AUTHENTIC LEADERSHIP

Who we are

We are a team committed in developing leadership. Carlos and Adriana Angulo, father and daughter, form a team with extensive experience in coordinating work groups within the corporate legal field, acting as legislative liaison, developing civil society, and building multinational teams that have grown to more than 10,000 people.

With this trajectory, they have decided to dedicate this stage of their lives to foster leadership, promoting both personal growth and strengthening the business community, creating a positive and lasting impact in the United States and Mexico.

To carry out this mission, Adriana and Carlos became certified through Maxwell Leadership, a globally recognized leadership organization. This certification allows them to effectively share the knowledge and experiences developed by the institution, forming a team fully committed in developing leadership.

With this background, we deliver leadership training that transforms individuals into high-impact leaders and drives measurable results across organizations. By strengthening critical leadership capabilities, we help leaders boost performance, increase team engagement, and build a culture that sustains long-term success.

Introduction

Develop the Leader Already Inside You

In every company, human resources are its greatest strength. You can have capital, infrastructure, and big plans... but nothing works without leaders who inspire, guide, and elevate results.

Today, many organizations face a silent challenge:

- Individuals in high positions without true leadership skills.
- Unmotivated teams.
- Stagnant productivity.
- Talent with potential, but lacking direction to grow.

The good news is that leadership can be developed, and it starts from within.

Mastermind Structure

What Is a Mastermind?

A Mastermind is a structured, high-impact method where a select group of people meets regularly to collaborate, share experiences, and support one another in achieving meaningful goals.

The power of a Mastermind lies in collective intelligence—the unique synergy created when individuals come together to exchange ideas, challenge perspectives, and accelerate both personal and professional growth.

This Mastermind will help your organization to:

- Discover their true potential as a leader.
- Develop skills that allow them to influence others positively.
- Improve communication with their teams.
- Increase their productivity and your organization's results.
- Create a culture of growth, motivation, and performance.

No matter their job title or level:

- Anyone can learn to lead.
- Anyone can transform their life and their organization.

This experience is designed for those who already understand leadership and for those who will be introduced to the concept for the very first time.

The 21 Irrefutable Laws of Leadership

In this transformational Mastermind program, we will meet once a week for 90 minutes over the course of 7 weeks. Each session will explore three of John C. Maxwell's 21 Irrefutable Laws of Leadership, focusing on meaningful discussion and real-world application.

Participation is essential. Members will share experiences, perspectives, and insights, turning leadership principles into practical tools they can apply within their teams and organizations.

At the end of the program, all participants will receive a Certificate of Completion endorsed by Maxwell Leadership. But the true value goes beyond a certificate.

Participants will:

- Strengthen their leadership skills and influence.
- Identify areas for personal and professional growth.
- Learn to lead and develop stronger teams.
- Make more intentional and effective leadership decisions.
- Build connections that inspire continued growth.

This Mastermind is an opportunity to strengthen the way you lead and expand the impact you have on the people and organizations around you.

Our Goal

Our purpose is for every participant to leave with clarity and a renewed conviction to strengthen their leadership abilities, benefiting not only the company but also their personal growth, confidence, and long-term impact.

Prepare for a transformative experience.

Because when a leader grows everything grows.
