

BENAGUI

BROCHURE

Who we are ?

- We are a 100% company , based on Leon Guanajuato, started operations on April 2016, with the strong idea of innovate and offer to our clients products and services which sum value to their products always through the concept “quality from the origin”.
- We have people with more than 10 years of experience in the automotive industry, massive production and personal hygiene, Manufacturing of white goods, automation and building processes.
- Such thing has allowed to BENAGUI integrate a Multi-Task Team in different areas granting an extra value and an exceptional touch in each of the developed works.
- Every year all the associates develop a strategic annual plan and announce to all the members of **BENAGUI** the new challenges that are coming, with the only goal of set up an empowerment in each of them, and in that way achieve **the continuous improvement in our processes and our products.**

Our Philosophy

MISSION

- We are an engineering company specialized on improvement integration projects, committed along with our work force to satisfy the requirements of our customers through an approach of quality from the origin.

VISION

- To be a national reference as an Engineering company specialized on integration projects, to keep the recognition of our customers and business partners to improve our processes and our products, to upgrade the economic development and the work force grounded to the optimization of resources and training.

QUALITY POLICY

- To work focused on the quality from the origin of the product and service, determined to accomplish the expectations of our customers, always through the catchword “do not generate, do not produce and do not send scrap”.

We Offer:

Process of: Laser cutting, Welding, Router cutting, Conventional and CNC Machining, Automation, Industrial Maintenance.

Writing warranty of the product or service.

Attributes:

Technical assistance to our customers with qualified experts in many areas in order to sum to our products and services: Engineering & Design, Sales, Production Engineering, Control Engineering and automation.

Our support areas: Human resources, finance and accounting.

2 Facilities strategically located in León Guanajuato 650 m2 & at Pozos Guanajuato (10 min from Celaya) 500m2.

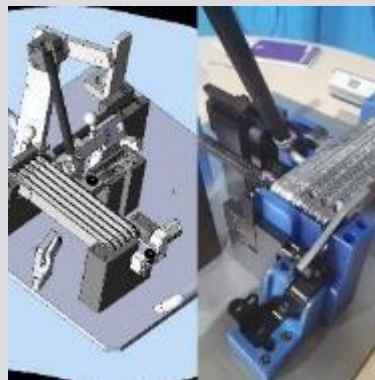

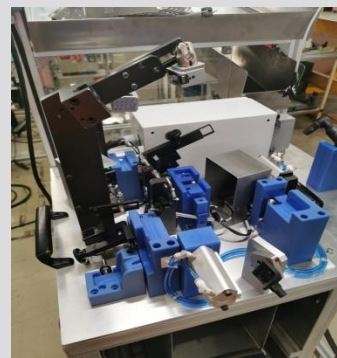

MACHINING DIVISION:

**-Conventional:
4 Lathes & 6 Milling machines.
Flat Rectifier**

**-CNC
1 Vertical Machining Center Hass
VF3, 1 Lathe CNC Hitachi seiki
1 Lathe CNC Euromachines W**

**We have wide experience machining Jigs / Fixtures /
handtools / High technical Spares/ Precision pieces
We work with carbon steels/ Machining grade steels /
Stainless Steel / Engineering plastics
/ Aluminum / Brass / Bronze / Bakelite / Celeron
among others.
* We are bluing service.**

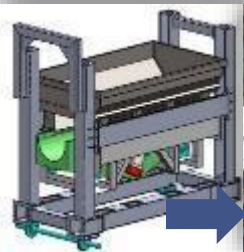

INDUSTRIAL BLACKSMITHING:

Services of cutting by Plasma / Laser / Router / Oxifuel
Welding by Electric arc / MIG / TIG

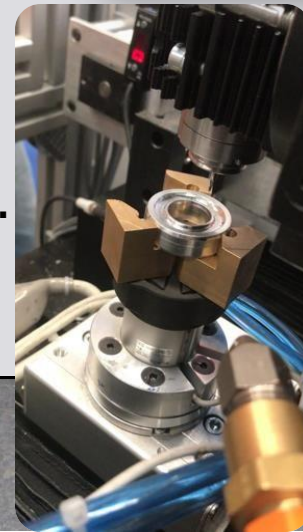

Qualified experts with DC3 to make works.

- Cutting welding
- Work at heights
- We have experience on making metal structures / Conveyors / Racks / working tables/ high tanks / Tubs / Hooper / Ducts reparation / Ducts Fabrication/ Mezzanines / Building and reparation of roofs to industrial buildings / Industrial Blacksmithing in general / Building with aluminum Bosch profiles. We work with Carbon steels / Stainless Steel / Aluminum / Polycarbonate.

AUTOMATION AND INTEGRATION:

- Design, Development & Automation of machinery and whole production lines (Mechanical components/ pneumatics/electrics)
- Concurrent engineering on Design, building, programming and integration of special machinery and poka-yokes.
- Building and fixing of control panels, pneumatic and power boards.
- Experts on vision systems.(Keyence, Balluf, Cognex)
- Programming & integration of HMI, PLC, Drives.
- (PROFINET, ETHERNET,ETHERCAT, PROFIBUS, IP)
- Analysis and development of improvement on automatic and manual processes.
- Programming & integration of Yaskawa, UR, EPSON and FANUC Robots.

INDUSTRIAL MAINTENANCE:
