

HARRINGTON INDUSTRIES (THAILAND) Co., LTD

TRUSTED FOR 100 YEARS – FOUNDED 1919

COMPANY PROFILE

www.harringtonindustries.com.au

QUALITY METAL PRESSED PRODUCTS SINCE 1919

- WORLD-CLASS MANUFACTURER OF DEEP DRAWN
METAL STAMPINGS & ROBOT WELDED
ASSEMBLIES

TRUSTED FOR 100 YEARS – FOUNDED 1919

H HARRINGTON INDUSTRIES
HARRINGTON INDUSTRIES (THAILAND) CO., LTD

HARRINGTON INDUSTRIES (THAILAND) CO., LTD.

Providing Quality Metal Stamping in Thailand

From our location in Hemaraj Eastern Seaboard Industrial Estate, we can provide our metal pressing and assembly expertise to many large automotive OEM companies, parts and components manufacturers.

With our cutting-edge equipment and highly skilled staff, we provide our clients with three main manufacturing capabilities:

- Metal stamping
- Resistance and robot welding
- Engineering support

TRUSTED FOR 100 YEARS – FOUNDED 1919

H HARRINGTON INDUSTRIES
HARRINGTON INDUSTRIES (THAILAND) CO., LTD

VISION

To be a profitable and diverse business ensuring steady growth into the future.

MISSION

To provide complete metal pressing solutions within a competitive global market.

HISTORY

1919 - 1920

- Founded in 1919 as a family company, in the suburbs of Sydney, Australia
- Harrington Industries initially manufactured agricultural products before diversifying into automotive, medical and mining fields

1920 - 1940

Metal Motor Body Fittings in the One Piece
Important Development in the Production of Stampings of Magnitude. — Enterprise of G. A. & L. Harrington, Ltd., Camperdown, N.S.W.
(By W. Austin Wilson)

- Harrington Industries manufactured Australia's first single-stamped car door
- Harrington Industries has shown innovative advances in metal stamping over many years

1998 - 2004

- Harrington Industries was selected as the lead team to manufacture the Sydney Olympic Torches and Torches for other Olympic events
- The Olympic torch received an Australian Design Award for engineering excellence and an Australian Design Award for Industrial Design

2012 - Now

- Harrington Industries (Thailand) opened, expanding the business globally
- Parts manufactured for automotive and medical sectors

COMPANY OVERVIEW

Sales Breakdown

- ❖ Established in 1919
- ❖ Group Sales of Over 30 Million USD
- ❖ Over 100 employees
- ❖ Parts manufactured for ResMed, Bridgestone, Toyota, Isuzu and Ford projects

TRUSTED FOR 100 YEARS – FOUNDED 1919

OUR PRODUCTS

Harrington Industries can provide our metal pressing and assembly expertise to many automotive and medical part components such as:

Typical Automotive Products include:

- Engine Mount Components
- Car Brake Components
- Car Chassis Components
- Transmission Components
- Electric Vehicles, EV Components
- Exhaust Products

Medical Products;

- Ventilator / CPAP Components

TRUSTED FOR 100 YEARS – FOUNDED 1919

OUR PRODUCTS

➤ ENGINE MOUNT

Engine Mount Part Components

Back Door Part Components

OUR CAPABILITIES

Harrington Industries has a wide range of metal pressing and steel, aluminium and stainless steel stamping equipment to perform tasks such as, deep drawing and metal forming.

With three robot GMAW (MIG) welders in automated welding cells, Harrington's have the capability to weld at high production rates efficiently and accurately. With the use of special purpose pneumatic weld jigs, lower costs are achieved and also have the capacity to spot weld assemblies and projection weld up to 250 kVa.

We have a dedicated and talented team of engineers who support our manufacturing facility and our toolroom with their in-depth knowledge of steel stamping and metal pressing.

Our engineers can provide customers with invaluable advice on how to manufacture the components necessary for their designs and collaborate with our customers' own teams of engineers.

H HARRINGTON INDUSTRIES
HARRINGTON INDUSTRIES (THAILAND) CO., LTD

OUR CAPABILITIES

➤ Presses and metal stamping

We have the most advanced metal stamping technology that can meet the needs of almost any project. Whether your project requires deep drawing or metal forming, our state-of-the-art facility is up to the job.

Stamping Machinery;

- Seyi Transfer press line – 7 x 250 ton presses
- 3 x Seyi Single press – 600 ton
- Seyi Single press – 400 ton
- Seyi Single press – 300 ton
- Chin Fong Single press – 300 ton
- Chin Fong Transfer press – 160 ton
- Aida Single press – 200 ton

OUR CAPABILITIES

➤ ROBOTIC WELDING AND ASSEMBLIES

- At Harrington Industries, we utilise three automated robotic welding cells. These automated cells make short work of even the most demanding steel stamping assembly projects.
- Robotic welding offers an unmatched level of accuracy, efficiency and quality. If your project involves the performance of repetitive, specific tasks, automated welding is the perfect process.

OUR QUALITY

We have a dedicated Quality Team with a Zero Defect mentality to ensure your project runs smoothly from the technical review and APQP stages and throughout the life of the product. The Quality Laboratory includes equipment such as a Carl Zeiss CMM, microscope with camera, laser measurement fixtures along with general measuring equipment. We also offer bespoke gauging solutions such as hard gauging.
