MISSION/VISION

Our Mission

"Implement engineering solutions in industrial processes that increase customer efficiency through personalized service."

Our Vision

"A company that develops innovative technological solutions in automation within any manufacturing process with an international presence and nationally recognized as the company with the highest customer satisfaction."

CORE VALUES

Integrity is what drives us to be consistent to guide us in the right direction, with the highest ethical and moral values.

Adaptability that leads us to adequately comply with the changes and demands that occur in our environment, responding positively to the needs of our clients.

Discipline with which we fulfill the delivery of our projects in the best way, always giving more than expected.

Passion about what we do and what we want to do.

Leadership and teamwork with our capacity to set and achieve goals as a group.

ALLIANCES

Banner Engineering (Partner)

"At Banner Engineering, our dedication to developing quality products and providing personable service enables us to deliver smart solutions to our customers across industries and geographies."

OMRON (Partner)

"We offer a wide range of services to help you get the most value from your automation investment."

Blú Capital (Partner)

"We are a financial company with experience in the transformation industry; we know the processes and difficulties of such a competitive environment."

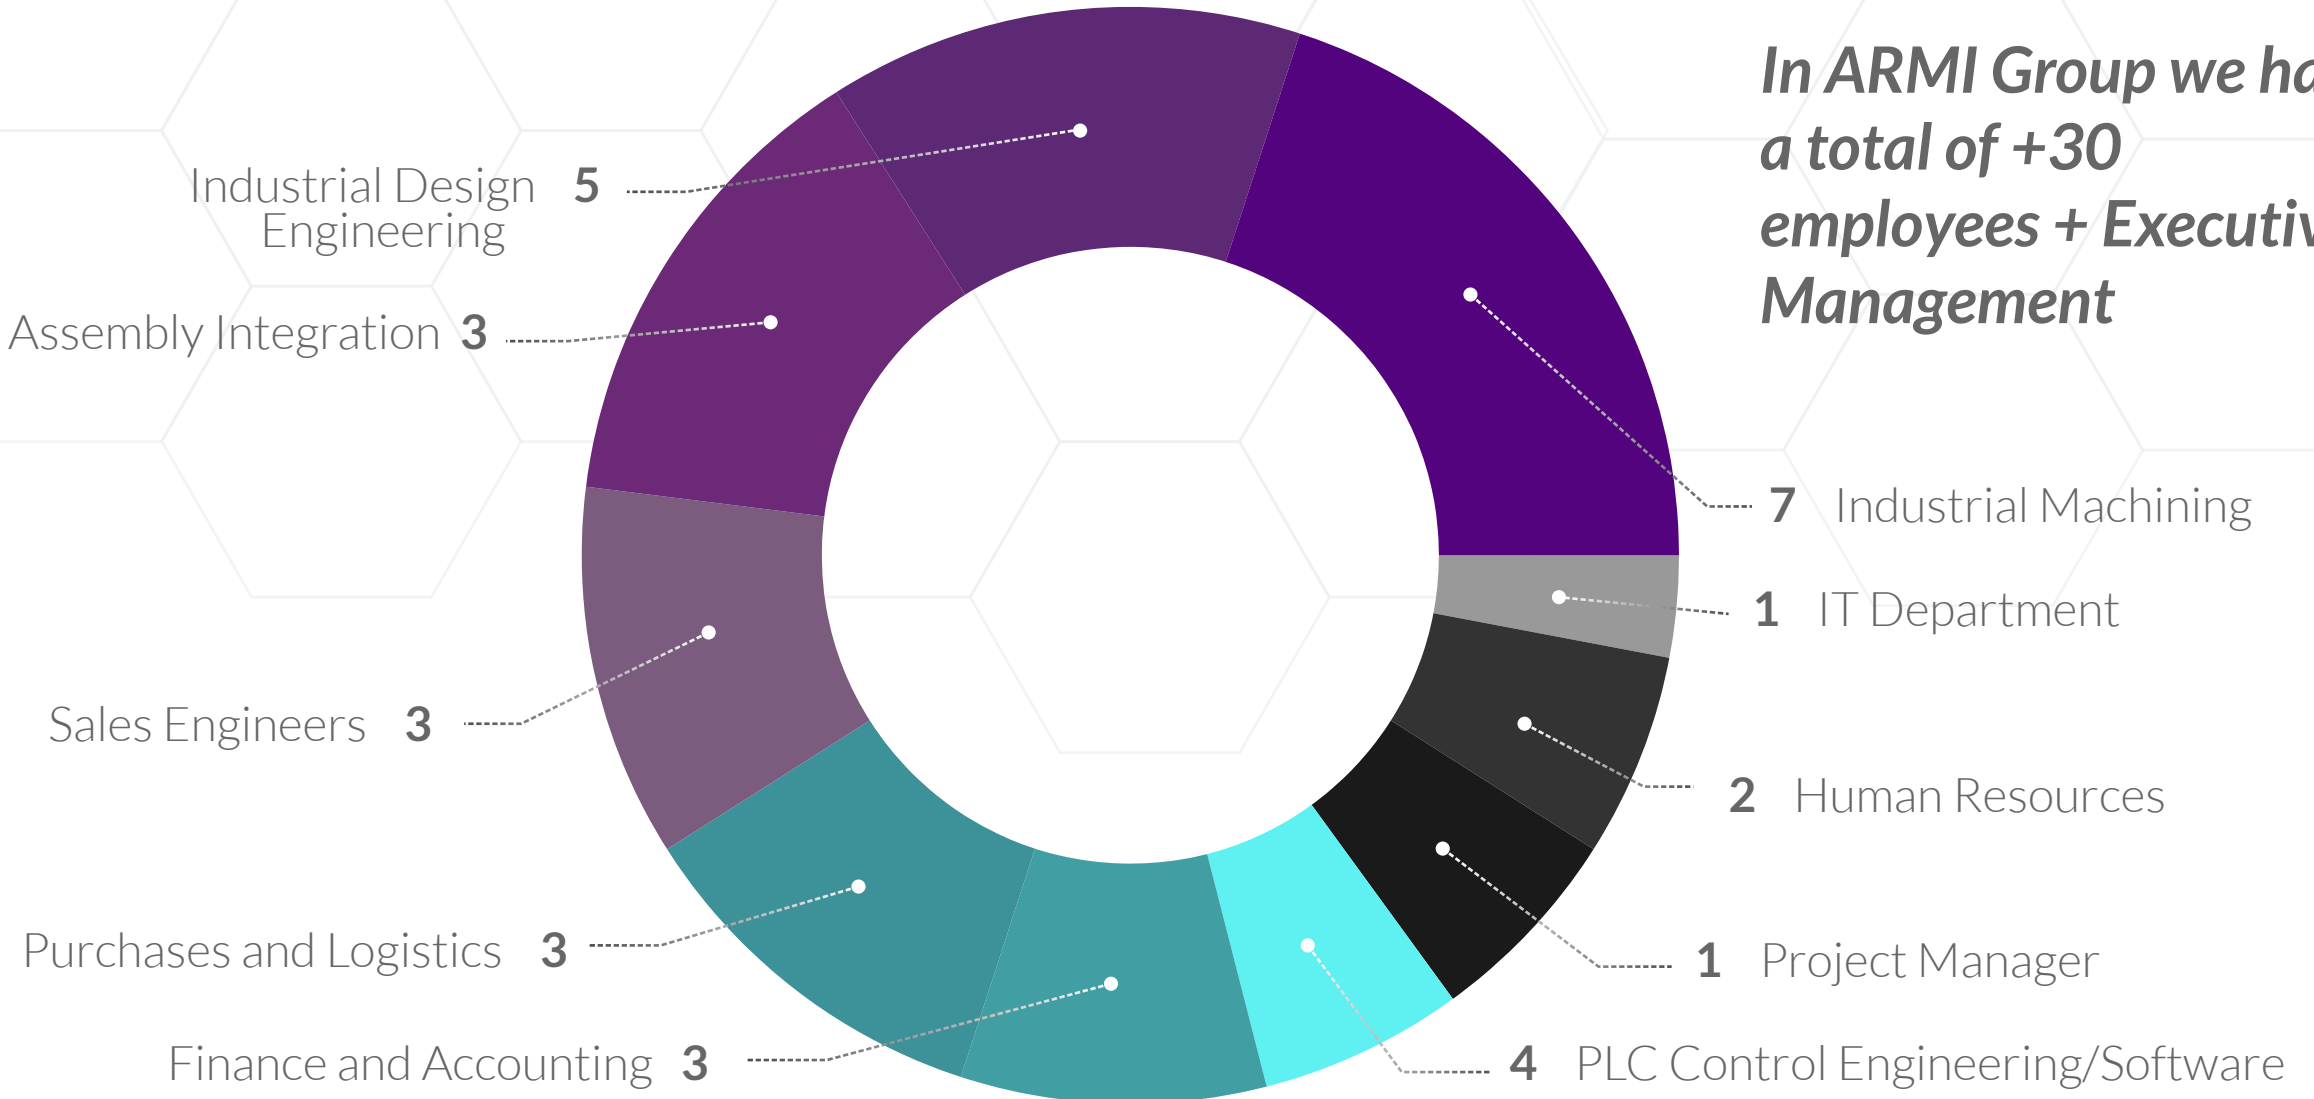

Ingeniate

"Located in the city of Aguascalientes, Mexico. Ingeniate (Applied Engineering and Technology) provides a large catalog of services and products related to automation, machinery, robotics, software and industry 4.0"

COLLABORATORS

In ARMI Group we have a total of +30 employees + Executive Management

3D Impressions

Industrial Machining

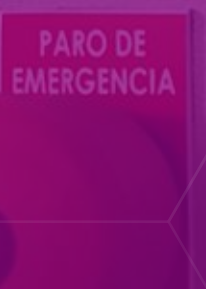

Industrial Products

Programming

INDUSTRIAL DESIGN

- Design of automated equipment.
- Design of fixtures, poka yokes, nests, gages, supports, etc.
- Design of workstations and metallic structures.

INDUSTRIAL PRODUCTS

We offer industrial products directly from Banner and Omron, such as:

- Safety light curtains.
- Photoelectric sensors.
- PLC and modules.
- Robots.
- Vision sensors.

INTEGRATION SOLUTIONS

- Integrations and electrical connections of control cabinets and controllers.
- Manufacture of automated equipment and work stations.
- Integration of production lines, conveyors, robots.
- Installation of sensors, vision systems, pneumatic systems tires and safety systems.

INDUSTRIAL MACHINE & WELDING

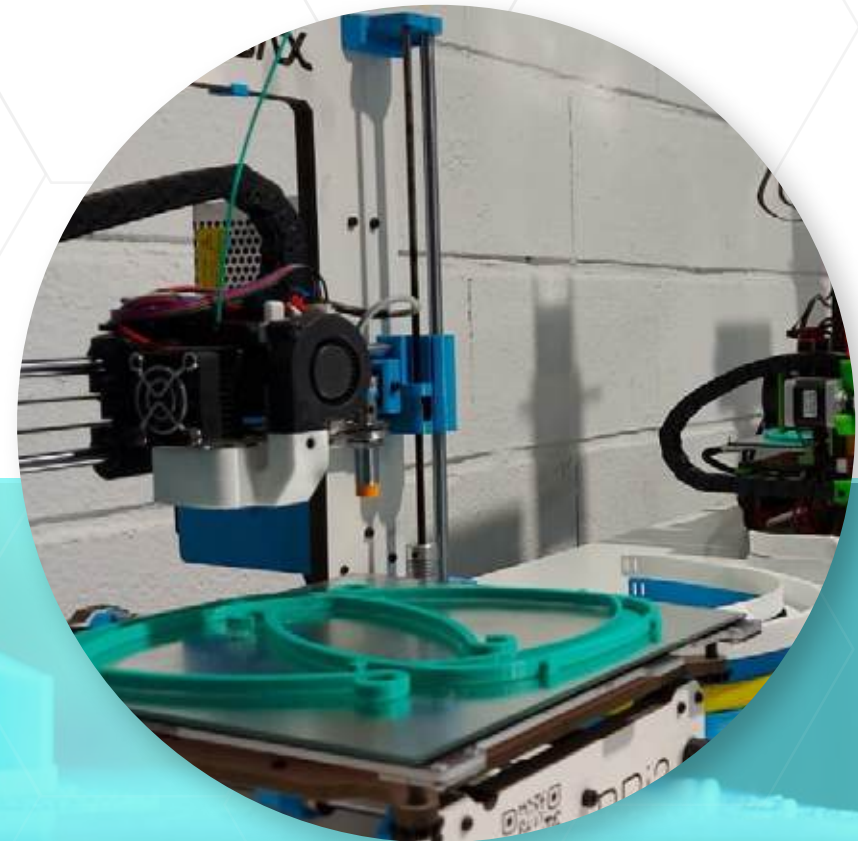

- Conventional machining (CNC milling, lathe, grinding).
- Precision machined or in series by CNC.
- Industrial welding (chute, utility carts, production stations).
- Tempering of parts, anodized coating, black oxide and / or zinc.

3D IMPRESSIONS

- PLA
- PETG
- ABS
- Polycarbonate of steel
- Etc.

PROJECTS

Inline Assembly
Autonomous line
for assembly of
HP parts.

Magnetizer
Semi-automatic
station for assembly,
magnetization and
inspection of rotors.

PROJECTS

Conveyors

Conveyor belt system.

Adhesive Applicators

Automatic semi-liquid dispensing machine.

PROJECTS

Conveyors
180° pallet
flipper.

**One Hi-Pot
Test**
Terminal continuity
tester machine.

PROJECTS

Riveting Machine

Semi-automatic station for riveting shock absorbers.

Clean Room Workstations

Semi-automatic stations for John Deere.

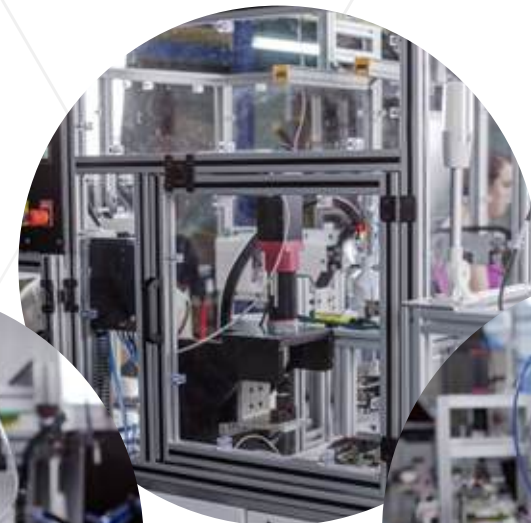

SUCCESS STORY

Automated production line for product assembly HP, volume control of Poly blackwire headphones.

The project has 8 stations and had a reduction from 9 operators to 1 operator.
