

End-to-end air freight solutions

We support customers across the entire cargo lifecycle – tailored solutions for every requirement, from routine movements to the most complex, time-critical shipments.

Our core services

Charter Solutions

For time-critical, outsized, or high-value cargo where control and speed are essential:

- Full and part charter solutions
- Global aircraft access across all classes
- Tailored aircraft selection based on size, weight, and urgency
- Expertise in load planning and operational constraints

Scheduled and Part Charter

Efficient alternatives when full charter is not required:

- Access to global scheduled cargo capacity
- Part charter and split-load solutions
- Strong relationships with trusted airline partners
- Cost-effective routing and consolidation options

Project and Specialized Cargo

For complex, non-standard freight movements:

- End-to-end coordination across all stakeholders
- Ground handling and technical oversight
- Experience across automotive, energy, aerospace, and defense sectors
- Bespoke solutions for heavy lift and out-of-gauge cargo

Time-Critical Solutions

When speed is crucial and every second counts:

- Next Flight Out (NFO)
- On Board Courier (OBC)
- Expedited trucking and hand-carry solutions

Why ACS

- > 35+ years of experience in global air freight
- > North America coverage backed by a worldwide office network
- > Non-asset-based model ensuring unbiased, optimal solutions
- > No call centers – direct access to your dedicated account manager
- > Proven track record
- > 24/7 operational response and monitoring
