FOAM SOLUTIONS BEYOND EXPECTATIONS.

Value Statement

**Innovative solutions in
the **manufacturing** of
seals **gaskets****

www.diga.com.mx

■ Our manufacturing sites

■ Mexico City Facility

- 58% of the total revenue
- During 2021 we produced 100.6 millions of parts
- Automotive and Appliances markets

Contact at : +52 55 5870-3212

■ Monterrey Facility

- 35% of the total revenue
- During 2021 we produced 101.7 millions of parts
- Appliances and Air Conditioning systems

Contact at : +52 81 1090-0140

■ Silao Facility

- 7% of the total revenue
- We start operation during Nov. 2018
- Automotive Industry

Contact at : +52 47 2748-6569

■ Our capabilities:

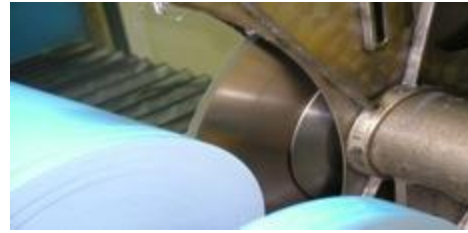

We are in constant improvement, growth and innovation; our locations have the following capabilities:

■ Mexico City Site:

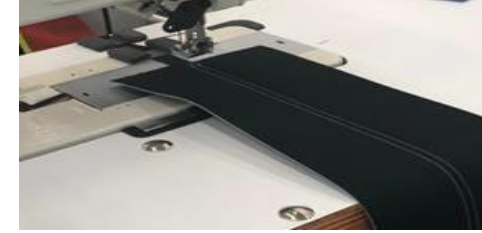

- Capacity use : 60%
- Area : 12,200 sq/mtr
- Shifts : 2.0
- Total Staff : 225

■ Monterrey Site:

- Capacity use : 51%
- Area : 7,500 sq/mtr
- Shifts : 2.0
- Total Staff : 205

■ Silao Site:

- Capacity use : 25%
- Area : 2,800 sq/mtr
- Shifts : 1.0
- Total Staff : 25

■ Applications in the automotive industry:

We provide innovative solutions using our knowledge of the materials, to offer our customer; open and closed cell foams, non-woven fabrics, felts, aluminum foil and pressure sensitive adhesives systems, to control:

- Sealing out water and dust
- Acoustic and heat insulation
- Noise reduction
- Filtration

■ Materials and processes:

Hand-in-hand with our customers and suppliers, we are in constant innovation in process and searching materials, to fully comply with all industry standards.

■ Materials

- Neoprene
- PVC
- Polyurethane
- Cross Linked Polyethylene
- EPDM
- Filter
- Expanded Polyethylene
- Felt

■ Processes

- Adhesive Coating
& Lamination
- Skiving
- Die Cutting
- Slitting
- Thermoforming
- Molded Polyurethane
- Backstitch

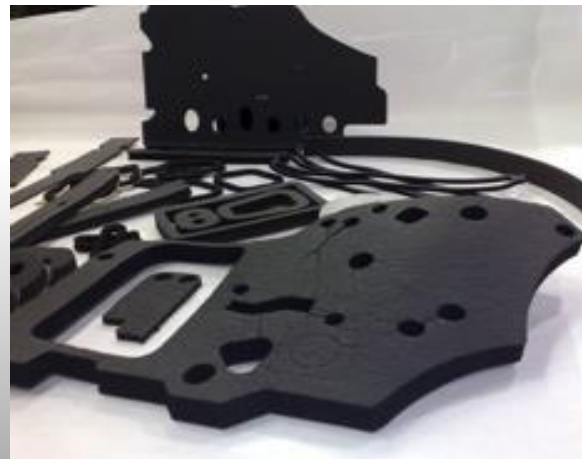

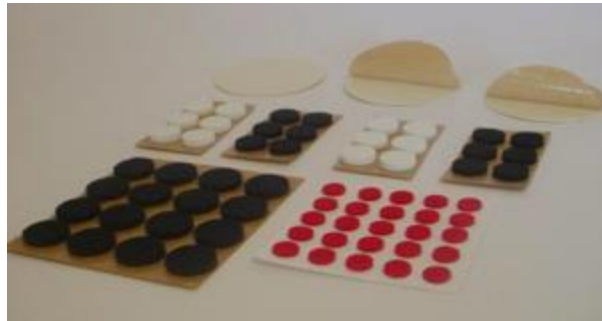

Innovative solutions in the **manufacturing** of seals **gaskets**

www.diga.com.mx

■ Die Cutting Process:

We have the ability to offer multiple die cut patterns:

- Die cut
- Kiss cut
- Roll pieces
- Individual pieces

Innovative solutions in
the **manufacturing** of
seals **gaskets**

www.diga.com.mx

- Sealing – die cutting:

We have the ability to offer die cut and seal pieces according with your requirements:

- Die cut
- Sealing
- Sealing – die cut

Innovate solutions for
the **Automotive**
Industry and others

We provide innovative solutions for industries like Automotive,
Appliances and Air Conditioning among many others.

■ Molded Polyurethane Process:

With more than 10 shooting heads we produce Molded Polyurethane parts with a fully automated and manual machines :

- State of the art molded PU
- High and low density, flexible molded polyurethane parts
- Outstanding properties of, water absorption and elongation
- Better performance than molded EPDM

During 2020 we produced :

- 1.490 millions parts produced in Mex Site
- 2.584 millions parts produced in Mty Site

Innovative solutions in the **manufacturing** of seals **gaskets**

www.diga.com.mx

■ Other processes:

Die-less process, for regular production (low and mid volumes / high mix) and for quick response for prototypes and samples:

- From CAD drawing to a production table
- Big table capability: 1.50 by 3.30 mts
