Supply Chain Solutions

Dedicated Transportation

DEDICATED CAPACITY • PRIVATE FLEET CONVERSION • SPOTTING AND SHUTTLING • SPECIALIZED SERVICES

Our team of drivers, operators, and engineers are immersed in your business to provide consistent capacity and service to your customers. While moving goods in tight delivery windows, our dedicated drivers and equipment ensure that your products safely reach their destination on-time, every time. From peak seasons to unforeseen disruptions, our team is experienced in leveraging precision to manage your freight.

Distribution & Warehousing

E-COMMERCE & OMNICHANNEL FULFILLMENT • ADVANCED AUTOMATION • CROSS-DOCKING • REVERSE LOGISTICS

More than just warehousing space. With a balance of labor and automation, we create fulfillment options that service retail or ship directly to your customers. Our engineering and IT teams collaborate with your team to provide real-life applications and design practical solutions with systems that meet your needs. From peak seasons to new product launches, we offer the flexibility you need to accommodate your inventory management.

Integrated Logistics

FREIGHT BROKERAGE • TRANSPORTATION MANAGEMENT • INTERMODAL • GLOBAL LOGISTICS

People-led, technology-enabled. Our first priority is to provide best-in-class service for shippers of all sizes, and that starts with our people. We're led by a team of forward-thinking experts who take a multimodal approach to find the method of transportation best suited for your needs.

Port Services

PORT DRAYAGE • ELECTRIC VEHICLE INITIATIVES • TRANSLOADING • CUSTOMS EXAMS

Since acquiring California Cartage and G&P Trucking, NFI has become one of the largest drayage and transload providers in North America, making us a preferred partner at ports nationwide. Our port services experts have the knowledge and long-term relationships to help you move your products and reach your customers quickly.

Industrial Real Estate

LEASING • SITE SELECTION • DEVELOPMENT • CONSTRUCTION

Our experience as an industrial building developer, owner, and tenant provides NFI with a unique perspective on what it takes to engineer flexible and fully customized logistics solutions for our customers. Collaborate with our in-house team to develop facilities that address your current operation while allowing for future growth, ensuring that your facility has an advantage in a competitive distribution landscape.
