About Us

International presence with over \$50 million in sales.

Designer / manufacturer / tool maker
for the electronic hardware marketplace.

Company owned factories in Taiwan and
mainland China with office/warehouse facilities
in the United States and Europe.

Established in 1987 with initial presence in Taiwan, branching out to
China in 1994 (Dongguan) and 2003 (Suzhou).

Kang Yang International formed in 2009 (USA)
and 2014 (Europe) to extend global reach and support.

Our Product Categories

Electronic hardware

- PCB spacer/supports
- LED holders and Light Pipes
- Handles / Grommets / Bushings
- Cable clips / routing clamps
- PCB Terminals / contacts / battery holders

EMI and Thermal Products

- Thermal gap pads
- EMI Gaskets, EMI Absorbers

Cable protection / sleeving

Cable glands / IP68 rated cord grips

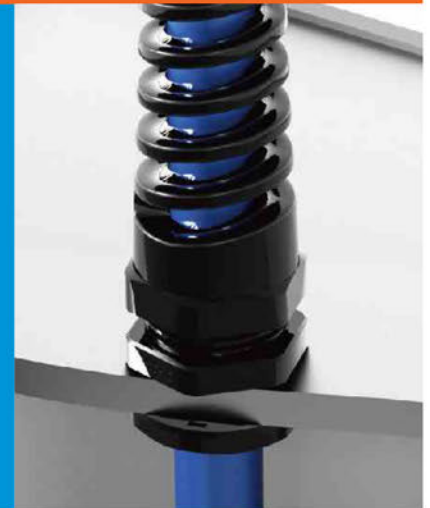

Our Advantage...for You!

Having the entire tooling process contained within our Kang Yang
factories provides both competitive cost and lead time for
producing your designs.

Many items can be cross matched to our competitor's
offerings or modified to custom requirements.

We welcome your design challenge!

Our complete product offering protects, supports, transmits,
shields and connects to the products or devices we use every day.
Let Kang Yang International become your secret advantage
to elevate you above the competition.
