OUR PROCESS

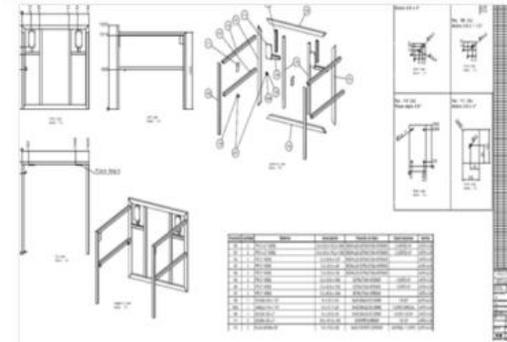

DEFINITION OF CONCEPT

In this stage, the basic requirements for the development of the project and the client's need are received and a product delivery plan is prepared.

3 MODELS

Based on the validation of the engineering provided by the client and their requirements, they are incorporated into the model.

DOCUMENTATION

Once the OC is received, the design team prepares manufacturing documents for the real production of the prototype.

PRESENTATION

The first article with physical pieces is presented. The presentation is made in our company or in the client's facilities.
