SOLUTIONS

CORE INDUSTRIES

A close-up view of a robotic arm in an automotive assembly line, with various mechanical components and wiring visible.

AUTOMOTIVE

A tall, orange metal lattice tower with several large, white satellite dishes mounted on it, set against a clear sky.

TELECOM

A female scientist in a white lab coat and safety glasses, wearing blue gloves and using a pipette to transfer liquid into small vials in a laboratory setting.

MEDICAL

A person's hands are visible on a control panel with many buttons, with a large monitor in the background displaying a world map with red and green network connections.

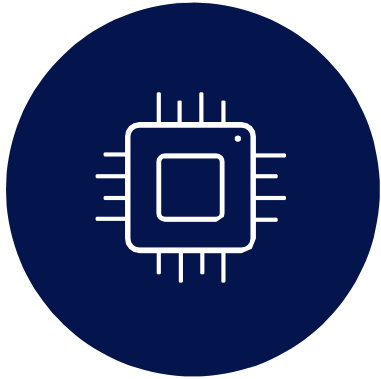

MILITARY / AEROSPACE

A complex network of large, silver industrial pipes with various valves and gauges, typical of a manufacturing or processing plant.

INDUSTRIAL

GLOBAL SOURCING

**Global Supplier
Management Program**

Traceable Material

**250 Million Inventory
(both active and EOL)**

Data Analytics

BOM ANALYSIS

**MASTER
BOM**

CRITICAL

MISSION DISABLING

Most likely cannot be replaced without significant redesign and/or qualification work.

MAJOR

MISSION ALTERING/DISABILITY

Substitution possible. May require significant redesign. May or may not require requalification.

MINOR

MISSION ALTERING

Most likely substitution is readily available. Minimal qualification work require.
