

**CANO**  
STEEL

**BUILDING A SOLID FUTURE**

## ABOUT US

Since 1989, Grupo Cano has been a leader in the steel structure industry, delivering exceptional services for over 36 years. From the beginning, we have been committed to excellence, and in 1992, we made history as the first Mexican company to obtain SJI certification—becoming only the second worldwide to achieve this recognition. This achievement established us in the global construction market.

## ABOUT US

Building on this legacy, Cano Steel started in 2017 to meet the demands of the U.S. construction market, backed by the expertise and experience of Grupo Cano. Today, we are a trusted name in the steel industry, expanding our reach across North America.

## ABOUT US

We have production capacity and storage facilities to meet any demand. With a total production capacity exceeding +6,000 tons per month, Cano Steel is equipped to handle projects of any size. With a total production capacity exceeding 6,000 tons per month, Cano Steel is fully equipped to handle projects of any scale. Along with our sister companies, we have a combined capacity of 3,000 tons of structural steel and 3,000 tons of joists, produced at our two specialized joist girder plants.

Additionally, we guarantee on-time delivery to your site, supported by our 360,000 sq. ft. yard in the U.S. for material storage. Our team manages the dispatch of 15 to 20 trucks daily, ensuring everything is ready when you need it.

## OUR MISSION

Cano Steel is a financially solid company driven by a committed team specializing in the design, manufacturing, and supply of a wide range of joists and joist girders. We prioritize time efficiency and cost-effectiveness, striving to lead the steel construction industry through excellence and reliability.

## OUR VISION

Our vision is to set the highest standard in the steel transformation industry and among its suppliers. We are committed to expanding our market presence beyond the United States and becoming a strategic, efficient, and profitable partner for all our customers.

Cano's commitment to excellence is reinforced by certifications from the **American Institute of Steel Construction, Steel Joist Institute, American Welding Society, Steel Deck Institute, and ISO 9001:2015**. These certifications demonstrate our dedication to delivering products that meet the highest standards of quality, safety, and performance.

## **CANO'S PORTFOLIO**

Grupo Cano and Cano Steel have significantly expanded their presence in both Mexico and the United States through numerous projects, each requiring specialized work ranging from engineering, detailing, and fabrication. By collaborating with international brands, we have successfully expanded our portfolio, solidifying our position as a leader in the steel industry across North America.

## GRUPO CANO, FAMILY, PRODUCTION, FACILITIES.

At Grupo Cano, with our combined expertise of our sister companies allow us to deliver full-service, top-quality solutions. With years of experience as in the industry, we specialize in erection services, deck production, and the fabrication of miscellaneous steel components. Our sister companies, Metal Deck Solutions and Prime Steel Solutions, bring specialized expertise to every project. Metal Deck Solutions produces over 2.5 million square feet of deck per month, while Prime Steel Solutions manufactures 150 tons of miscellaneous steel components. Additionally, our Joist Structural Systems plant adds 1,500 tons of joists monthly,

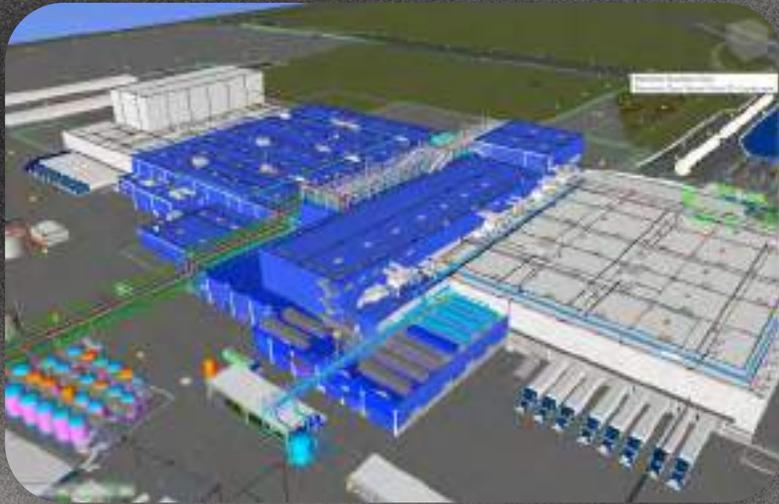

Since the start of operations in July 2024, our 949,521 sq. ft. specialized joist girder facility has increased our capacity by an additional 1,500 tons, offering unmatched production flexibility to meet any project need, regardless of its size or complexity.

## TEAM MEMBERS

At **Cano Steel**, every project is covered by a dedicated **Project Manager**, ensuring seamless coordination and execution from start to finish. Our team works closely with key departments, including **operations, sales, finance, budgeting, engineer, erection, and logistics**, to guarantee that every detail is handled with precision. With this, we provide comprehensive solutions to each project's needs. When you work with **Cano Steel**, you have the confidence of an extended team of experts committed to delivering excellence at every stage.

## ENGINEERING AND DETAIL SERVICES

At Cano Steel, we provide design and engineering consultancy, offering precise budgets for any structural project based on your specifications. With a team of over 30 specialists, we use advanced software like Tekla Structures and Bentley STAAD Pro, all under AISC and AWS regulations, to ensure manufacturing and assembly meet the highest standards of reliability, safety, and cost-efficiency. Our approach guarantees that project specifications are applied correctly, ensuring optimal results for every project.

Looking forward to  
start working with you.
