

A future built on tradition.

In the heart of Europe – at home in the world

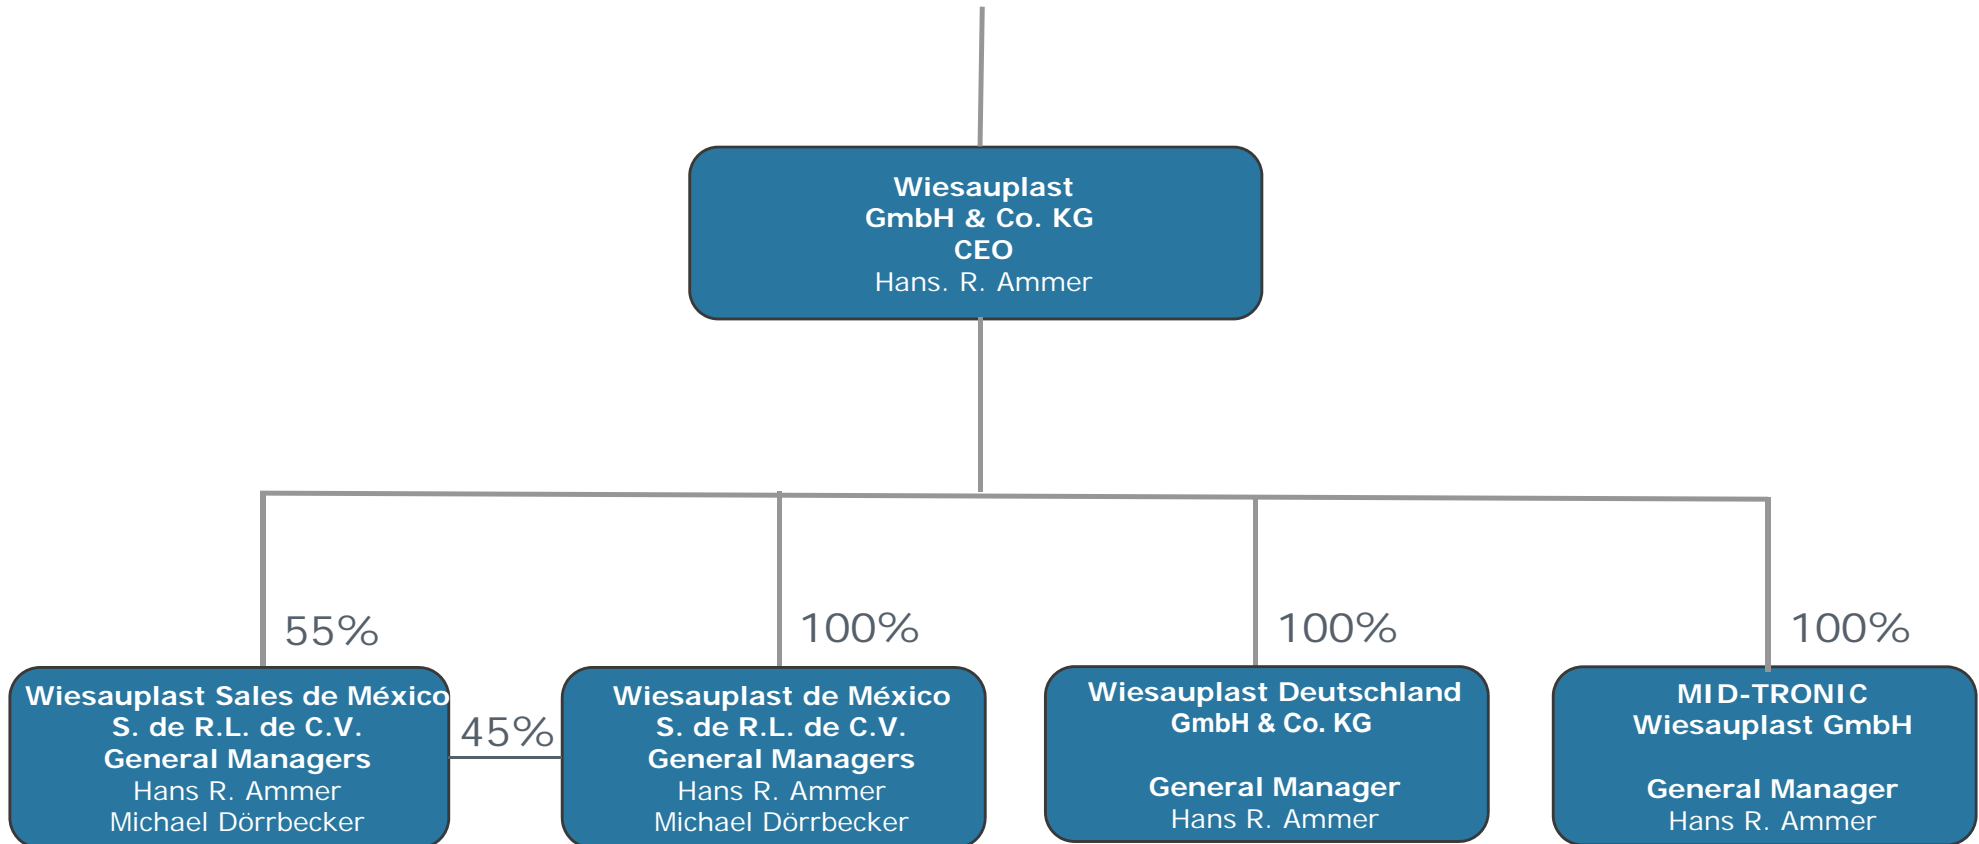

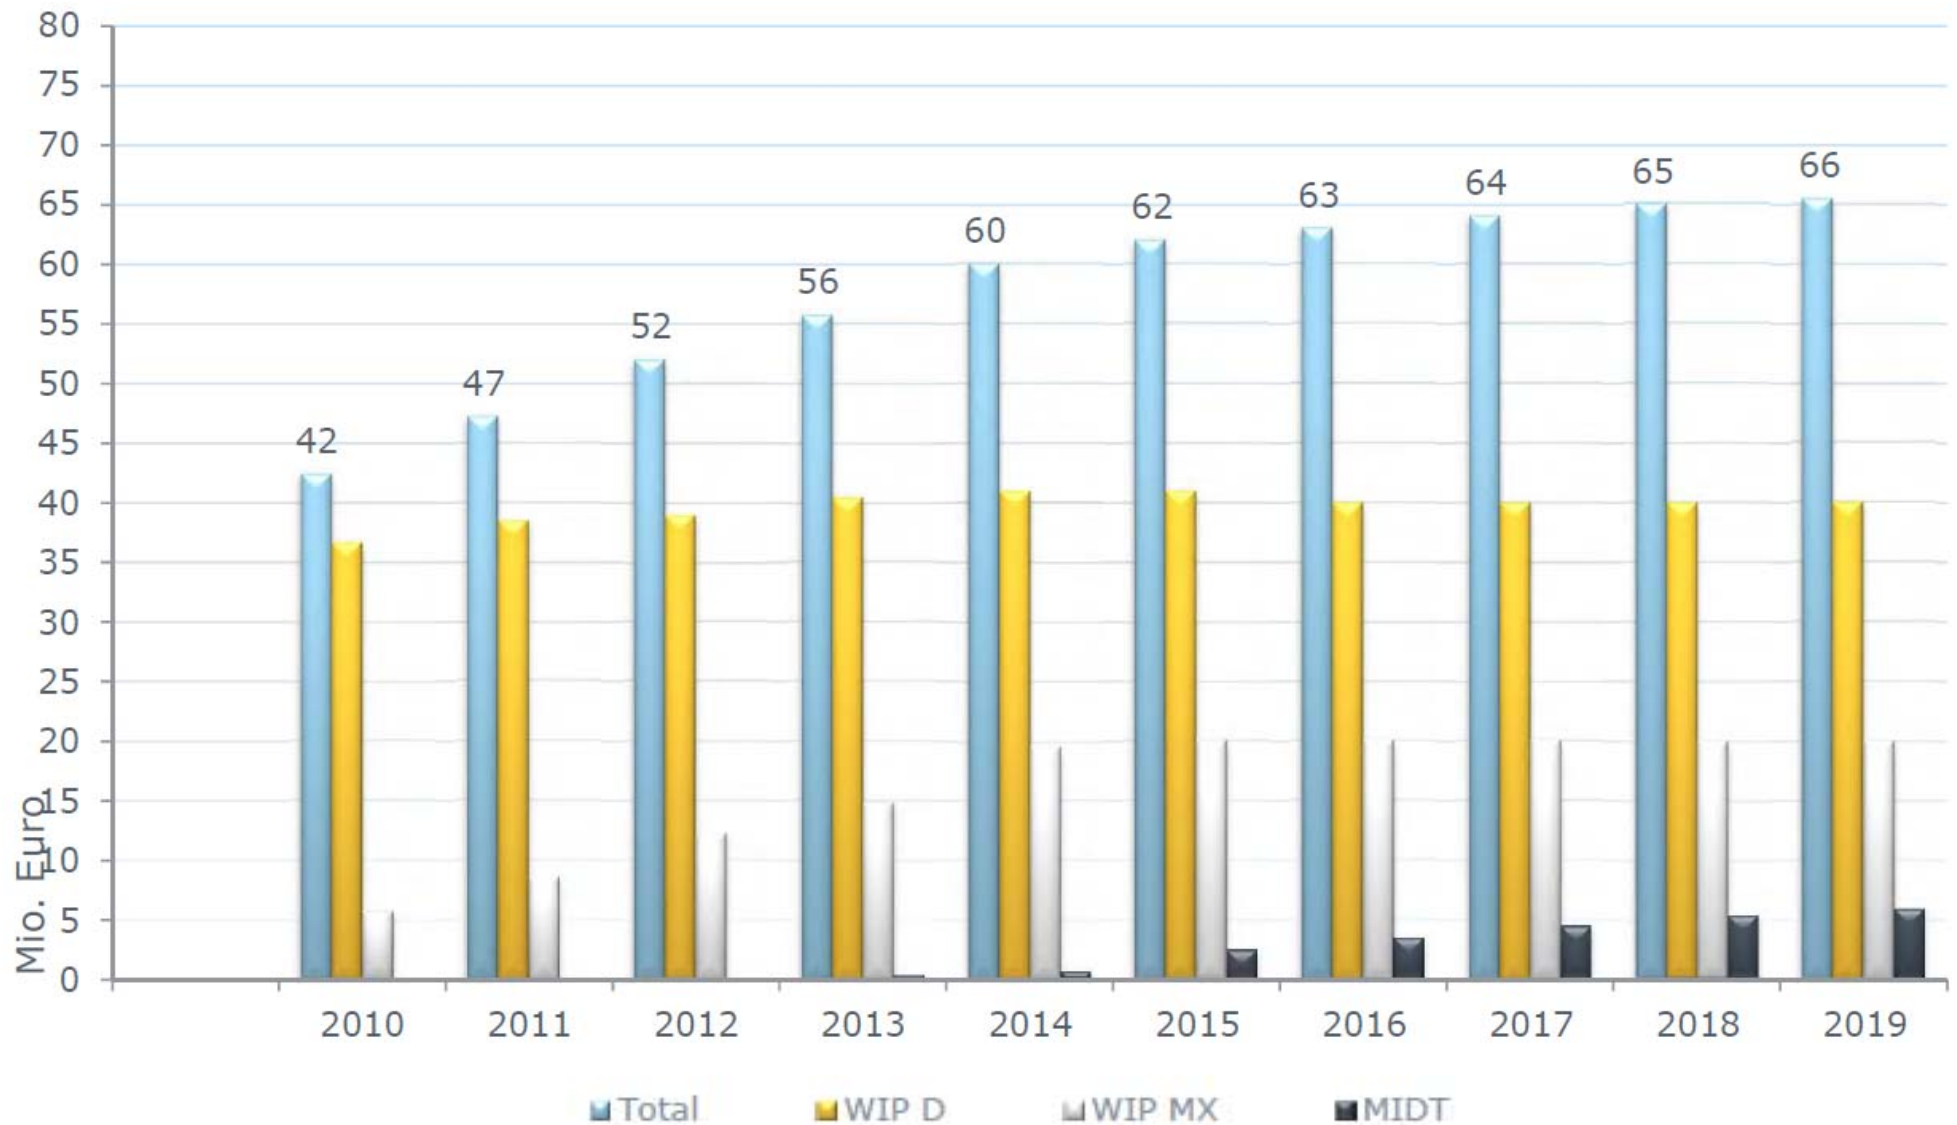

Wiesauplast Group

Founded	1958
Production space	40.000 m ² (WIP + WIMX)
Locations	Wiesau/Germany + Guanajuato/Mexico
Employees	570 (WIP + WIMX)
Turnover 2020	66 Mio. € (WIP + WIMX))
CEO	Hans R. Ammer
Shareholder	Indus Holding AG

[INDUS] H O L D I N G A G

A Future Built on Strengths

- Solid financial strength and stability
- Highly-qualified, long-service, innovative employees
- World-class leaders in technically challenging, hyper-precision parts
- Short decision-making paths
- Commitment to support customers' growth plans

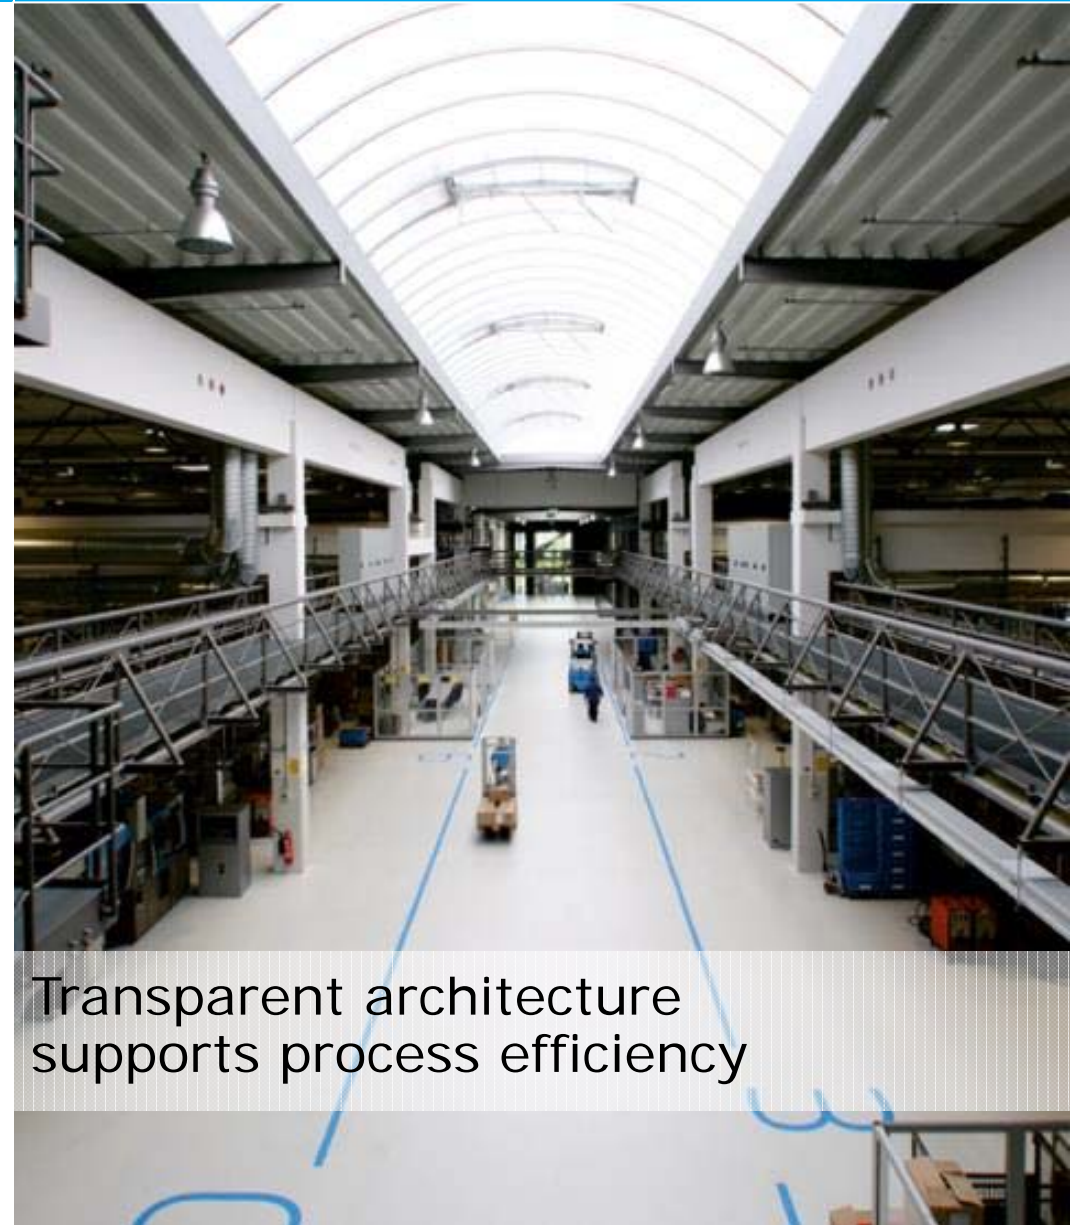

Turnover growth factors

- Stable growth with key components in brake business and complex technical plastic parts and systems for our key customers
- Continuous growth in non automotive business areas (20 % content in Germany)
- Conservative growth of Mexican subsidiary in automotive business (LLCC)
- Further development of advanced technologies
(multi shot molding, insert molding, mechatronic components)
- Continuous automation improvement.

Global Supply - Europe

Among world's most modern plants

- World leader in the area of sensitive PET safety parts for braking systems
- Certified in accordance with ISO 9001, IATF16949 and ISO 14001
- Classified as Premium Supplier from Continental, Preferred Supplier from Robert Bosch.
- Hi-Tech, Multi component and Insert Injection Molding
- Latest automation technology
- Assembly and secondary operations
- In-house Tool shop

Transparent architecture
supports process efficiency

Global Supply – Europe

European HQ and Plant Locations

MID-Tronic Wiesauplast - Location

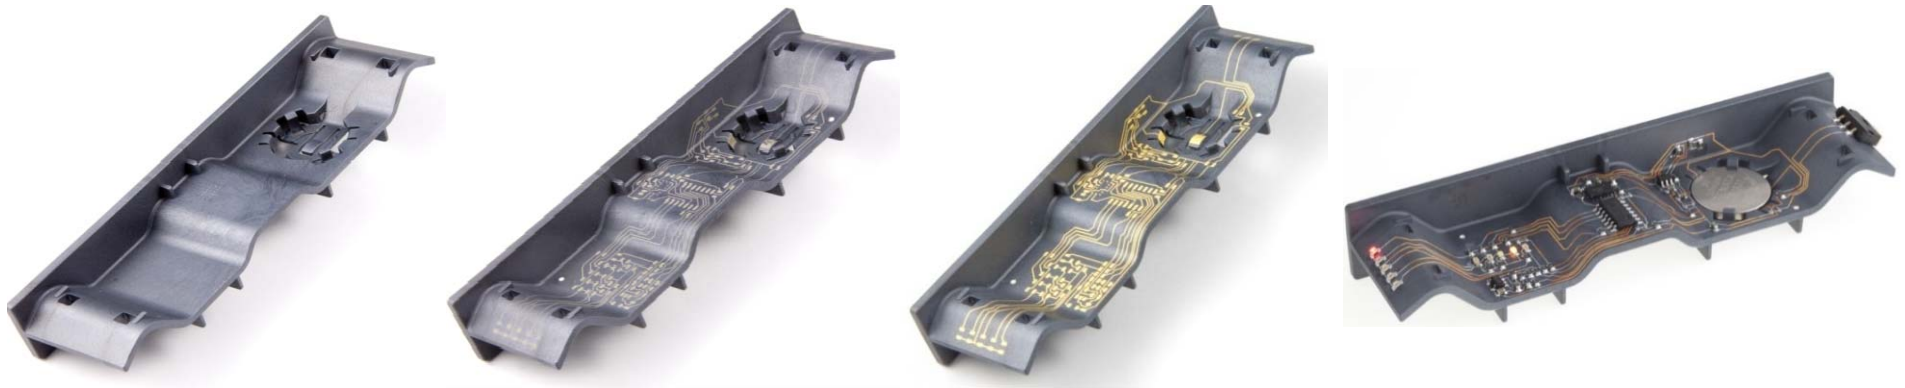

Global Supply – Europe

MID-TRONIC integrates plastics and electronics:

Target of MID-Tronic is to develop 3D solutions for electronic applications, typically based on plastic parts.

„**Plastic** meets **Electronics**“

Wiesauplast de Mexico

Founded

2007

Production space

6,800m²

Location

San Jose Iturbide Parque Opcion

Guanajuato / Mexico

100 % Wiesauplast production plant

Employees

250

General Manager

Michael Dörrbecker

Global Supply - Mexico

Range of activities - Wiesauplast de México S.A. de C.V.

- High-quality injection molding in accordance with the general Wiesauplast standards (29 injection machines in the range of 40-400 tons, including two with 2K capabilities)
- 5 welding devices (Bielomatik) and, 10 testing devices (Innomatec)
- Engineering support Wiesauplast – Germany
- Wiesauplast de México is certified in accordance with IATF6949 and ISO9001/14001

Global Supply

WIMX: Guanajuato, Mexico

- New world-class facility
- Hyper-precision processing
- Injection & insert molding
- Automated production
- Complete assembly & secondary operations

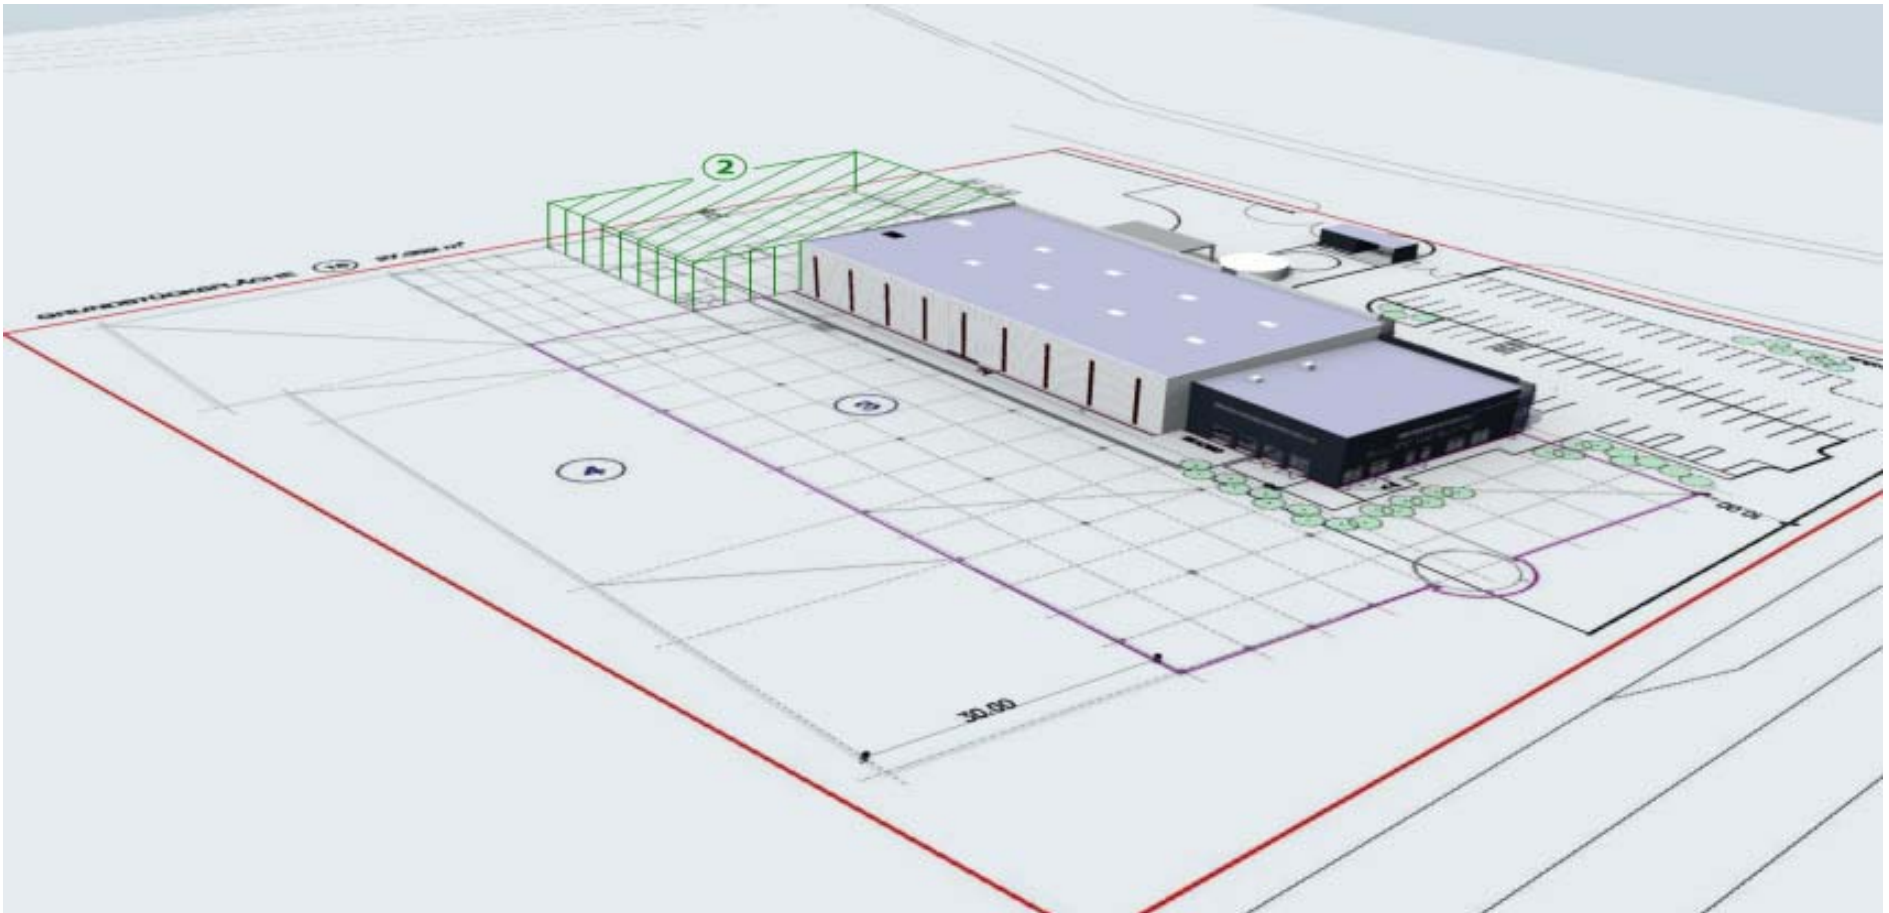

WIMX: Guanajuato - Mexico

- Mold maintenance and repair
- Mold making know how (Specialized training in HQ Wiesau, Germany)
- 2 CNC Machine (3 & 5 axis)
- 1 Wire cutting EDM machine
- 1 Die sinker EDM machine
- 2 Laser welding machine
- 2 Grinding machines
- 2 Milling machine
- 1 Lathe machine

Global Supply – Mexico
