Velocity Difference

WORLD CLASS QUALITY

Velocity is committed to taking a competitive leadership role in quality conformance; implementing one of the industry's most comprehensive quality inspection protocols, providing our customers the highest level of confidence.

GLOBAL DISTRIBUTION

Velocity will leverage its existing regional Inspection and Distribution Centers ("IDCs") in Austin, Amsterdam and Singapore for inspection, storage and global distribution coverage. We also employ Proximity Warehouses, where required.

SUPERIOR SOURCING

Through access to our in-stock inventory, our worldwide network of qualified suppliers, and the speed and global reach of our proprietary sourcing software, we fulfill our customer's most challenging component requirements.

SUPPLY CHAIN SOLUTIONS

Velocity provides integrated and custom solutions designed to reduce procurement and administrative costs, increase inventory turns, improve cash-to-cash cycle times and significantly reduce internal overhead costs.

SHORTAGE

Allocated items or parts that are outside lead time

EXCESS

Mitigating either obsolete or slow-moving inventory, determining dispositioning strategy (scrap, consign, buy)

INSPECTION

Recertifying existing customer inventory, certifying incoming customer inventory, and/or certifying transfer inventory between OEM and new EMS partner

LTB/EOL

Managing the buying, storing, and distribution through the customers' redesign efforts

PPV

Cost reduction from the current suppliers' price

VMI

Vendor Managed Inventory (VMI); Just in time delivery, quicker turns

VENDOR CONSOLIDATION

Reviewing the customers' current supply chain and examining areas of weakness, then leveraging an opportunity to consolidate multiple suppliers into one consolidated supplier

CORE SOLUTIONS

Integrating procurement, shipping, customs, inspection, warehousing, and enterprise resource planning systems to **solve supply chain interruptions.**
