

YOUR BUSINESS POWERED BY OUR EXPERTISE.

GROW YOUR BUSINESS WITH US !

How We Support Your Business

PCBA Assembly

High-precision PCBA assembly with advanced SMT and through-hole process, ensuring reliable performance and quality for diverse electronic applications

Repair & Remanufacturing

Expert repair and recertification services that extend product life, reduce costs, and maintain compliance with industry standards.

3PL

Comprehensive third-party logistics services, including storage, distribution, and cross-border support for streamlined supply chains between Mexico and the United States.

Box Build

Complete product integration from sub-assemblies to finished units, including mechanical and plastic enclosures, delivering ready-to-use solutions with precision and quality.
