

Corporate profile

2023

Overview

Inyexsa is a trusted supplier of plastic injection molded products and assemblies based on an ISO 9001:2008 certified operation.

From customer concept through production, Inyexsa manages product design, program management, tooling , material selection, and logistics planning.

In addition, we offer related processes such as painting, printing, assembly, and supply chain management, as well as logistics management that add to our overall value proposition.

With a company history of over 15 years and a staff of plastic industry experts, Inyexsa is fully prepared to supply your plastic component and assembly needs.

Location

Inyexsa is strategically located in San Luis Potosi, Mexico, with swift access to major border crossings, inland and seaports, international airports as well as Mexico's largest urban areas.

We have specialized in providing cost effective manufacturing services to multinational companies across different industries with operations in Central Mexico.

We ask that you review the recognized multinational companies that we serve and consider us for your next project.

Capabilities

Services

- Injection molding
- Insert molding
- Value added operations
- Mold design
- Mold fabrication
- Stamping and printing
- Assembly
- Mold transfer
- Project Management

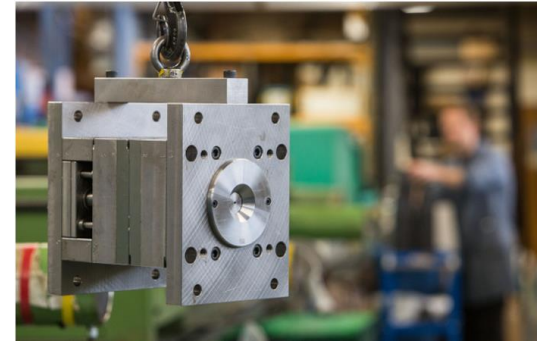

Resins

- ABS
- Polyamide (nylon)
- PBT
- Polycarbonate
- Polyethylene
- Polypropylene
- Wide range of additives

This wide range of capabilities allows us to solve your particular needs swiftly and efficiently

Infrastructure

We serve our customers on a 2.5 acre location, where our 7,500 square feet facility houses 14 injection molding machines and other equipment

Injection presses

Other equipment

Qty	Manufacturer	Clamp (ton)
1	Toyo	400
1	Van Dorn	280
1	Haitian	250
1	CLF	230
2	Haitian	200
1	Lien Yu	95
2	Cincinnati	85
1	BOY	80
3	BOY	50
1	BOY	25

- Insulated desiccant hopper dryer
- Machine mounted hopper dryer
- Mold temperature control unit
- Hopper loader
- Cooling tower
- Chiller
- Lift truck
- Welding equipment
- Air compressor
- Optical comparator
- Measurement equipment
- Electronic scale

We have machine sizes to fit many needs so we can offer you the best quote for your projects
