# autoEX

Rand Technology is a sophisticated, full-service technology hardware supply chain company offering a comprehensive suite of services including NPI, production, global services, and asset recovery to support Fortune 500 customers worldwide.

With 30 years of experience in product lifecycle solutions, Rand helps clients thrive in all market conditions. We enhance business bottom lines and support the development of sustainable, socially responsible practices.

Rand's advantage lies in our superior market vision, world-class infrastructure, and unmatched flexibility. We are committed to a technology-driven future that values inclusiveness and diversity, ensuring that all stakeholders – employees, partners, customers, and vendors – work together towards responsible, environmentally-conscious solutions from component sourcing and distribution to IT asset recovery.

## Rand's Proprietary Automotive Inventory Exchange Platform

### Collaborative Peer Portal

Inventory can only be accessed by buyers/sellers within an exclusive timeframe

### Transparent Pricing

Pricing is subject to Rand's established formulas to minimize inflated pricing with NO fees

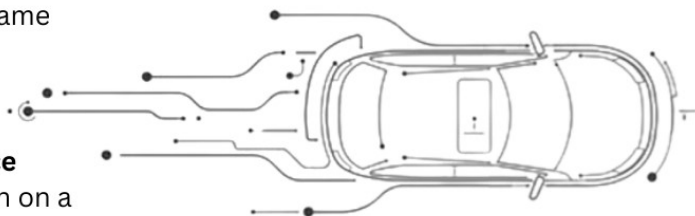

### Confidence

Confidentiality, risk and liability mitigation, and higher returns

### Global Audience

Product reutilization on a worldwide platform - all commodities, all manufacturers

### Quality & Visibility

Access to millions of auto-grade products that are inspected, authenticated, tested, and guaranteed by Rand

### Gap Fulfillment

Demand and surplus are matched automatically, in *real time*, with Rand's proprietary software
