SUB-SECTOR SERVICES

We offer solutions for all sub-sectors of the automobility market to achieve seamless delivery of auto parts and finished goods in a timely manner avoiding the posing threat of costly downtime and delays in new product launches to the market.

EP AutoMobility

One-stop shop for the automobility industry

Technology

We provide digital account management through our customer portal, in constant development and optimization in line with your requirements and KPIs.

Global account management

Our 76 own offices in 20 countries enable us to offer immediate attention with local resources, whether for programmed or spot purchase orders. We aim to standardize processes whilst maintaining services agile for the time critical nature of our business.

Compliance

Our procedures, annual audits and certifications assist in mitigating risk. We understand that complying with industry standards –from internal administration to cargo handling, with experts on HAZMAT in conventional or electric vehicles– not only supports our operations but builds confidence.

Focus

The automotive sector is a top priority within our business. Our team of experts are continuously updated on vanguard logistics solutions as well as market developments, working from pre series projects to the SOP stage of production. We transport prototypes of auto parts as well as finished vehicles within the value chain.

Delivering outstanding care

Tens of thousands of components - big and small - go into the marvel that is an automobile. To ensure that all your components move like clockwork, you need a logistics partner offering which gives you utmost control, reliability and transparency. From end to end, our AutoMobility logistics solutions are designed to give you just that.
