Vietnam

India

Your project support team

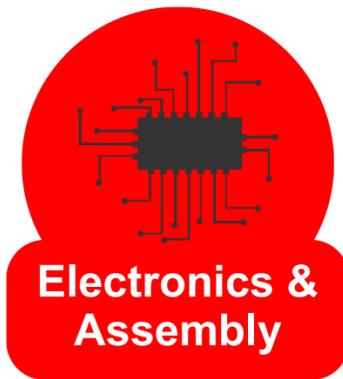

Your PacRim support team is based in the U.S. and consists of highly experienced project engineers, customer service, and subject matter experts in electronics, plastics, and metals.

Our supplier development engineers are based in-region, near the manufacturing sites to ensure projects launch smoothly, on-time with impeccable quality.

Our **experience**

From small-batch custom orders to over 500,000 assemblies annually, with no minimum order required.
