

MANKIEWICZ
Coating concepts of the future

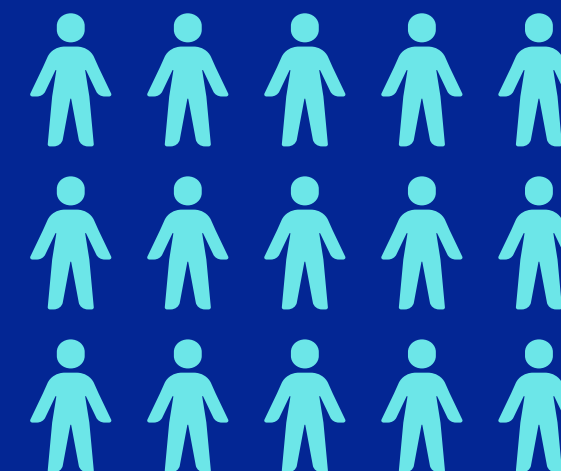

About Mankiewicz México

+125

Years of **innovation**

Have resulted in high- quality coating systems
for industrial series production

+2,500

Employees / **Our people**

Responsible for creating products that protect, enhance or
add functionality to consumer and capital goods over the
long term.

Tailor-Made Coating Solutions

v

Our products are tailored to the individual requirements of our customers. Our broad expertise in a wide variety of markets and application areas leads to constant know-how transfer and corresponding synergies

Aviation

Performance at the highest level

Weight, safety, resistance to stress.

You can see our products in:

Our solutions

Broad expertise, many years of experience.

Excellent knowledge of raw material properties and their use in solving complicated tasks – this enables our experts to meet customer-specific bases on a daily basis.

The optimal coating result depends on many factors – together we will find your solution

Focus on customer processes

Our solutions for your objectives

Industry-specific solutions

Efficient
processes

High performance
products

Complete
service

Sustainable
implementation

Our Services

Our service for excellent surfaces

Makiewicz México offers a uniquely broad range of services that provide our costumers with decisive advantages

Colorimetry

Precise data, individual support

Benchmark

Exact master samples as
reference for your suppliers

Adjustments

To existing color shades,
standards or individual samples

New development

Exclusive shades according to
individual requirements

Support

State-of-the-art technology and
many years of know-how

InnoZentrum

Best metallic color
matchers of the corporation

Our colorist team counts with a +36
year experience in the industry

Fastest response and support
in the region

Research and Development

Innovative and individual perfect fit

Innovations
for products with added
value

Modifications
for individual requirements

Knowledge transfer
for international know-how

Automation
for fast reaction times

InnoZentrum

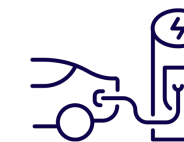

Sustainability

Advanced technology compatible

Antifinger print

Electric cars

Testing Center

Proven and tested

Reliability

Accreditations and certified processes according to OEM and third-party specifications

Know-how

Support in creating or revising individual specifications

Added value

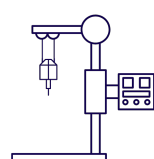

Advanced testing methods
For highest product performance and quality assurance

Partnerships

With external testing laboratories worldwide for constant exchange of knowledge

InnoZentrum

We count with unique technology to exceed performance expectations

+90

OEM'S Automotrices

+2

OEM's Appliances

Instaled Capacity

Technical Service

Global technical consulting, application training and support

Simulation and optimization

of coating processes according to individual customer requirements

Application testing & training

Support in creating or revising individual specifications

Global service & support

Advanced testing methods for highest product performance and quality assurance

Our team

Our technical service team counts with a +30 year experience in coating applying

Quick answers and immediate response to your needs

Mechanical , efficiency and continuous improvement assessment.

Nation Wide Service

Production

Continuous quality, reliable and fast

Global infrastructure

Worldwide production sites for fast and flexible supply

Highest standards

Regularly certified and permanently controlled

High-tech

Modern technology, efficient processes

Our process

Nearshoring
We produce in México

Strong supply chain management
Cost-effective solutions

Leading-edge- sustainable
technology

Logistics

Right on time, consistent logistics

On-site logistics centers

Short distances between production and logistic hubs

Quality and flexibility

Highly experienced inhouse logistics teams ensure a smooth supply chain

Established processes

Approved for all import & export interfaces

On-time availability

Fast product availability through efficient material planning

Strong Supply Chain Management

+32

Distribution centers nation wide
Nearer and faster

Specialized Foreign Trade talent
managing the product journey to your door

Strategic Partnerships
Guaranteed continuous supply

Supply Chain based
ISO 9001:2015 Certification

Our SUCCESS factor:

Focus • Fast • Flexible • Fun • Friendly

Our people

We count with the most talented, innovative, design thinking and problem solving team who will turn your most advanced service and product needs into feasible solutions.

How can we support you?
