## Services & Capabilities

- Production & distribution of Industrial Gases: Acetylene, Argon, Carbon Dioxide, Helium, Hydrogen, Nitrogen, Oxygen, Propane, Refrigerants & Welding mixes
- Production & distribution of Medical Gases: Medical Oxygen USP, Medical Carbon Dioxide USP, Medical Nitrogen NF, Medical Air USP, Breathing Air, Medical Nitrous Oxide USP and Medical Mixes
- Production & distribution of Specialty Gases: UHP Nitrogen, UHP Argon, UHP Helium, UHP Oxygen, UHP Hydrogen and percentage Laser Mixes, Medical Mixes, EPA Protocols, etc.
- Bulk distribution capabilities for liquid medical grade Oxygen, liquid medical/food grade Nitrogen, and liquid Argon. Bulk beverage grade Carbon Dioxide. Bulk UHP grade Helium
- Design, installation & leak test of gas distribution systems
- Cryogenic storage tanks, equipment installation and maintenance services
- Distribution of welding supplies and safety products, including CO2 Sensors and Oxygen Sensors

## Company

SYOXSA, Inc. is a privately held, locally owned gas distributor. We distribute industrial, medical & specialty gases along with mixes, welding supplies, and safety products. Our 30 years of industry experience allow us to deliver professional service and high-quality products to satisfy our customer requirements in a timely matter. We are a proud member of IWDC, the largest gases & welding/safety products cooperative in the USA, Canada and Mexico.

## Facilities & Equipment

- High pressure fill plant in 50,000 Sq. Ft. industrial zone
- Helium jumbo tube trailers 140,000 SCFT capacity @ 3200 PSIG
- Cryogenic medical grade Oxygen, Nitrogen, and Argon transport trailers, 4300 to 6000-gallon capacity
- Cryogenic beverage grade Carbon Dioxide trailers, 20-ton capacity
- Tube trailers 55,000 SCFT capacity @ 2600 PSIG for service with inert gases (Helium, Nitrogen, Argon)
- Palletized high-pressure cylinder transport units, 33,000-pound capacity, GPS monitored & cameras
- Cryogenic storage tanks for Argon, Carbon Dioxide, Nitrogen, Oxygen & Propane
- Spare cryogenic liquid bulk tanks, cylinder, and Dewars
- Analytical gas laboratory equipment: Teledyne 316, Meeco W, Servomex 5200, Thermco 6900, Varian Gas Chromatograph 3400, Gow-Mac Series 580
- High pressure filling system, up to 6600 PSIG capacity to fill high pressure Nitrogen, Helium & Argon, including high pressure UHP Nitrogen, UHP Helium and UHP Argon

## Capability Statement

### Specific Information

**CAGE Code:** 58ML8  
**DUNS#:** 867581089  
**Unique Entity ID:** ZT3AGPRP6JL7  
**SNL iSupplier #:** 86006  
**EIN:** 74-2910582  
**Organization:** C-Corporation

### NAICS Codes:

325120-Industrial Gas Manufacturing  
325199-All Other Basic Organic Chemical Manufacturing  
424690-Compressed Gases  
424690-Welding & Medical Gases  
423830-Industrial Machinery & Equipment Merchant Wholesaler

### Certifications & Registrations:

Purity Plus Specialty Gas Producer II  
Railroad Commission Propane License  
FDA Drug Manufacturer Certified  
Registered with SAM.gov  
Minority Business Enterprise (AU03930)  
NSF-Certified Beverage Grade CO2  
SAP Ariba ANID: AN01429616373

### Contact Information:

- 12-Cylinder Bakeout Oven and 6-Cylinder Inverter to ensure the purity and blend accuracies of our specialty gases
- TrackAbout cylinder barcode system to provide accurate cylinder balances and movements
- Liquid Dewar Vacuum repair station to ensure the highest performance and lowest Normal Evaporation Rates of Liquid Dewars
- Cylinder Valving equipment to quickly repair any damaged valves
