- 2003 Increases its presence with facilities in Acapulco, Cozumel, Progreso and Veracruz
- 2016 Tuxpan Port Terminal begins operations
- 2017 Start-up of the Specialized Automobile Terminal in Lazaro Cardenas, Michoacan
- 2022 Acquisition of OCUPA and FRIMAN.

2022 FIGURES

MANZANILLO

Specialized Container Terminal

Infrastructure

- Dynamic capacity: 2.1 M TEUs
- 32 hectares for operations
- Waterfront: 1,350 m long | 16 m depth
- 16 ship-to-shore cranes | 52 yard-cranes
- 1,112 reefer plugs
- 3 rail racks of 500 meters each
- LCL warehouse: 5,500 m²
- Inspection area: 7,500 m²
- 5,500 TEUs Strategic Bonded Area (FCL)
- 14,000 TEUs off-dock with storage and M&R services (empty containers).

Services

- Containers load / discharge
- Reception and delivery to truck and rail
- Stuffing and devanning
- Inspection
- LCL storage.

OCUPA

Infrastructure

- Dynamic capacity: 385 thousand TEUs
- 9 hectares for operations
- Waterfront: 1,475 m | 16 m depth
- 5 mobile cranes | 11 yard-cranes
- 175 reefer plugs
- 3 rail racks of 350 meters each
- LCL warehouse: 4,200 m² | 4,084 racks
- General cargo warehouse: 2,000 m²
- Inspection area: 3,500 m²

Services

- Containers load / discharge
- Reception and delivery to truck and rail
- Stuffing and devanning
- Inspection
- Weighing and VGM emission
- Separation, model counting, labeling, tagging
- LCL storage
- Steel products handling.

FRIMAN

Infrastructure

- Total area: 16,426 m²
- 110 reefer plugs
- 2 refrigerated chambers (1,200 m²)
- 1,400 m² inspection point for reefer and dry cargo
- 16 refrigerated and dry cross-dock doors
- 4,248 m² LCL and general cargo warehouse
- Laboratory for animal and vegetable cargo analysis
- Inspection points approved by the Secretary of Agriculture and Rural Development (SADER).

Services

- Stuffing and devanning
- LCL storage
- Counting and separation of models
- Sampling for analysis in laboratories
- Containers transfers from other facilities in the port, for SADER and LCL inspections
- General cargo transfers from other facilities in the port.

TUXPAN

Containers

Infrastructure

- Dynamic capacity: 710,000 TEUs
- 556 m dock | 13.1 m draft
- 4 STS Super Post-Panamax cranes | 8 Automatic Stacking Cranes
- 240 reefer plugs
- Top / side loaders, terminal tractor / trailers
- Inspection point for dry and refrigerated cargo
- Roofed LCL warehouse and inspection zone
- CFS of 5,067 m².

Services

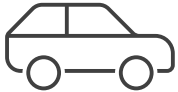

- Containers load / discharge
- Reception and delivery to truck
- Stuffing and devanning
- Inspection
- LCL storage
- Weighing and VGM emission.

Automobiles

Infrastructure and services

- Static capacity: 3,000 units.
- 5.5-hectare storage area.
- Loading / discharging of RoRo vessels | Drayage of units from vessel's ramp to storage yard or vice versa | Delivery / receiving to truck | Carwash, sticker placement, vehicle public registration, inventories | Special segregations.

General Cargo

Infrastructure and services

- 1,782 m² for general cargo and LCL storage
- Top / side loaders
- Forklifts of up to 30 tons
- Loading / unloading of multipurpose vessels | Drayage from under hook to storage area or vice versa | Delivery / receiving to truck | Special segregations | Project cargo.

Asphalt

Infrastructure

- Specialized facility capable of unloading 150 tons per hour.

Fossil fuels

Fossil fuels

TIFT-Tuxpan International Fluid Terminal

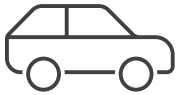

- Reception and storage of oil products:
- Gasoline
- Diesel
- Jet fuel.

VERACRUZ

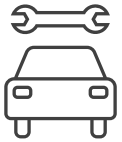

Automobiles

Infrastructure

- Area: 18 hectares
- Static capacity: 9,100 units
- 24/7 security and CCTV.

Services

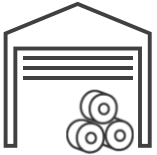

- Delivery / receiving to haul-away trucks and railcars
- Storage and inspection
- Washing, labeling, accessories placement
- VPC for added value services.

General cargo

Infrastructure

- 1,082 m² indoor storage facility with 4,500 tons capacity
- Additional 1-hectare area for outdoor storage
- Forklifts from 8,000 to 55,000 pounds
- Truck / flat beds
- Bull-moose cranes
- 24/7 surveillance.

Services

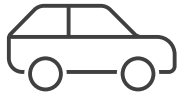

- Specialized services for steel coils used in the automotive industry
- Multi-purpose cargo handling
- Steel plates, pipes, steel beams, sheet piles, steel wire, project cargo, aluminum, static cargo (machinery, boxes, among others).

LAZARO CARDENAS

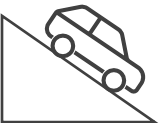

Automobiles

Infrastructure

- 46.5 hectares | Static capacity: 16,500 units
- 600-meter specialized berth | Two docking positions | 12 meters depth
- Specialized platforms on dock for RoRo vessels
- 6 railroad spurs connected to the port rail system.

Services

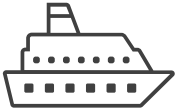

- Delivery / receiving to haul-away trucks and specialized railcars
- VPC for added value services.

COZUMEL

Cruises

Infrastructure

- Area: 25,388 m²
- Two docking positions of 458 m and 412 m, capable of receiving 2 of the largest cruise ships in the world simultaneously
- Small pier for tours
- Mooring service
- Shopping mall.

Services

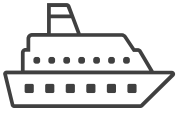

- Wide variety of restaurants and coffee shops
