ANNIVERSARY

COPLAINSA

Reliable plastic components and integrated sub-assemblies.

COMPANY CONFIDENTIAL.
COPLAINSA is a registered trademark.

ABOUT US

- **Quality first culture.**
- **ISO 9001:2015** certified quality system
- **IATF 16949** aligned quality system under implementation, roadmap 2026-2027.
- Processes aligned with **regulated manufacturing environments.**
- Expertise in **precision injection molding & assemblies.**
- Focus on **consistency, control and long-term supply.**

WHO WE ARE?

COPLAINSA is a precision plastic injection molding manufacturer with more than 29 years of experience supporting demanding industries.

Our operations are built around process discipline, stable manufacturing practices, and quality systems designed to deliver consistent results in controlled production environments.

From tooling optimization to high-precision molding and integrated assemblies, **COPLAINSA** supports customers that require reliability, scalability, and documented manufacturing processes.

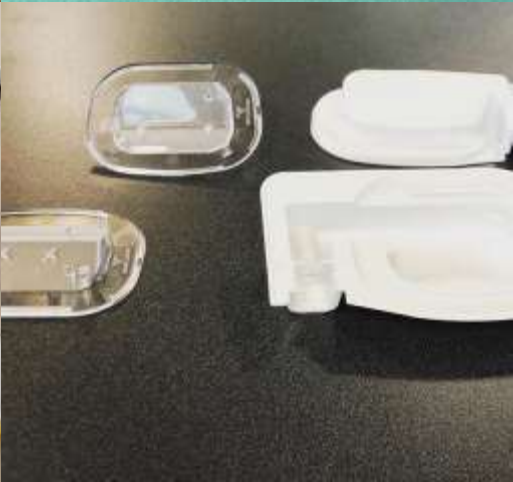

QUALITY ASSURANCE

- Risk awareness culture
- Audit readiness mindset
- Documented processes

Our commitment to quality is backed by a highly trained and motivated team, as well as a fully equipped metrology laboratory, featuring:

- ZEISS Spectrum® CMM
- CMM Faro arm®
- MITUTOYO® optical comparator
- Konica Minolta® spectrophotometer
- Light cabinet
- Precision measurement Equipment

At COPLAINSA, quality is produced and delivered!

OUR COMPANY TIMELINE

WHAT WE OFFER YOU

Meet your injection
molding partner!

COMPANY CONFIDENTIAL.
COPLAINSA is a registered trademark.

END-TO-END **MANUFACTURING** SOLUTIONS

Design & Engineering

We can help anyone with a dream or idea of a product to bring that dream into reality. We work hand in hand with engineers, designers and tool makers to turn dreams into products and profits

Tool Making, 2nd Stage & Maintenance

COPLAINSA molds are made right the first time. We also accept transfer molds and can get your product into production quickly and economically. Our core business is doing the impossible.

Plastic Injection Molding

Specializing in difficult-to-process engineering resins, over-molding, metal replacement, and precision plastic components, we operate with machines ranging from 60TN to 750TN (Total 25)

Quality systems

Our quality assurance is integrated into all processes, ensuring the final product you receive is built to your specifications. COPLAINSA is an ISO 9001:2015 certified company in progress for IATF 16949

Packaging, Assembly & Secondary Operations

Our in-house secondary operations eliminates outside vendors, saving significant amount of lead-time and costs for all your products. Our In-house secondary operations include:

- **Part joining:** Adhesive bonding, Heat Staking, Sonic Welding
- **Printing & Decorating:** Pad printing, Hot stamping
- **Assembly & Testing:** Mechanical and electro-mechanical assemblies and testing

Value Added Services

Our Metrology lab is fully equipped to ensure compliance with all your specifications.

We specialize in manufacturing high-performance plastic components using advanced high-temperature injection molding resins, including PC, PA (6, 66, 6/6, 6+30GF, and other blends), ABS, Acrylic, PBT, TPE, PS, and PPS

TO BE THE BEST AT WHAT WE DO

CORE VALUES

Our success is built on a strong foundation of tenacity, commitment, and hard work, turning ambitions into reality

Guided by our core values, we foster a culture of excellence, integrity, and service, where honesty, teamwork, and dedication drive our growth and define who we are

VISION

Establishing COPLAINSA as a global industry leader by continuously advancing our certifications, unlocking new markets, diversifying our business, and driving sustainable growth to shape the future of our industry

MISSION

To meet delivery requirements with on-time supply, flexibility, and competitive pricing by:

- Ensuring consistent quality across procurement, manufacturing, storage, and distribution
- Continuously improving our products and processes for greater efficiency and innovation
- Investing in our people through training and development within a culture of quality and excellence
- Adhering to customer guidelines and expectations to build long-term trust and reliability

OUR STRATEGIC LOCATION

Strategically located in Celaya, Guanajuato, the geographic heart of Mexico, ensuring efficient distribution and easy access to key markets

- Celaya production facility - 4,500 m²
- Warehouse FP - 1,200 m²
- Distance¹ 500m
- Expansion site #1 - 3,800 m²
- Distance¹ 800m
- Expansion site #2 - 20,000 m²
- Distance¹ 7.2km

1. Total distance between such location and our main production facility

READY-TO-RUN CAPACITY: 67,000+ hours

#	Tn	Quantity, #	Max shot weight (PS), gr	Space between tie bars	Max. Mold height, mm	Min. Mold height, mm	Saturation, %
1	60	1	62 gr	310 X 310	330 MM	120 MM	4%
2	75	1	115 gr	320 X 320	360 MM	100 MM	6%

15	555	1	1854 gr	860 X 860	1000 MM	250 MM	23%
16	700	3	2605 gr	960 X 940	940 MM	400 MM	79%
17	750	3	2605 gr	1100 X 960	950 MM	450 MM	72%

Capacity managed under controlled processes to ensure consistency and traceability.

Advanced peripheral capabilities

Our production is supported by state-of-the-art peripheral equipment, including:

- Thermolators
- Chillers
- Dryers
- Valve gate systems
- Hot runner controls
- Robotics
- 2x overhead cranes (10 and 5 TN)

Operational Shifts & Production

- **Mondays to Fridays:** 24-hour operations, running 3 shifts
- **Saturdays:** 15-hour operations, running 2 shifts
- We are prepared to scale production with Saturday third-shift operations and full three-shift coverage on Sundays
- **We scale our capacity to meet your needs.**

25 machines¹

3 shifts

5,800 hours

1. Accounting for planned downtime, mold changes, material and color transitions, and other operational adjustments

OUR TOOLING MANUFACTURING & MAINTENANCE SERVICES

Tooling reliability is critical for medical device production consistency.

- Preventive maintenance
- Engineering changes control
- Tool stability over lifecycle

Moreover, to deliver high-quality solutions for even the most complex projects, we have secured strategic partnerships with trusted suppliers in Europe and Asia.

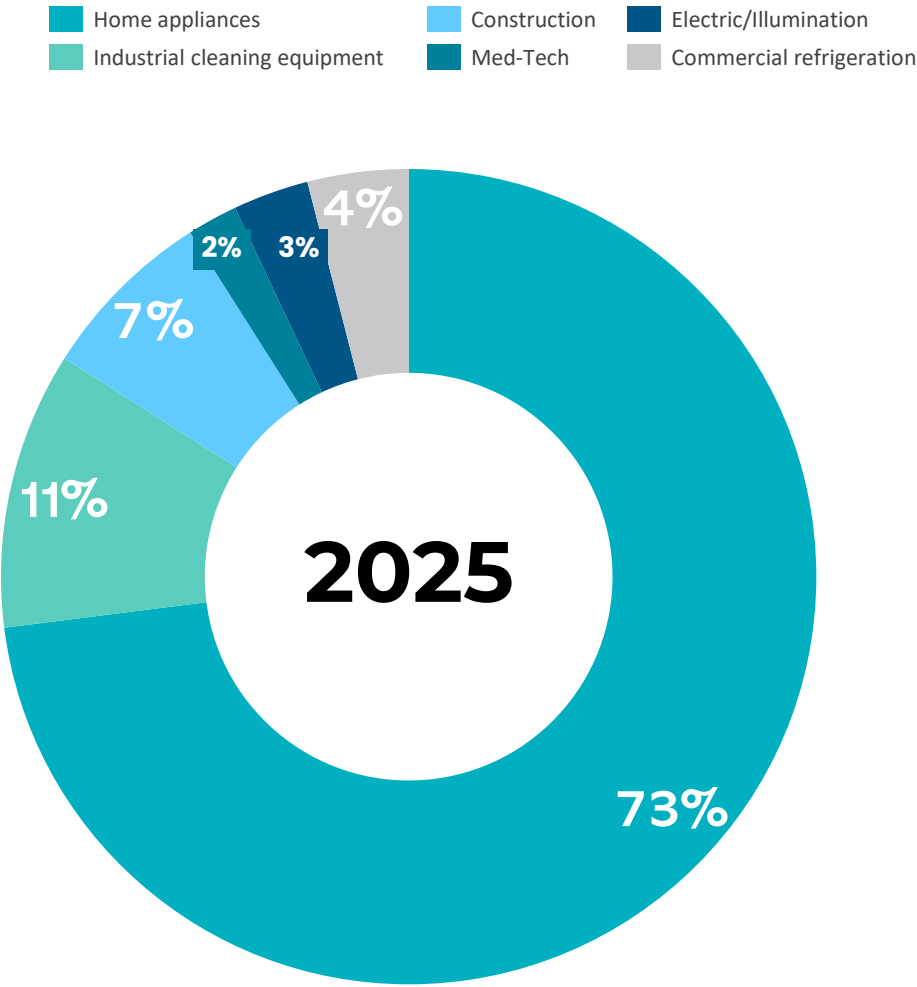

Our facility is fully equipped with cutting-edge technology, including:

- 2x CNC Vertical Machining Centers
- CNC EDM
- Surface Grinder
- Lathe & Milling machines
- Laser-Welding – ALPHA Laser 200
- High-End Polishing
- Crane Capacity: 2x 10TN + 5TN

OUR SALES MIX GIVES

Sales breakdown per industry, %

Extensive industry coverage – Our ability to support industries with distinct demands highlights our expertise and dedication to quality, making us a trusted partner for businesses globally

Versatile Manufacturing Capabilities – From high-volume production for the home appliances sector to precise and tailored solutions for construction and agriculture, our capabilities adapt seamlessly to meet industry-specific needs

We Bring Solutions to Your Needs Across Industries– From design to production, we deliver reliable, high-quality, and efficient solutions, ensuring your needs are met at every stage of the process
