TOTO Commercial Restrooms

A public restroom. It's not just where you "go to the toilet". It's also a place for freshening up, touching up makeup, and much more.

For many years, our approach at TOTO has always been to put the user first. Offering products that combine unique technologies and sophisticated designs, TOTO proposes restrooms that anyone can use in comfort and with peace of mind.

ICON GUIDE

TOILET & LAVATORY

1.0 GPF	Using only 1 gallon per flush, 1G toilets provide the most efficient flush in the industry.
TORNADO FLUSH®	A state-of-the-art, hole-free rim design that offers dual-nozzle bowl cleansing, creating a centrifugal rinsing action that cleans the bowl more efficiently.
E-MAX®	High performance, high-efficiency flushing technology using only 1.28 GPF with a 3" wide flush valve, large trapway, and extra-large siphon jet.
CEFIONTECT®	Ultra-smooth ceramic glaze leaves nowhere for waste to cling.
UNIVERSAL HEIGHT	Toilet height that allows for a more comfortable height position across a wide range of users.
SKIRTED DESIGN	The trapway is concealed by smooth porcelain, making the toilet easier to clean.
WATER SAVING	Water efficient toilets designed with 1.28 gallons per flush or less.
WASHLET®+	WASHLET and toilet set with a concealed connection that is specially designed for a seamless installation.

ECOPOWER FLUSH VALVES & AUTO FAUCET

ECOPOWER®	ECOPOWER indicates sensor faucets and flush valves that are powered by flowing water.
AUTO FLUSH	No need to touch buttons or handles and never worry about someone forgetting to flush — it's automatic after each use.
SAFETY THERMO®	Shape Memory Alloy (SMA) thermostatic valve that prevents a sudden, unwanted increase in water temperature.
SOFTFLOW	This advanced water technology precisely balances individual streams of water to gently caress the skin with virtually no splash. The beautiful translucent water streams are soft, luxurious, and visually pleasing.

CODES & STANDARDS

ADA	Product complies with Americans with Disabilities Act guidelines.
WATERSENSE®	Product that meets EPA standards for water efficiency and performance criteria.
CEC	Product meets California Energy Commission requirements.
GREEN SEAL™	Product meets Green Seal certification requirements.
CALGreen	Product meets CalGreen Water Regulations for new construction and permitted remodel.

CERTIFICATION & COMPLIANCE

TOTO offers a full range of bathroom products that can help professionals in the commercial industry earn LEED points toward certification.

LEED is an internationally recognized green building certification system that provides third-party verification for a building or community. To get maximum LEED points, a new or existing building must reach specified water-usage reduction percentages. The more usage reductions, the more LEED points are earned.

THE AMERICANS WITH DISABILITIES ACT (ADA)

The Americans with Disabilities Act (ADA) was enacted in 1990 to establish design codes to serve people of all ages and abilities. A core principle behind TOTO Total Design, ADA standards consider the needs of everyone without additional adaptation or specialization, optimizing the bathroom experience for all generations in the family home.

By innovating ergonomics and accessibility, and combining them with our global design aesthetic, we give everyone everything that's great about TOTO.

ENVIRONMENTAL RESPONSIBILITY

TOTO plays a significant role in leading the sustainability charge in our industry. In fact, our active role in leading policy and certification organizations demonstrates how we go beyond products or practices to help ensure environmental responsibility across all company activities.

- TOTO is the only plumbing manufacturer to receive the EPA's Water Efficiency Leader Award
- TOTO was the first plumbing products manufacturer to have employees become substainability experts by gaining LEED Accredited Professional status
- TOTO was the first major plumbing products manufacturer to join the United States Green Building Council (USGBC)
- TOTO was the first plumbing products manufacturer to develop third-party verified LCA Transparency Reports for bath products.

Innovation & Technology Highlights

THE TOTO ADVANTAGE

- Thorough and extensive testing to ensure balanced flushing
- HETs use 1.28 GPF
- HEUs use as little as 0.125 GPF
- TOTO toilet and urinal fixtures are designed for efficient operation, ensuring the highest performance with the lowest consumption levels.

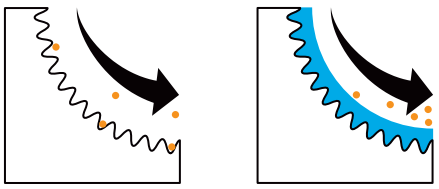
EFVs use the flow of the water to power the entire system...

and when paired with a TOTO high-efficiency commercial toilet or urinal...

equals a balanced system that cannot be matched by combining different toilets and flush valves.

CEFIONTECT®

- Extraordinarily smooth glaze prevents particulates from adhering to ceramic surfaces
- CEFIONTECT keeps surfaces cleaner, longer
- Less cleaning means less water use and fewer chemicals in the environment



No CEFIONTECT

With CEFIONTECT

ECOPOWER® FLUSH VALVES

- Hydroelectric turbine uses water to create power
- ECOPOWER flush valves provide maximum performance in high-traffic commercial spaces
- Self-powering eliminates costs of installing electrical supplies and wiring
- No routine battery replacement means less maintenance costs

THE POWER OF RECLAIMED WATER

Innovation & Technology Highlights

COMMITTED TO SAVING WATER DROP BY DROP.

Water conservation extends far beyond the amount we use. Reclaimed water aims to reduce the amount of potable water used in our toilet systems. Recycling water already used for toilets conserves our precious, finite sources of fresh water.
