Material Sourcing at PAKFAB Locations

- Each PAKFAB location sources materials locally.
- This practice supports local economies, reduces transportation costs, and ensures supply chain integrity during cross border trade disruptions.
- Ensures compliance with national regulations and standards.
- Promotes sustainability and environmental responsibility.

**All PAKFAB Sites in USA,
Canada, and Mexico have the
following capabilities:**

- Rack Production
- Dunnage Production
- C2C Rack and Tote Recycling
- Repair Services

Aylmer, ON, Canada

Greenville, OH, USA

Lewisburg, TN, USA

Cuauhtémoc, CH, México
