

Premium logistics for manufacturing

Always fast, friendly & dedicated

From epGroup to xpd global

For more than 20 years, epGroup built a strong reputation in logistics through four trusted brands across the Americas, Europe, and Asia. Today, we unite this legacy under one global brand: xpd global.

Our purpose is clear: to deliver premium, time-sensitive logistics solutions tailored to the complex needs of the manufacturing industry, ensuring every shipment is handled with speed, precision, and reliability.

Seamless trade lane access and local logistics experts in 39 countries across the Americas, Europe, and Asia, **delivering cargo faster and more reliably without intermediaries, delays, or miscommunication.**

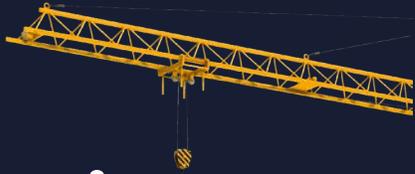

Better, faster & integrated experiences

We focus our innovation to offer you world-class logistics

High coordination

Synchronized logistics for machinery, spare parts, and components.

- Seamless communications between suppliers, manufacturers, and distributors with strict **SOP adherence and follow-up**.
- Technology to provide **cargo visibility, shipment analytics, and PO visibility**.
- Partnership centered around joint planning to achieve a superior level of **coordination through SLAs and Risk Management Protocols**.
- Broad transportation resources and efficient procedures to **meet demand forecasts and production schedules**.

Time-sensitive logistics

Simplify complex supply chains with efficiency and reliability in delivery times.

- Solutions designed for **global manufacturing companies**.
- Customized and comprehensive logistics **solutions for more crafted supply chains**.
- Agility protocols and contingency plans to **mitigate risks**.
- Experience managing intricate **logistics operations with tight timelines**.

Time-critical solutions

When your cargo becomes critical, there's no room for error.

- Wide network** of transportation partners for swift deliveries.
- 24 / 7 front desk** with immediate response.
- Expert executives** dedicated to your emergency.
- Flexibility and agile reaction** to face contingencies.

Logistics solutions that meet your needs

Take control of your supply chain with end-to-end logistics solutions that enhance planning and help you avoid premium freight costs.

Act fast

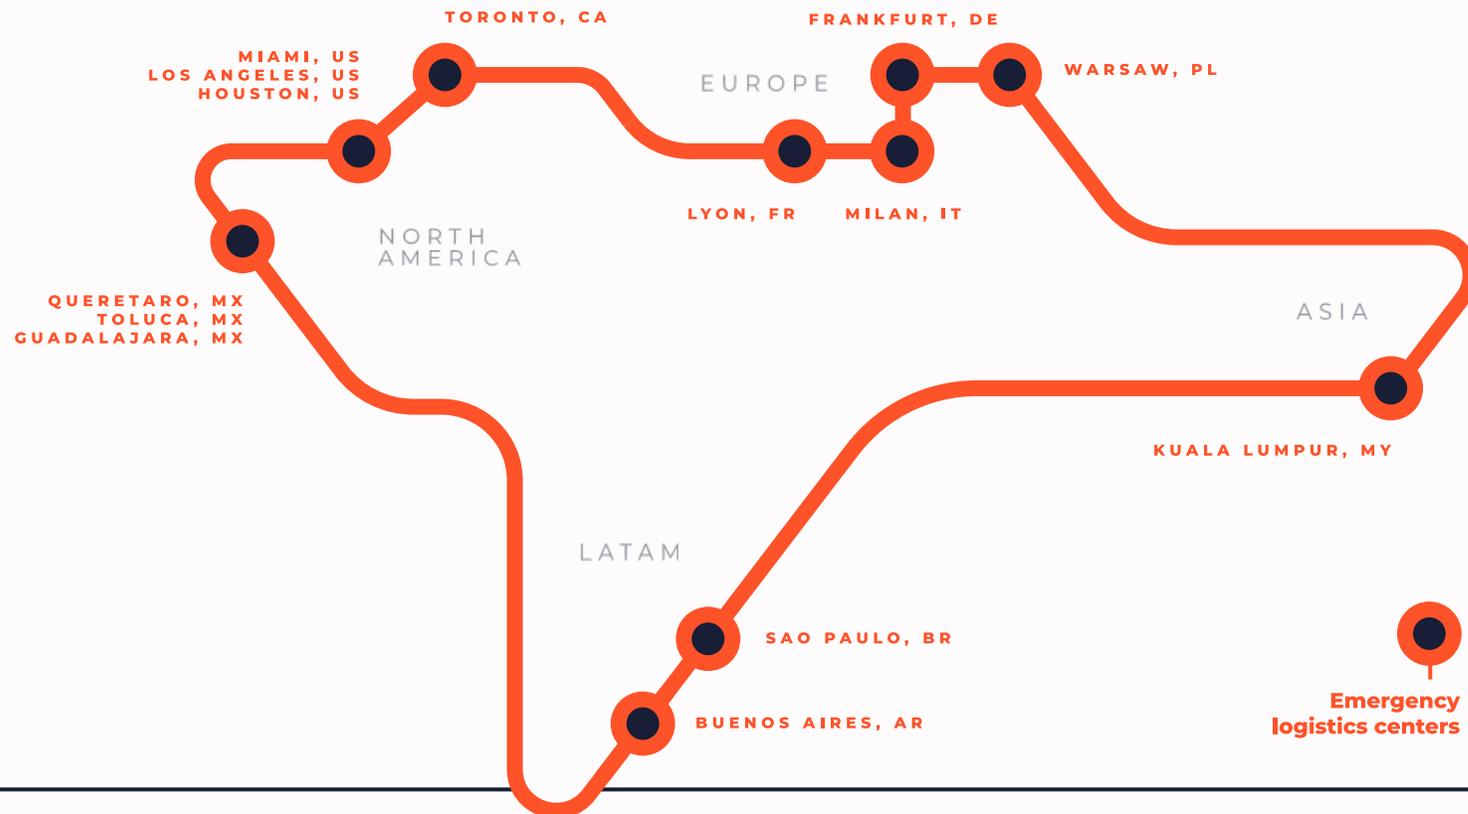

Deliver on time

Avoid line stoppages

Time-critical solutions

We deliver your time-critical cargo fast, precisely and cleverly. Our distinct variety of solutions were built to **satisfy your different delivery requirements.**

24 / 7 SERVICES

Air Charter

Small, medium, and 747 complete or partial units for local or international services.

On-Board Courier

A flexible and less bureaucratic solution to move up to 120kg per hand carry.

Air Priority

Next Flight Out (NFO). Top priority cargo on domestic and overseas flights for same or next day deliveries.

Ground Expedited

Hot-shot and other units to deliver door-to-door in the shortest time possible.

AOG desk 24 / 7

Comprehensive logistics control for **AOG situations**, focused on restoring aircraft operations with precision and speed.

Import air services from APAC to Mexico

Direct flights and weekly departures

Origin	Destination
China (SZX, PVG, CAN, PEK, HKG)	Mexico City (MEX) Estado de México (NLU) Guadalajara (GDL)
South Korea (ICN)	Mexico City (MEX) Guadalajara (GDL)
Japan (NRT)	Mexico City (MEX)

- **Secured departures** weekly.
- **Direct flights, non-stop and transfer-free** to minimize cargo handling
- **Transit time** between 1 and 2 days.

Our routes from Europe and Middle East to Mexico

Operation handled by our own offices

Origin	Destination
Germany (FRA)	Estado de Mexico (NLU) Guadalajara (GDL)
France (CDG, LYS) Spain (MAD) United Kingdom (LHR) Italy (FCO) United Arab Emirates (DXB)* Luxembourg (LUX)	Mexico City (MEX)

- Availability to **collect your cargo from Europe.**

- **Guaranteed departures** on a weekly basis.

- **Direct flights, non-stop and transfer-free** to minimize cargo handling.

- **Airport-to-airport** transit time between **48-72 hours.**

*Service available for general cargo only. Restrictions apply for hazardous materials and oversized freight. | *With one-stop over in Barcelona*

xpd box

Own weekly consol (LCL) from Shanghai & Shenzhen to Manzanillo

Direct consol service | Free 10-day storage at origin | Free 7-day storage at destination
Real-time shipment visibility | Suitable for small to medium loads

- **Priority consolidation** of your cargo in our container.
- Service for **general and stackable cargo only**. No overweight and no oversize freight.
- The operation is carried out, controlled, and without setbacks by xpd global.
- **Delivery to your plant or warehouse** (ask for a quote).

	Shenzhen	Shanghai
Cut-off	7 days before documentary close	
In transit	27-30 days	22 days
Desconsolidation	24-48 hours in Manzanillo	

Panama HUB

Your gateway to the world: comprehensive multimodal solutions and warehouse services.

- **Tocumen airport**
Global connectivity with 80+ international destinations.
- **Industrial projects**
Large machines, oversized cargo, and high-value equipment transportation.
- **Tax bond**
Cost optimization by leveraging the potential of the tax bond.
- **Warehouse**
Cross-docking, inventory management, temperature control, fulfillment, and labeling.
- **Temperature control**
Advanced infrastructure and technology for temperature handling.

- Tocumen International Airport as a **first-class air hub**.
- In-house customs for **greater efficiency**.
- Over **6,000 m2 of facilities**.
- Experience in **global automotive supply chains, lean manufacturing, and just-in-time practices**.
- Storage capacity of **4,200 pallets**.
- The HUB is situated within **Panama's free trade zone**.

Premium logistics for the automotive industry

In the fast-paced automotive sector, delays are not an option. At xpd global, we provide critical and time-sensitive logistics to ensure seamless operations for OEMs, Tier suppliers, and semiconductor manufacturers. Our expertise in **just-in-time (JIT)** and **just-in-sequence (JIS)** processes keeps production moving without delays.

✓ OEM

Specialized logistics to move finished vehicles, prototypes, or machinery with precision.

✓ Tier 1

Emergency logistics experts with global capacity for rapid, reliable responses.

✓ Tier 2

Tailored logistics processes aligned with project-specific volume, quality, and schedules.

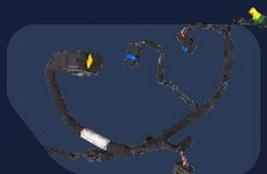

✓ Semicon

End-to-end logistics for the semiconductor industry, including chip and processor transportation

Sub-sector services

Inbound parts

Outbound finished parts

Prototypes and samples

Machinery and tooling

Tyres

Batteries

Premium logistics for the aerospace industry

Aerospace logistics demands precision and speed. At xpd global, we deliver customized solutions for critical operations like AOG emergencies or the delivery of high-value components. With **10+ AOG Logistics Emergency Centers and 24 / 7 support**, we minimize downtime with rapid response.

Our expertise ensures the secure transport of engines, parts, and prototypes. With real-time monitoring and strict compliance, we guarantee on-time deliveries for your aerospace operations.

Sub-sector services

AOG

MRO

Interiors

Engine shipping

Aerostructures

Reverse logistics

Premium logistics for the healthcare industry

Healthcare logistics demands strict adherence to safety and regulatory standards. At xpd global, we provide a comprehensive range of logistics services for transporting sensitive healthcare products, with solutions tailored to strict quality.

Medical supplies

Comprehensive solutions to secure the delivery of valuable medical products.

Medical devices

Specialized transport for medical and imaging equipment, adhering to strict regulations and your specific SOPs.

Sub-sector services

Medicines

Vaccines

Biotech products

Veterinary medicine

Premium logistics for the oil & gas industry

Oil and gas projects face complex logistics due to stringent safety regulations. At xpd global, we deliver customized strategies to safely transport hazardous materials and oversized equipment like modular rigs and pipelines, ensuring efficient project execution.

We provide end-to-end support across upstream and downstream projects, handling complex transport routes, regulatory compliance, and risk management.

Sub-sector services

Upstream

Midstream

Downstream

Exploration

Transportation

Refinery

Premium logistics for the mining industry

Mining logistics must overcome extreme challenges, from remote locations and cross-border routes to strict safety requirements.

At xpd global, we manage end-to-end project logistics for heavy and oversized mining equipment. We support every stage of operations, from construction to full-scale production. Our expertise in project cargo, multimodal transport, and route design ensures safe and on-time deliveries.

- OEM machinery for mining operations
 - Mining infrastructure projects
- Oil & gas infrastructure related to mining
 - Metallic mining transportation

Sub-sector services

Mining trucks

Processing plant components

Cryogenic tanks

Heavy processing machinery

Industrial pipelines

Premium logistics for the energy and renewables industry

Energy and renewables logistics is defined by one critical factor: continuity. Every delay in project execution risks disrupting power generation, slowing the energy transition, and breaching strict environmental commitments.

At xpd global, we ensure that energy projects move forward on schedule and in line with environmental and safety standards, providing logistics solutions that connect remote sites, support renewable growth, and safeguard power reliability.

With our technical expertise and global reach, we deliver seamless operations that keep energy progress on track.

Sub-sector services

Solar panels

Wind turbine blades

Hydropower equipment

Liquefied natural gas (LNG) tanks

Transmission infrastructure

Premium logistics for engineering, procurement and construction projects

EPC projects demand flawless logistics coordination, where even small delays can jeopardize entire construction schedules. At xpd global, we manage complex logistics flows to keep projects on schedule, coordinate multiple suppliers and origins, and ensure strict technical and contractual compliance.

Our expertise in project management supports the safe and reliable delivery of oversized, hazardous, and high-value components for industrial, energy, and infrastructure projects worldwide.

- Industrial construction projects
- Energy and utility infrastructure
- Process plants and mining facilities
- Refineries, pipelines, and logistics terminals

Sub-sector services

Industrial skids

Turbines

Plant boilers

Specialized containers

Assembly and production lines

Premium logistics for industrial machinery equipment

The machinery sector demands precise logistics to move oversized and high-value equipment, as damage or delays can lead to significant operational and financial losses.

At xpd global, we manage the safe transportation of mining, agricultural, construction, and industrial machinery, integrating specialized methods such as RoRo, breakbulk, and multimodal solutions.

- Mining machinery
- Agricultural machinery
- Construction and road infrastructure equipment
- Oil & gas machinery

Sub-sector services

Excavators

Articulated trucks

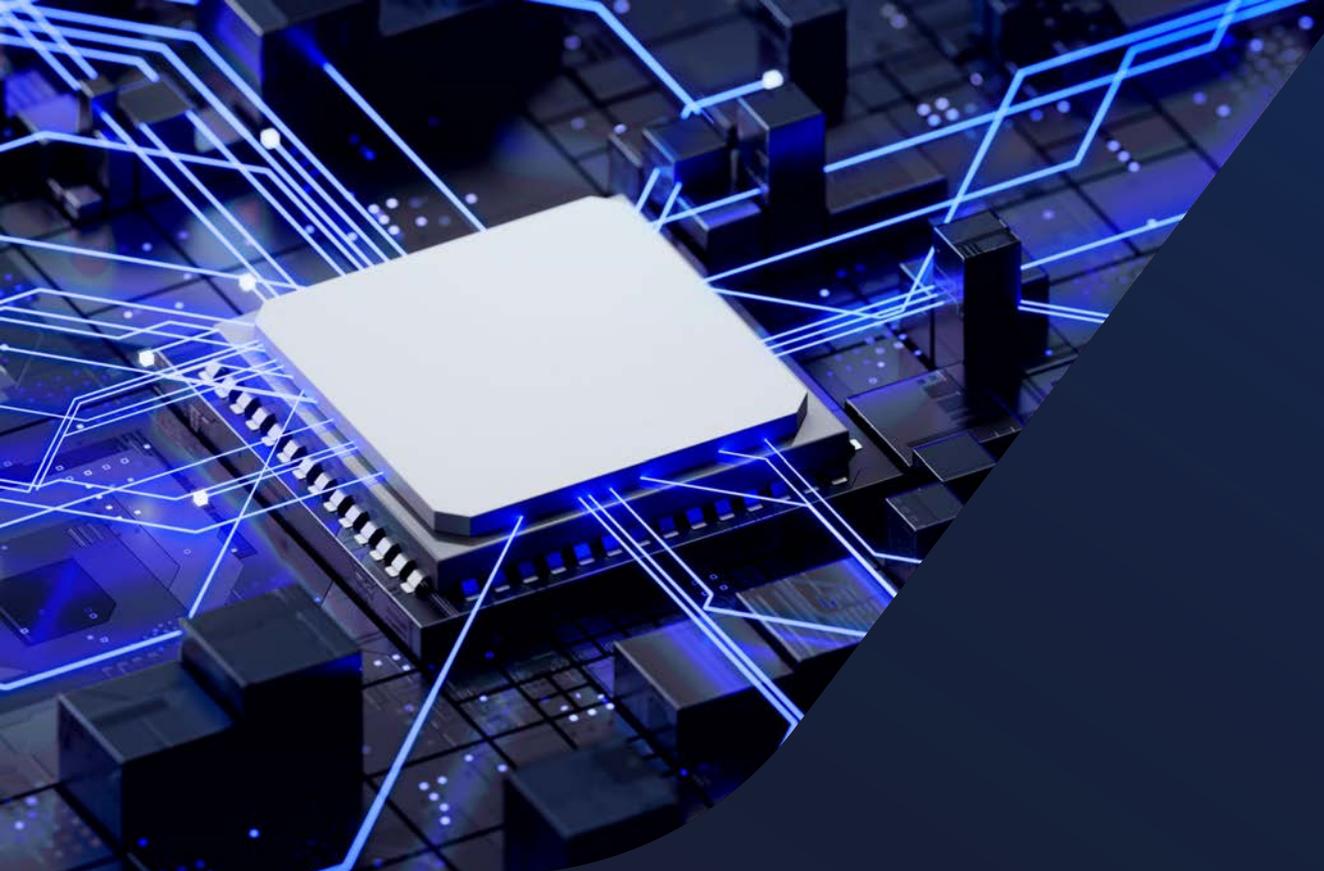

Assembly and production lines

Agricultural machinery

Specialized vehicles

Premium logistics for the high-tech industry

High-tech logistics must keep pace with rapid product cycles, protect fragile components, and manage complex global supply chains with precision.

At xpd global, we provide specialized solutions that protect high-value cargo, connect multi-node supply chains, and keep critical deadlines on track.

- **Meet critical lead-times**
Urgent solutions (premium air freight) to meet every launch and market deadline.
- **Protect fragile, high-value cargo**
Specialized packaging, safe handling, and environmental control for sensitive components.
- **Connect multi-node supply chains**
Seamless coordination from manufacturing to final delivery across continents.
- **Control transport conditions**
Continuous monitoring of temperature, humidity, and pressure for product integrity.
- **Handle demand peaks**
Flexible capacity to support high volumes during product launches or seasonal surges.

Sub-sector services

Semiconductors

Electronics

IT (Information Technology)

Leading with purpose, driven by people

Behind every shipment, every on-time delivery, and every tailored solution is a team of dedicated professionals who care deeply about your success.

Our people are the driving force behind our culture of creativity and accountability. They take ownership of each operation to ensure a seamless experience for you. With us, you're not just a client—you're a valued partner, and your logistics are in the capable hands of a team that thrives on delivering excellence every time.

 Always fast,
friendly & dedicated

We are made for moving champions forward

After years of successful collaboration with Brose, a leading global automotive supplier, our partnership evolved beyond a traditional client-provider relationship, opening the door to sponsor the Bamberg Baskets—a nine-time league champion supported by Brose.

By supporting the Bamberg Baskets, we're not just backing a successful sports team; we're connecting with those who embody our dedication, resilience, and winning mindset, values that also drive our approach to logistics.
