About Us

Delivering a personal touch
since

1989

for each of our
clients

As more companies consolidate and more automation takes hold, we're still dedicated to knowing our clients by name. Our adaptability and the options we provide allow us to operate with the highest value, while reinforcing how much personal relationships matter.

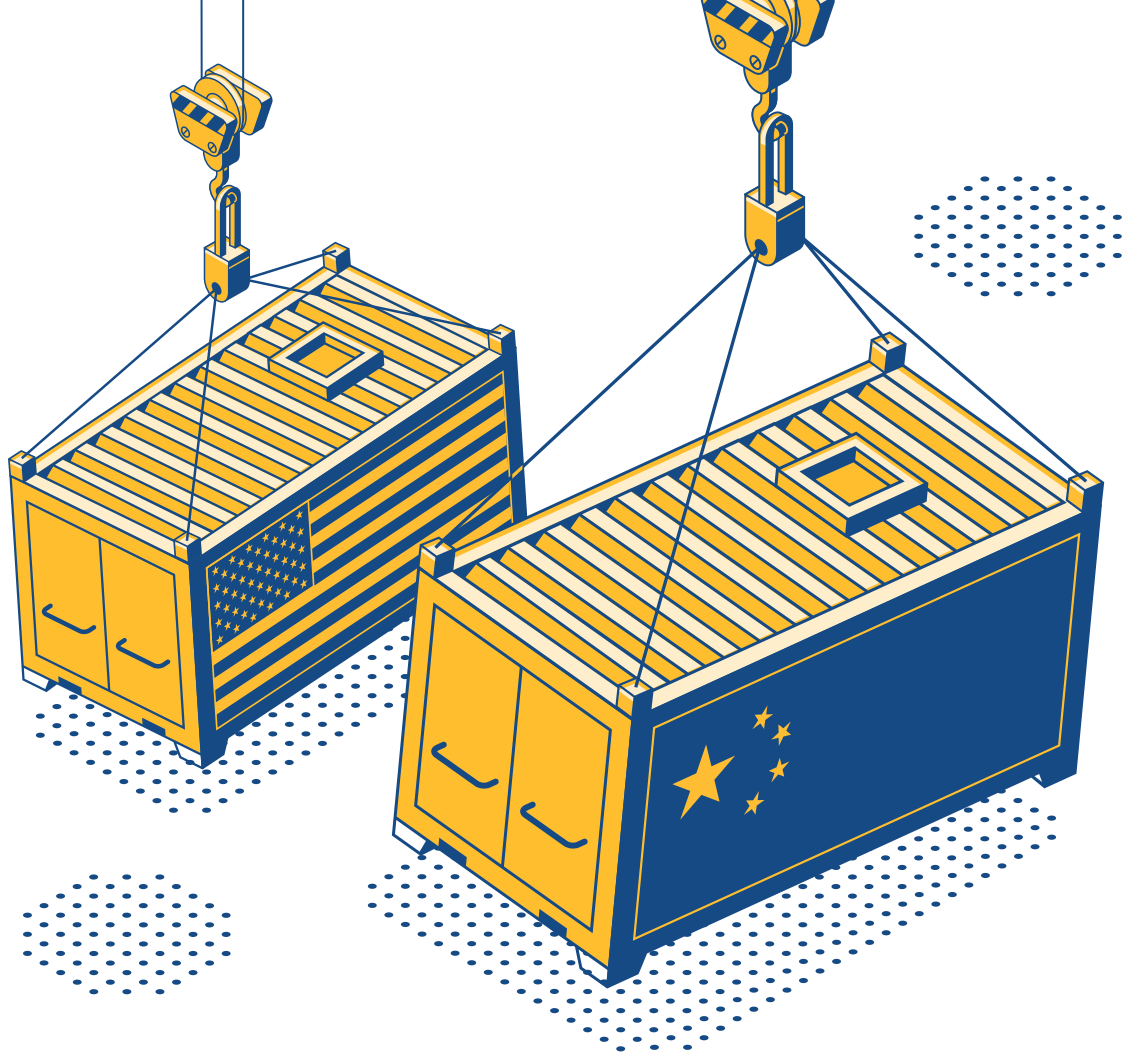

Since 1989, the Kesco Group has been dedicated to serving present and future customers by consistently delivering the most responsive, cost-effective, and comprehensive package of international logistics services.

Through continuing reinvestments in our state-of-the-art information systems in addition to upgrading our facilities and equipment by expanding our geographic coverage, Kesco aims to remain in the vanguard of global logistics providers.

When you partner with Kesco, you won't be given preset A, B, or C choices. You'll be given a tailor-made logistics program created exclusively for your company that's designed to drive down costs as well as stress.

Throughout every step of the way, our dedicated team of experts will be there to guide you through the supply chain process, monitoring your account day in and day out. By reacting to the slightest shift in circumstances, we proactively search for new, more effective methods, so you don't have to.

Nothing means more to us than our partnerships. It's why we strive to offer the industry's most personalized service and invest in new means to support our clients' growth.

Our Services

Logistics and shipping are not one-size-fits-all operations anymore, and it's changed the role of a modern freight forwarder.

You can count on Kesco to be a true logistics partner because complex global supply chains are not just about moving something from Point A to point B. A well-run supply chain takes and the end-to-end solution designed for what your individual business needs.

Ocean Freight Services

As a leading Non-Vessel Operating Common Carrier (NVOCC), Kesco has the connections and capacity to get you dependable sailing times and competitive rates for you.

Whether you're shipping less-than-container loads, full container loads, or overweight cargo, we provide flexible shipping options and efficient routing solutions that are convenient for you.

OUR PORTFOLIO OF OCEAN FREIGHT SOLUTIONS

Shipping with trusted carriers and real-time visibility opportunities

Kesco's extensive network of global carriers provides our customers with a range of reliable shipping lines that cover various major ports. This network paired with our real-time tracking capabilities can give you optimal transit times and better end-to-end visibility.

Access to reliable capacity and better rates

As a Federal Maritime Commission (FMC) licensed Ocean Transportation Intermediary (OTI), Kesco can enter into service contracts with steamship lines for volume rates on ocean cargo moving to and from the U.S. We can also prepare bills of lading on behalf of Beneficial Cargo Owners (BCOs) who hold their own contracts.

Integration with warehouses, retailers, and our national trucking network

With our comprehensive highway and intermodal transportation network as well as our warehousing and distribution options, we can help reduce supply chain inefficiencies and keep your business operating without disruptions. Kesco's partnerships with quality service providers like Expeditors International help us better address all of your unique logistics challenges.
