

## ALUMINUM HIGH PRESSURE DIE CASTING

---

- Die cast machine tonnages ranging from 250 T to 850 T.
- Materials including, 380, ADC12, K-ALLOY.
- Vibratory finishing and shot blasting.
- X-ray.
- IMMEX company.

## PRODUCTION MACHINING & ASSEMBLY

---

- Production Machining and assembly of castings, forging and extrusions in aluminum, iron and steel.
- Low to high volume (1-1,000,000 + pcs.).

## PRODUCT DEVELOPMENT

---

- Component and Assembly optimization.
- Leak, flow and destructive testing: chemical and physical analysis.

## RAPID PROTOTYPING

---

- Casting in sand, plaster or high pressure die casting.
- Rapid prototyping of castings or machines from billet.
