## Who we are?

**Company:** Balam Technologies

**Headquarters:** Parque Zoquipan 41, Jardines del Alba, Cuautitlán Izcalli

**US address:** 1309 Coffeen Avenue STE 1200, Sheridan, WY 82801

**Contact mail:** [contact@balamtch.com](mailto:contact@balamtch.com)

**Phone MEX:** +52(55)4990-5263

**Phone US:** +1(248)870-8164

## Core Values

- ➡ Collaboration & teamwork
- ➡ Accountability
- ➡ Innovation
- ➡ Sustainability
- ➡ Customer commitment
- ➡ Persistence & passion

## Company Strategy

### Mission statement

With our team, we develop and advance cutting edge technologies for high-value industries. By working together, we embrace all of our differences and go further with customers, employees, and partners.

### Vision statement

Before 2025, we plan to do business internationally. Creativity and innovation will enable us to move forward. By creating and improving our technological solutions, we will improve our social environment.

SINERGY AND INNOVATION

### Robotics

Our company works with robotic systems for industrial applications. Its main advantage is the focus on quality and flexibility in the manufacturing process. We specialize in material handling and picking. We provide commissioning and technical support.

- PLC and robot programming
- On-site commissioning
- Technical Support

### Control Panels

Our experience allows us to design, manufacture, and commission custom control panels. We offer state-of-the-art technology solutions. No matter what your needs are, we can find the right solution for you. With our vast experience, we have worked on customized and standard machines for a variety of applications.

- Engineering and Design
- Manufacturing and Overhaul
- PLC/Robot programming
- Project Management
- Commissioning and technical support
- Corrective and preventive maintenance

### Internet of things

The more you know, the better your decisions will be. Therefore, we provide Internet of Things solutions to make your job easier. We provide cloud-based solutions and smart tag hardware for monitoring equipment, raw materials, and final products throughout your supply chain.

- Cloud-based platform
- Hardware supply
- Commissioning and technical support

SINERGY AND INNOVATION

Date	Company or Holding	Projects or services
2011-2015	Organización Editorial Mexicana	Design, manufactured, and put into service more than dozen newspaper machine.
2013-2020	Nacional Monte de Piedad	A completely automated warehouse for storage and retrieval, handling more than 500,000 items and 3,200 operations per shift. We provide project management, integration, commissioning, manufacturing, and maintenance for control panels and robotics stations.
2014-2016	Instituto Tecnológico de Monterrey	PLC, HMI, and industrial network training for postgraduate students with Rockwell Automation.
2016	Kelloggs	Integration of safety-related automated systems.
2018	Mazda	Control motion products supplier.
2018-2020	Ingersoll Rand	Design, manufacture, and commission control panels for custom machines in the oil and gas industry.
2017-Present	Formex	Engineers with expertise in automation and control systems integration.
2016-Present	Sonoco Products Company	Engineers with expertise in automation and control systems integration. Our services include on-site support. PLC/robot programming, and control panel maintenance. Support for three sites in Mexico.
2012-Present	Grupo Bimbo	Engineers with expertise in automation and control systems integration. Our services include on-site support. PLC/robot programming, and control panel maintenance. Support for more than eight sites in Mexico.
2020- Present	Variation Reduction Solutions	Support for the commissioning of vision-guided robotics systems. Support is provided by us for GM, Ford, Stellantis, and BMW in Mexico and the US.
