ABOUT US

SITRES
PRODUCTIVIDAD A TU ALCANCE

We are a company 100% dedicated to 3D solutions, focused on enhancing business processes, increasing favorable results for our clients.

With eight years of experience, at Sitres we have positioned ourselves in industrial evolution, representing leading brands in the market such as Stratasys® and MakerBot®. In addition, we support the positioning of new brands in development such as Peel 3D® and Alibre®.

Thanks to our team of highly qualified advisors and technicians, we provide solutions applied to the automotive, aerospace, medical, dental, architecture, consumer products, and tooling sectors, among others; with the aim of supporting and optimizing processes.

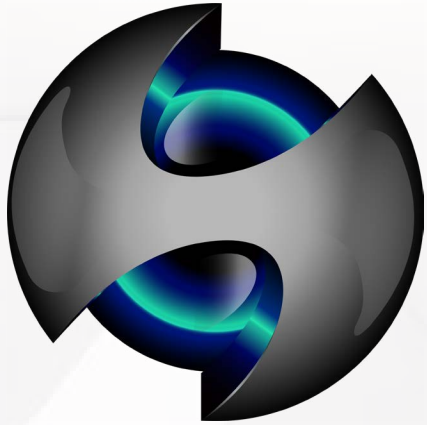

The expertise acquired in the team has positioned us in important sectors in the industry, our commercial impact has opened the doors for us with brands such as Ford, Audi, INAOE, Trupper, Katcon, Bondy Fiesta, Unilever, IPN and UNAM, to name a few; meeting high capacity expectations with each of them.

We promote social projects with the intention of continuing to support society with the development of the makersmexico.org organization in collaboration with TOM (Tikkun Olam Makers) Mexico.

Undoubtedly, time has supported us in discovering new ways to help, understanding that the limit of an idea is a thought that has become a solution.

MISSION

Transform ideas into solutions and innovation that optimize processes through the use of new technologies. Changing the way of creating and manufacturing.

RESPONSIBILITY

LEADERSHIP

CREATE BETTER
HUMANS

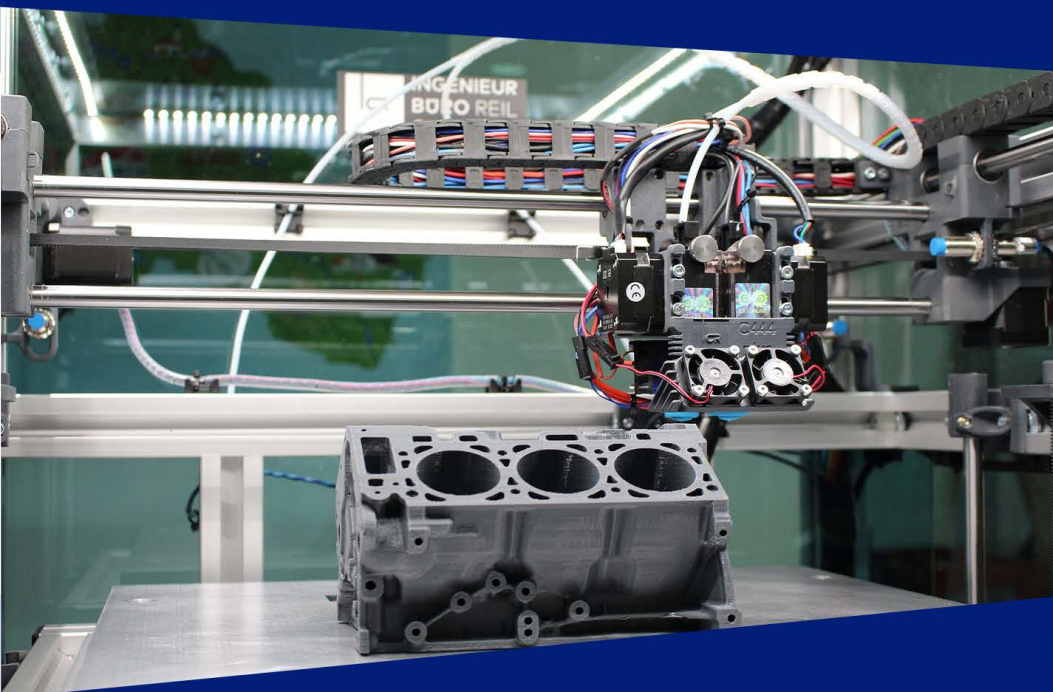

To be an educational leader in changing industrial and manufacturing processes and in time to market. Being a protagonist in the new industrial revolution of the century.

VISION

PROPOSAL OF VALUE

Facilitate the implementation of 3D technology as a tool for savings and growth in companies.

We transform ideas into solutions and innovation, optimizing processes through the implementation of 3D technologies as saving tools, complementing the way of creating and manufacturing, being a protagonist in the new industrial transformation.

Authorized distribution of:
Stratasys®, Meltio®, MakerBot®, Ceality®, Nova3D®, Peel 3D®, Alibre® in Mexico and Central America.

Industrial additive manufacturing, wide variety of polymers with different technologies.

MELTIO

Additive manufacturing of laser metal deposition, with a wide variety of metals for the industry.

High precision industrial scanners for reverse engineering.

3D parametric design software.

How do we bring productivity to your processes?

3D

3D OFFER

- ✓ Industrial manufacturing equipment (industry and entrepreneurs), in polymers and metal.
- ✓ Metal 3D printing integration for CNC, robotic arms and metal 3D printer.
- ✓ Scanning. equipment.
- ✓ Design software.

3D SERVICES

- ✓ Technical support.
- ✓ 3D printing service.
- ✓ Design.
- ✓ 3D scan
- ✓ Training.

Temporary and final spare parts.

Ease of design and printing.

Variety of materials and technologies.

End-use parts.

Jigs and Fixtures.
