ABX® ABTUBE

Was founded in 1986 as a new option in the mexican market for profiles and steel tubes.

In 1998, we began export operations to the United States, where we have achieved consolidation as one of the leading exporters in our country. Our focus has been based on being a supplier with high consistency in quality, availability of materials and customer satisfaction.

Serving different industries in the domestic and international markets; automotive, construction and distribution. ABTUBE is the starting point for products from value-added divisions such as ABFAB and ABTEFLU.
