

System Integrators

“To **Impact** people’s lives creating
automation solutions.”

Common Problems in the Industry

Need to implement automatic controls to manual machinery or with obsolete controls

Lack of specialized technicians/engineers

Support for assembly of electrical and control panels

Lack of trained staff

Lack of spare parts and long delivery times

Our Solution

Integration,
programming and
installation of
control
equipments

Sale of Electrical /
Electronic parts
from leading
brands

Highly
trained staff

Technical
training
courses

¿What we do?

Integration, programing, installation, start up and sales of Automation and control equipment's for the industry.

Option to
Integrate your
Machinery to
Industry 4.0

Option to
Train Your
Staff

Benefits

Optimization of
your machinery,
process and
production

Decrease on
Costs,
Maintenance
Times and Storage
