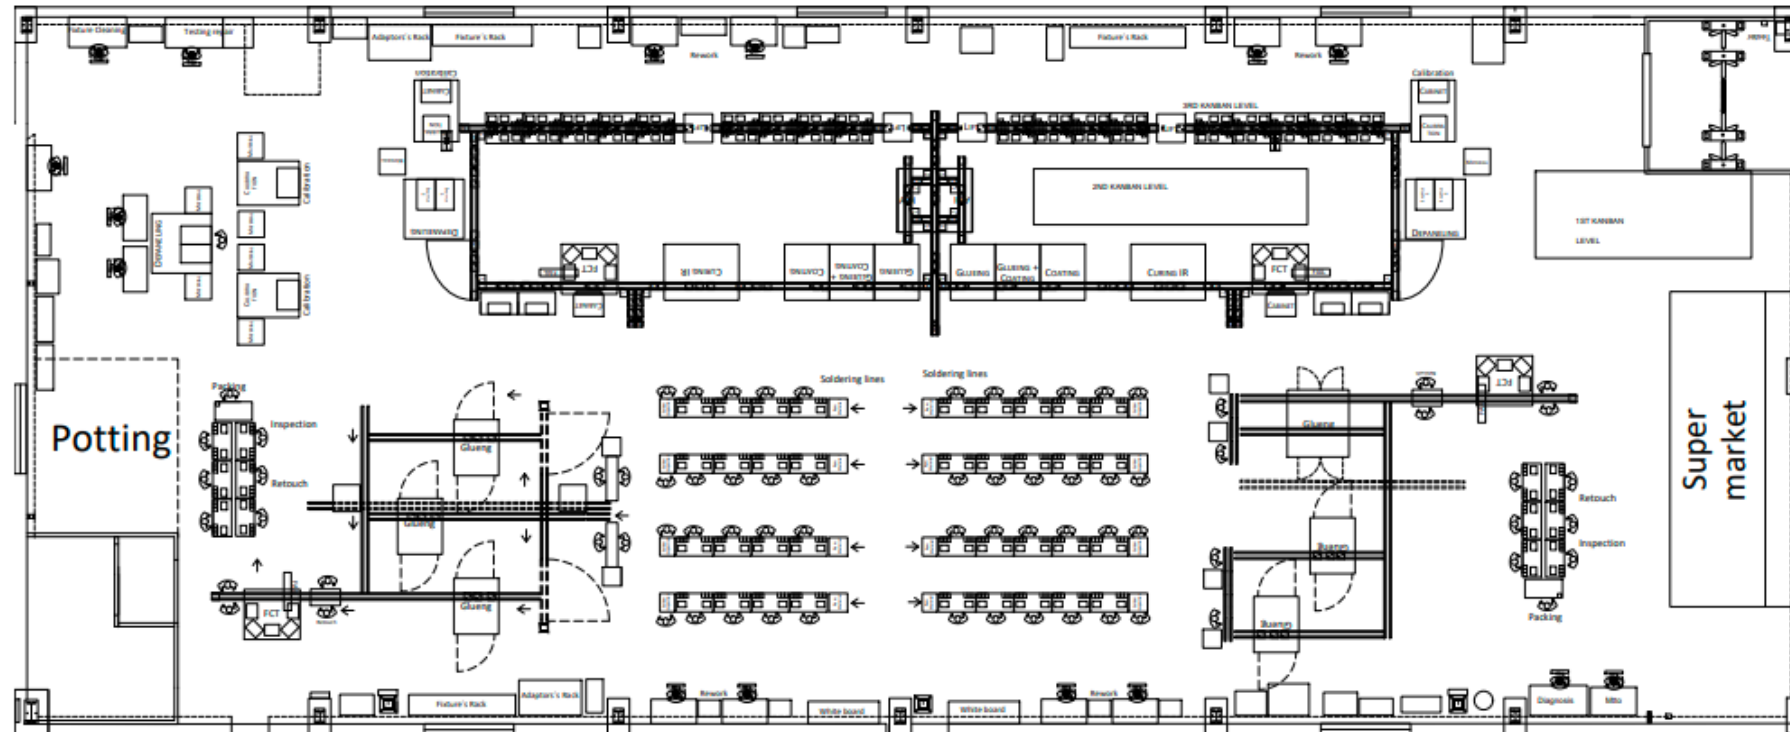

Operations Area

Production SMT&THT APU4

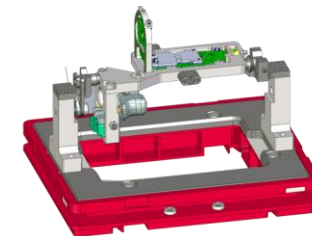

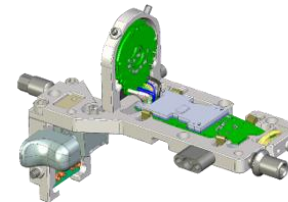

- Potential of 3 SMD Lines
- 2 already operational

Operations Area : Production THT (APU7)

Line 1 and 2 : 500'000 Parts per line per year
Line 3 and 4 : 700'000 Parts per line per year

Manufacturing site Arteaga

Our footprint for your success in the North American market.

Industry focus:

Industry 0.1M Parts

Consumer 1.1M Parts

Automotive 2.3M Parts

Certifications:

- ISO 9001
- IATF 16949
- ISO 14000
- VDA
- C-TPAT
- OEA
- IPC

Core competences:

- Support for new product introduction Engineering / NPI process
- Global procurement across all commodity groups
- Production of electronic assemblies
- Assembly of modules, devices
- Test engineering and software created with support from Delémont or Greifswald
- Batch traceability
- Supply Chain Management: from order to delivery
- Automation (support from Delémont), possibility to build fully robotized lines for high runner products
- In-house cable assembly

Manufacturing expertise:

- Production according to international standards
- SMT production:
2 SMD lines, space for 2 additional lines
- THT production:
Robotized & manual assembly
- Component preparation
- Depaneling Router and V - Cut
- Electrical test as EOL, own test equipment construction supported from Delémont
- Component protection / conformal coating process in line & batch
- Module and device assembly
- Cable assembly
- Laser marking

Manufacturing site Arteaga Overview

duotec®

Start of production in 2017

Headcount (end of the year):

- 2021 (End of the year): 129 employees
- 2022 (End of the year): 420 employees
- 2023 (Feb.): 513 employees

Sales (in Mio USD):

- 2021: 8
- 2022: 10
- 2023: 20

Investment (in Mio USD):

- 2021: 10.5
- 2022: 2.3
- 2023 (plan): 0.7
