

# CROSS BORDER AND INTRA-MEXICO

**Efficiencies** and **value-add** opportunities can only be realized by a commitment to performance coupled with a wealth of on-the-ground experience. Dunavant provides precisely that combination.

## US/MEXICO OPERATIONS

Our history as a performance based solutions provider with superior customer service is combined with our team's years of experience in Mexico. Having the relationships and trust of your partners is always critical and that value is even more critical when navigating the supply chain from and within Mexico.

We invite you to initiate a conversation with us to explore the benefits and efficiencies that we can bring to your operations.

We are focused on **eliminating the complexities** that come with managing freight operations and providing a dependable end-to-end solution for all your cross border and intra Mexico operations. We offer a full-scope of logistics services to help your company successfully navigate the US/Mexico supply chain.

**Whether moving cross-border or intra Mexico, we are your single source for visibility, efficiency, compliance, and predictability.**
