A perfect combination of experience and forward thinking, we develop innovative and cost-saving solutions to solve your company's supply chain challenges and needs.

Experienced in managing ground, air and ocean logistics needs. Able to apply personalized service on each shipment. Specialized personnel focused on having better control to avoid time loss.

As a full-spectrum logistics company, we offer world class expertise, supported by industry-leading technology, innovative processes and a committed team of professionals.

Express Delivery Service

A key factor that our company offers, is the ability to provide different types of ground transportation i.e.: Small Package, LTL, LTL guarantee, in transit shipment rescue, FTL, Intermodal, milk run, consolidation strategic point and hotshot services.

The ability to consolidate shipments at our Livonia MI/ El Paso TX/ Bradford ON CA facilities, tenders an advantage that no other competition can do by offering a complete repertoire of ground services. Avoid same day multiple pickups, optimized load factor by combining multiple customers shipments.
