

COMPANY LINE CARD

About us

We Facilitate Innovation Solutions

- We at SMTVYS born out of the need for support and value for the manufacturing industry back in 2014. Our leading professional group offers solutions for manufacturing industry with the objective of reduce the operation cost, increase profitability by reducing the waste and increase the productivity.

Our products and services

- SMT Solution.
- Inspection Solution.
- Dispensing Solution.
- De-Paneling.
- ESD.
- Process Devices.
- Robots
- Programming solution.
- Test solution
- Wave solder solution.
- BGA Rework
- Cleaning.
- Storage
- Spare parts
- Custom solutions
- Service, support and training.

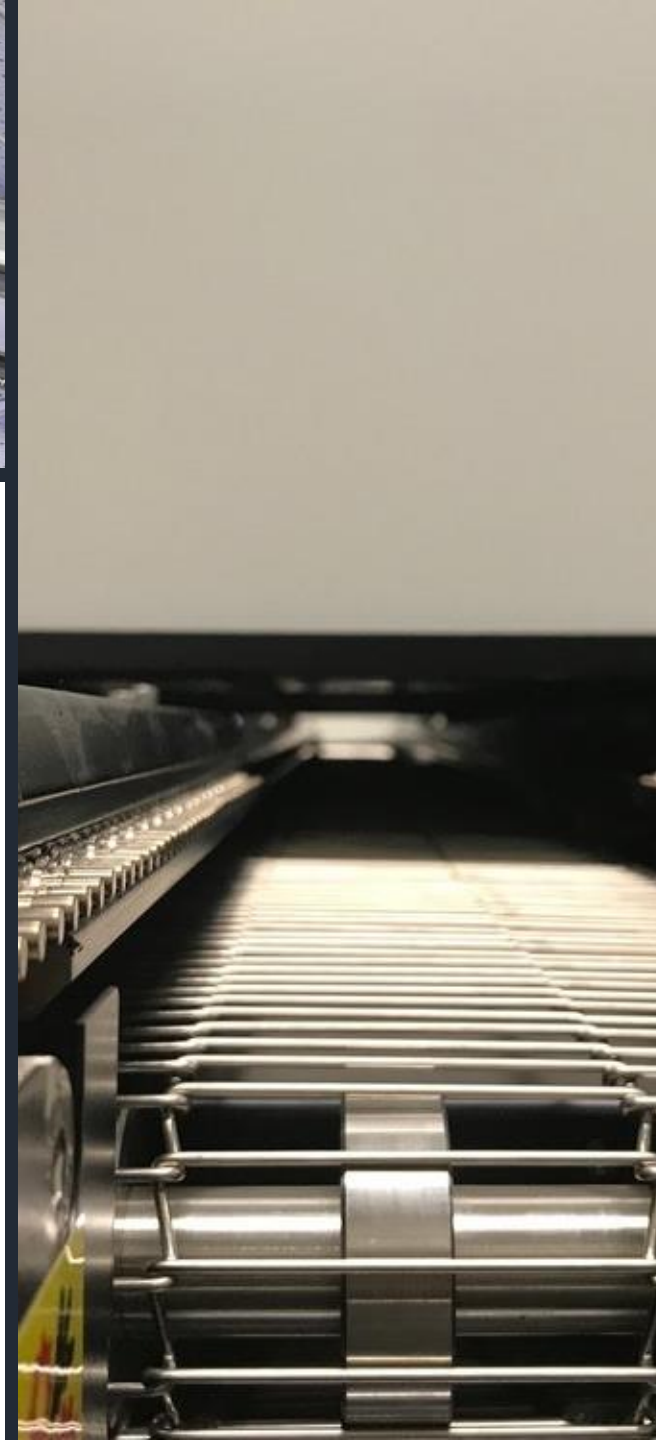

SMT Solution

- Hanwha SMT line, provide all you need for SMT assembly, with the lowest cost of maintenance of the industry and high reliable systems, all the challenges are made easy with Hanwha solution.

SMT Solution

- Heller Reflow oven Technology, has been on the field for long time, the brand global recognition and the quality of the products made the brand one of the most used on the market.

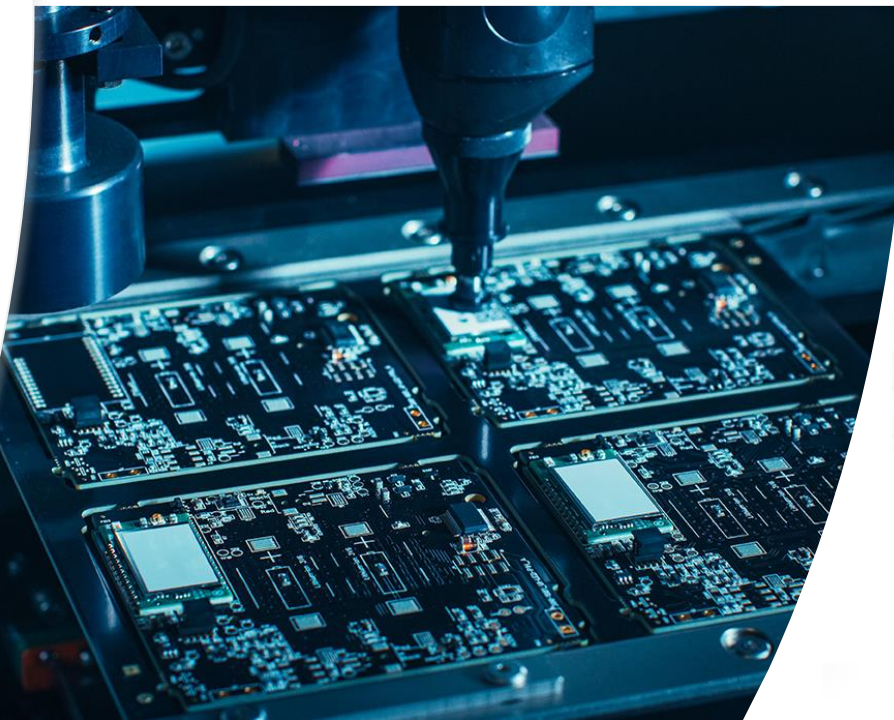

SMT Solution

- Our solution in conveyor system, has been growing, our team is one of the most experts on the field, our team can customize any project and we offer the Made in China, Made in Mexico or Made in USA solution

Inspection Solution

- ACS International offer a confinable 3D SPI and AOI on a bench top mode, this equipment have the same option than any in line equipment can offer but is good for a small medium volume companies.

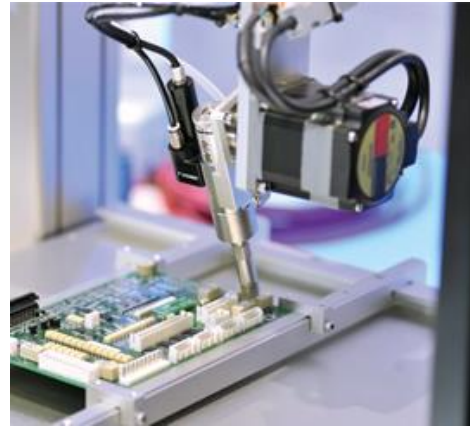

Inspection Solution

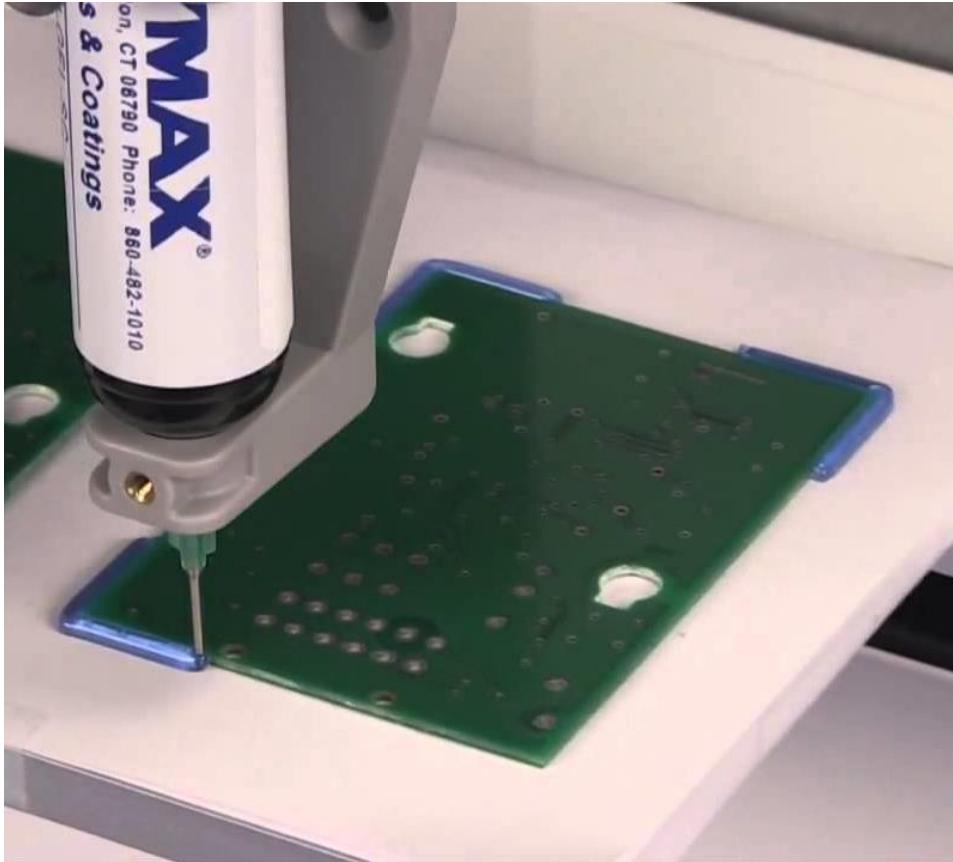

- OMRON is a world leader in innovation on in line inspection systems, with 30 years of experience on the market, new IA software, new pattern for inspection systems and the most accurate machines OMRON bring to the industry reliability.

Dispensing solution

 **SAN-EI TECH**
SMART DISPENSING TECHNOLOGY

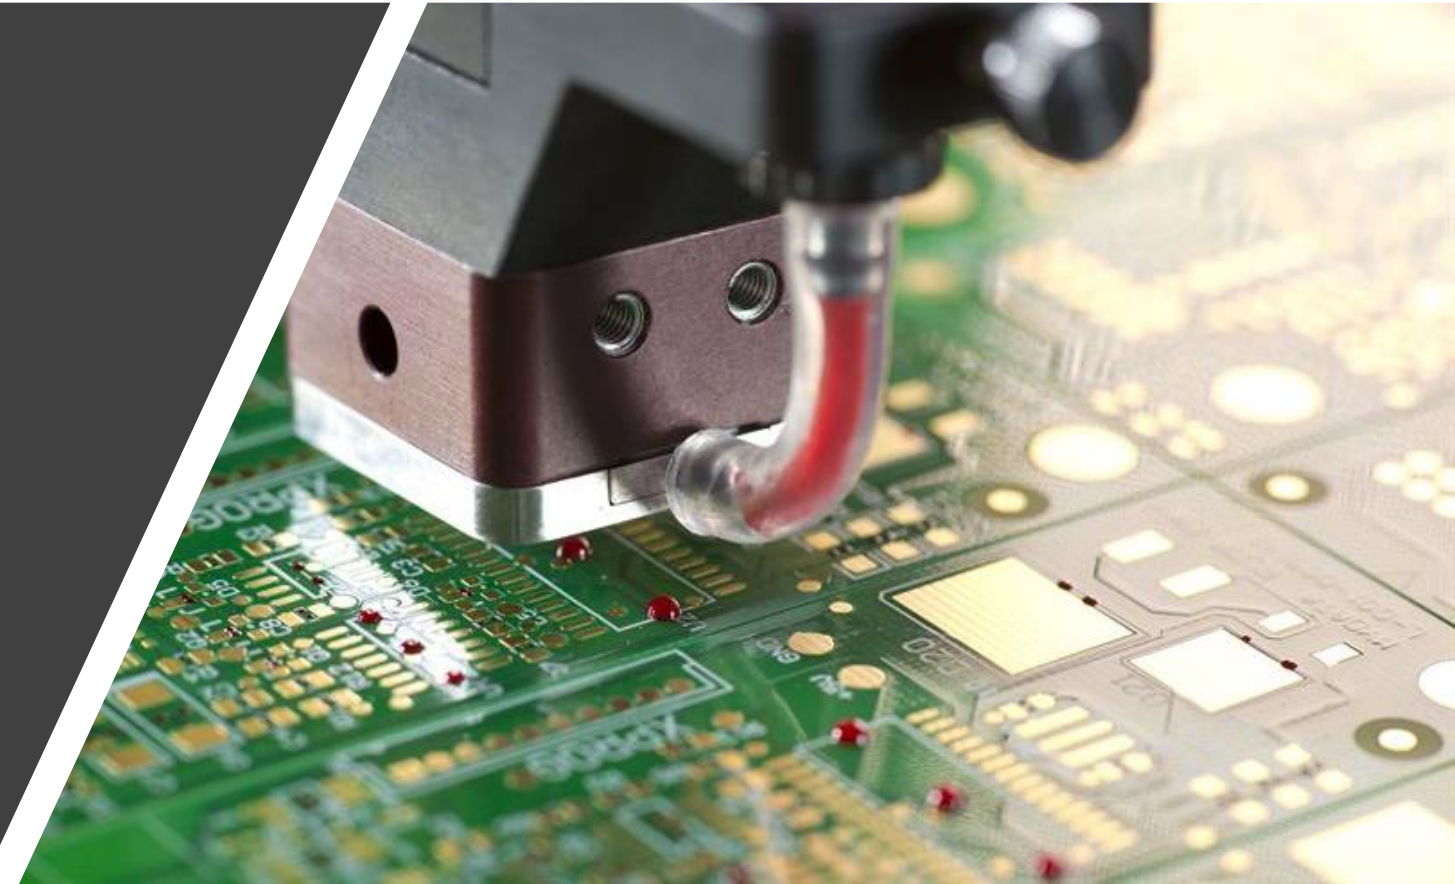

- SMTVYS LLC have a lot of experience in dispensing solutions one of the biggest challenges now is a reliable bench top solution, now with our partner SAN EI from Japan we can provide any application solution.

Dispensing Solution

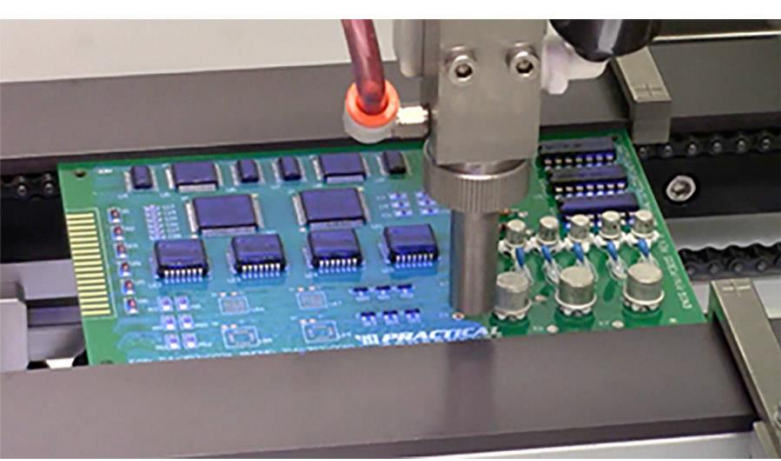

- Our solution is a very reliable system on in line dispensing, with a great variety of applications on jet and any glue dispensing, we can offer flexibility and customization for any application.

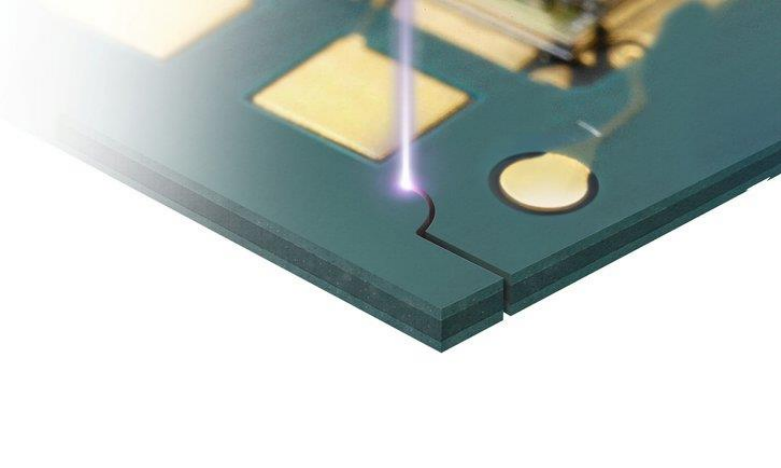

Dispensing Solution

- Our Conformal coating solution, is a very stable equipment as well supported by our applications engineers than have a lot of experience on this process and can develop any application for our customers.

DE-Paneling Solution

- Our solution is a reliable systems than allows your de paneling process to run smooth and nice with out a troubles, from manually, router and laser solution

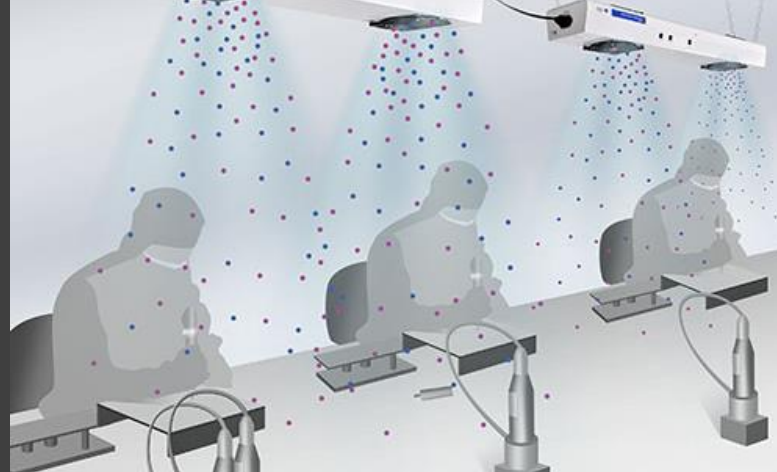

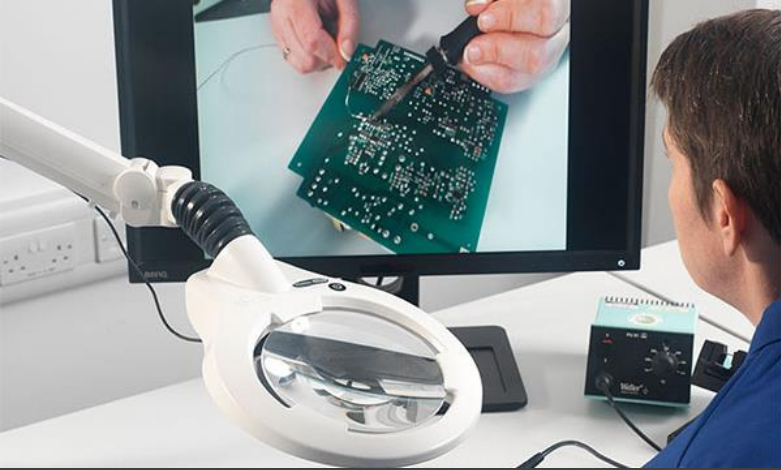

ESD Solution

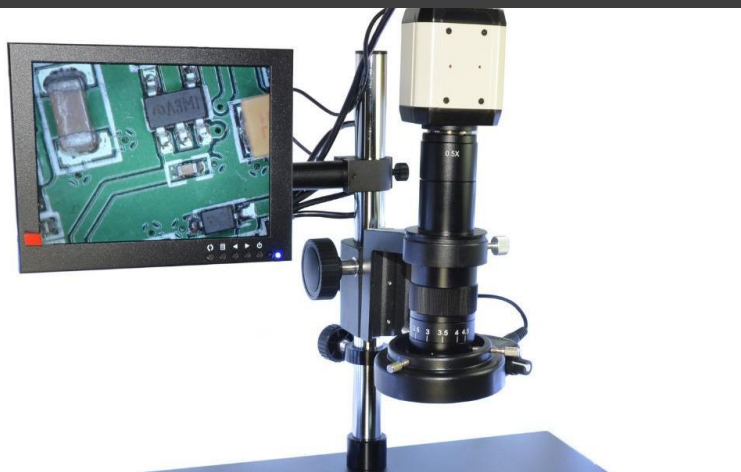

- SMTVYS have a large solutions for your ESD needs, this devices can be use on a great verity of applications and our expert's team can help you decide what is the best choose for you.

Process devices

SMTVYS offer a great verity of process devices than make your production easier.

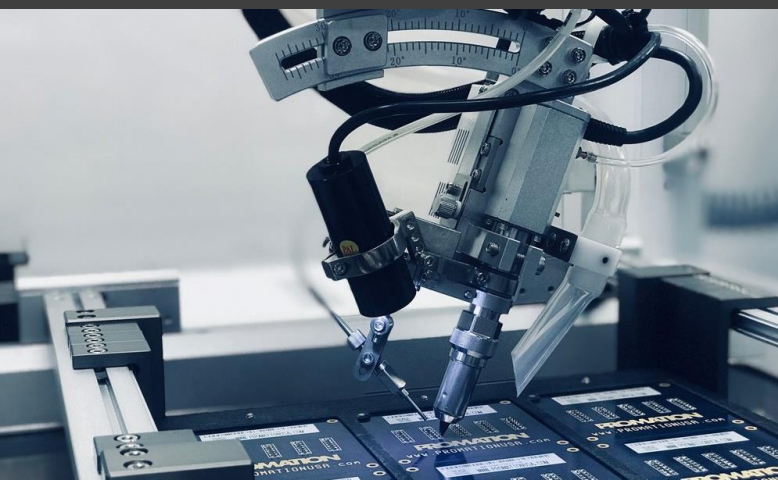

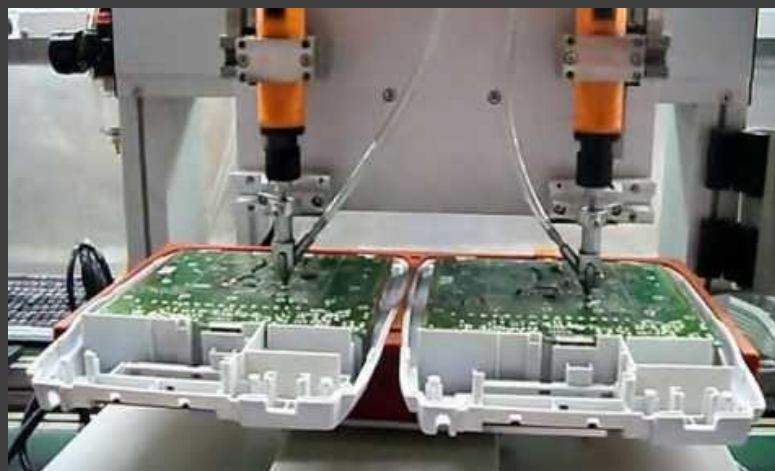

Process devices

- SMTVYS offer a great verity of process devices than make your production easier.

Robots

- Or Robots systems can do automate many application, from soldering, moving, cobot and screw driving, our systems can deliver process stability, velocity and repeatability.

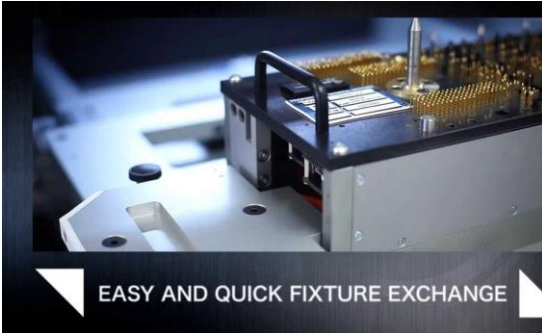

Programming solutions

- Our partner of Dedi Prog offer a state of the art manually and automatic programming systems, with the faster programming speed and the flexibility of program high and low density in a single device.

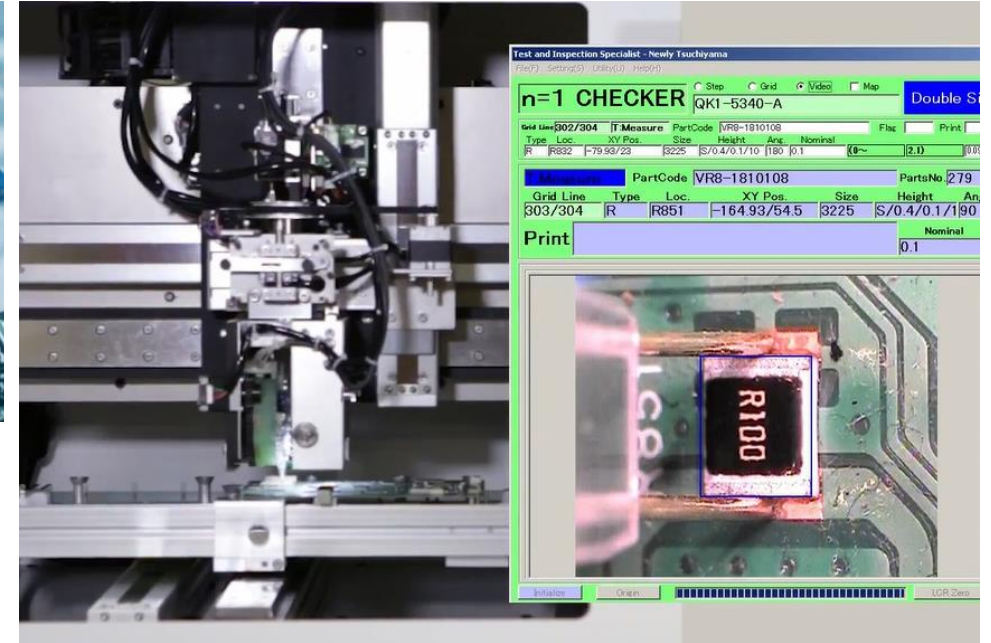

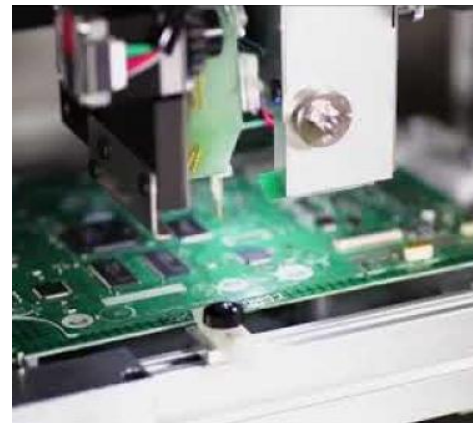

Test solutions

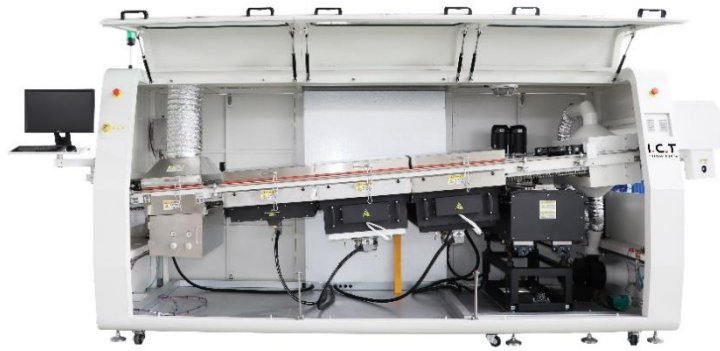

- SMTVYS in partners with checksum, offer a test solution, a reliable system than can build based on your requirements.

CHECKSUM

Inspection Solution

- N1= checker FAI (First Article inspection), is a equipment build to reduce the error on first runs and help speed up the NPI inspection.

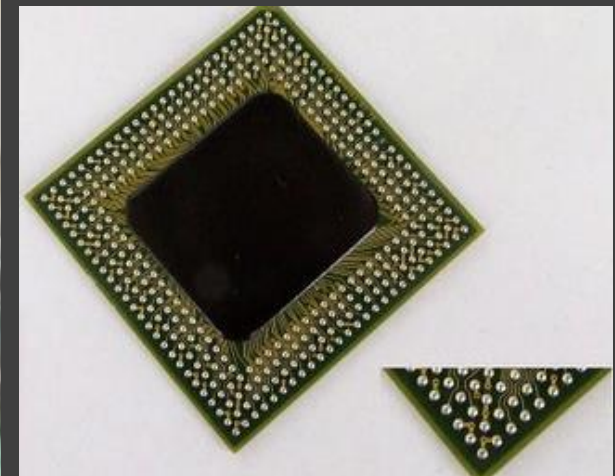

Wave solder solution

- SMTVYS wave solder solution offer a stable system ready for you production need from low-Medium – high volume production, our systems are ready for you.

BGA rework solution

Our partner of DEN ON have a worldwide solution on BGA Rework.

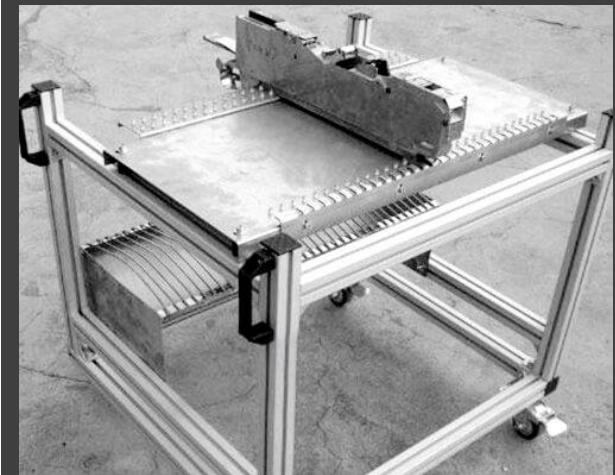

Cleaning Solution

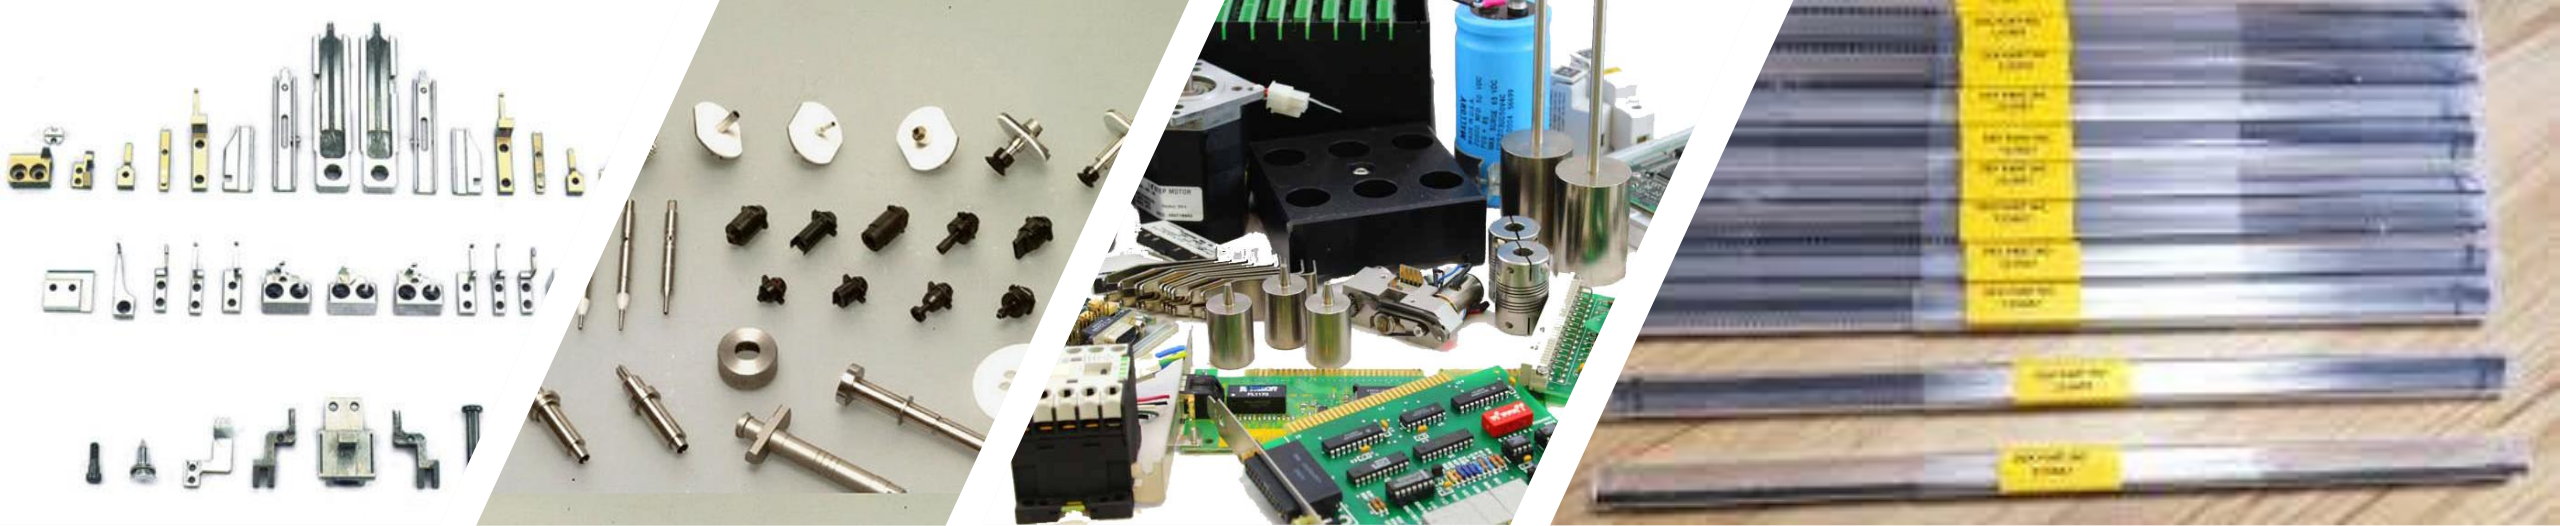

- Our cleaning solution offer a wide application, from PCB to metallic parts, our solution include ultrasonics as well spray and combination of technologies.

Storage solution

SMTVYS offer a storage solution for SMT reels, for vacuum, feeders or other devices.

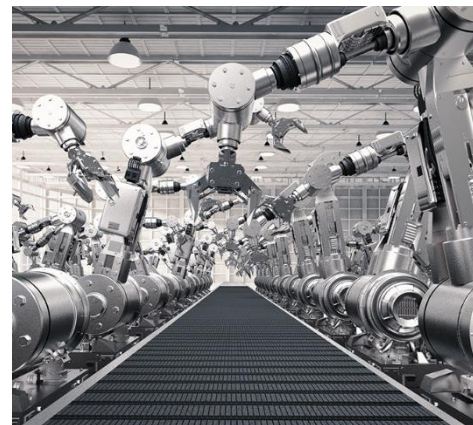

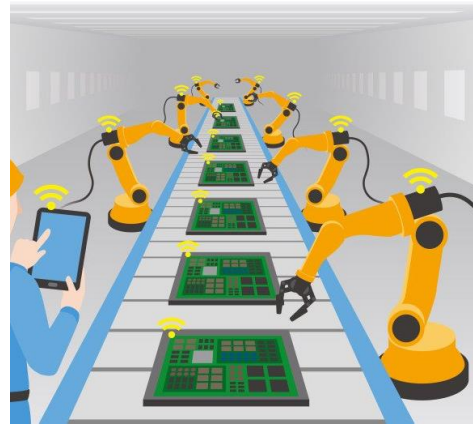

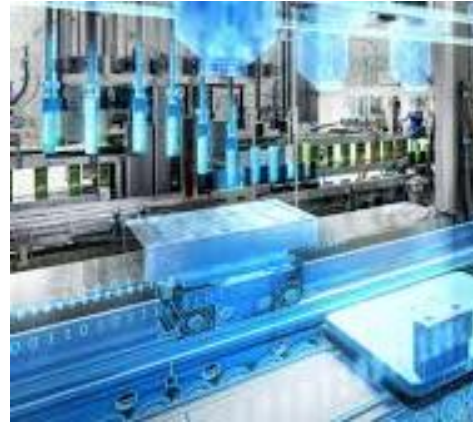

Spare parts

- Our team stock a large parts inventory in order to provide faster solution to the industry and help with you down time

Custom solutions

- Our group of Automation can help develop your dreams, help reduce waste or increase production, using the latest technology and with the experience of our team on process, SMTVYS can deliver a unique solution for a unique application.

Service, support and training

- Our organization SMTVYS have a large group of expert on the team, all this knowledge is available to help you. Our team strong background on fail analysis and process improvement archive many success, all this service has bee putting together for our customers.
