DB Schenker capabilities in Mexico

Exporting from Mexico

Export Services

DB Schenker Mexico provides comprehensive international air, ocean and multi-modal forwarding services to meet the different transit-time, cost and service requirements of our customers. Airfreight shipments can be expedited to worldwide destinations on a direct airline basis or as part of our regular consolidations. Both LCL and FCL services are available for ocean shipments on a wide choice of conference and non-conference carriers. We serve many of the world's leading companies in the Automotive, Aerospace & Defense, Consumer, Hi-Tech, Fashion & Retail, Healthcare & Pharma, Industrial and other major industrial categories.

All of the above and more can be handled online by using connect 4.0, our web-based shipping platform that offers fast air or ocean quotes with the ability to book a shipment with

24 /7 real-time visibility – from pickup to delivery. Shipping via air or ocean has never been easier, faster or more economical than before when using connect 4.0.

Export Documentation Requirements

DB Schenker will assist you where permitted by law in the preparation of all documents to speedily and effectively move your shipments. We maintain one of the highest number of Licensed Customs Brokers in our industry, as well as a staff of highly qualified Entry Technician Specialists throughout Mexico as well as our offices worldwide. At your request, Customs clearance, including pre-clearance, may be available both at origin and destination. By the time shipments arrive in many countries, they are already pre-cleared.

Importing to Mexico

Import Services

DB Schenker can handle all import procedures in Mexico, including Customs clearance for air and ocean freight.

We can assist with Customs clearance procedures and operate regular consolidations to and from major cities worldwide.

We also offer airfreight service between the port of entry and other major airport destinations in Mexico once the shipment has been cleared by Customs.

Our import process is highly automated with documentation transferred to brokers immediately upon availability.

Shipments are tracked online giving advance warning of

their imminent arrival. A variety of management reports are available upon request.

Import Documentation Requirements

We will expedite imports into the country by ensuring that correct documentation accompanies each shipment. We need the following documentation to ensure speedy customs clearance: Commercial Invoice, Packing List, Certificate of Origin, Import Permit (from consignee for shipments.)

Note: For shipments to Mexico, it is recommended that a Spanish translation of all documents, including the labels, accompany the shipment.

Other Services

DB Schenker Mexico can serve as a critical link in meeting your maquiladora operations transportation logistics needs. We provide daily overnight service between the Mexico, Canada, and the following Mexico border cities:

- Arizona: Nogales and Douglas
- California: San Diego (San Ysidro and Otay Mesa), Calexico

- Texas: San Antonio, Brownsville, Del Rio, El Paso, Eagle Pass, Laredo, McAllen

From these Mexico and Canada points, we can expedite your shipments to/from your maquiladora operations Mexico or Canada-based facility, or your preferred Mexico/Canada-based Customs broker.
